§ 139-56. Recommendation of priorities and disbursal of grant funds.

Whenever two or more applications for grants are approved in whole or in part, the State Soil and Water Conservation Commission shall establish priorities among the several applications for disbursal of grant funds. To the extent that funds are available, the State Soil and Water Conservation Commission may authorize the disbursal of grant funds to the applicants consistent with the established priorities. The State Soil and Water Conservation Commission shall promulgate regulations to provide for an audit of grant funds to assure that they are spent for the purposes delineated in the application. Established priorities may be reviewed from time to time and revised if circumstances warrant such revision. (1977, 2nd Sess., c. 1206.)

§ 139-57. Availability of funds.

All grants shall be contingent upon the availability of funds for disbursement to applicants. At the end of each fiscal year the State Soil and Water Conservation Commission shall notify all applicants whose applications have been approved and to whom grant funds have not been disbursed of the status of their application. At the time of notification the State Soil and Water Conservation Commission shall notify the applicants of the availability of funds for grants in the upcoming fiscal year and at the same time shall notify the applicants of their position on any priority list that may have been established for the disbursal of grant funds for small watershed projects.
