

§ 143-215.109. Control of complex sources.

(a) The Commission may by rule establish criteria for controlling the effects of complex sources on air quality. The rules shall set forth such basic minimum criteria or standards under which the Commission shall approve or disapprove any such construction or modification. The rules shall further provide for the submission of plans, specifications and such other information as may be necessary for the review and evaluation of proposed or modified complex sources.

(b) If the Commission shall determine that the construction or modification of any complex sources will result in a violation of ambient air quality standards or interfere with the attainment of such standards in any area where an air pollution abatement control program has been established, the Commission shall have authority to disapprove such construction or modification or to approve such construction or modification under such conditions as the Commission shall deem necessary or appropriate.

(c) Repealed by Session Laws 1987, c. 827, s. 207. (1973, c. 821, s. 6; c. 1262, s. 23; 1987, c. 827, ss. 154, 207; 2013-413, s. 27.)
