- c1. To issue an annual 'report card' for the State and for each local school administrative unit, assessing each unit's efforts to improve student performance based on the growth in performance of the students in each school and taking into account progress over the previous years' level of performance and the State's performance in comparison with other states. This assessment shall take into account factors that have been shown to affect student performance and that the State Board considers relevant to assess the State's efforts to improve student performance.
  - c2. Repealed by Session Laws 1995 (Regular Session, 1996), c. 716, s. 1.
- c3. To develop a system of school building improvement reports for each school building. The purpose of school building improvement reports is to measure improvement in the growth in student performance at each school building from year to year, not to compare school buildings. The Board shall include in the building reports any factors shown to affect student performance that the Board considers relevant to assess a school's efforts to improve student performance. Local school administrative units shall produce and make public their school building improvement reports by March 15, 1997, for the 1995-96 school year, by October 15, 1997, for the 1996-97 school year, and annually thereafter. Each report shall be based on building-level data for the prior school year.
  - c4. To develop guidelines, procedures, and rules to establish, implement, and enforce the School-Based Management and Accountability Program under Article 8B of this Chapter in order to improve student performance, increase local flexibility and control, and promote economy and efficiency.
    - d. To formulate rules and regulations for the enforcement of the compulsory attendance law.
    - e. To manage and operate a system of insurance for public school property, as provided in Article 38 of this Chapter.

In making substantial policy changes in administration, curriculum, or programs the Board should conduct hearings throughout the regions of the State, whenever feasible, in order that the public may be heard regarding these matters."

- (d) G.S. 115C-12(16) reads as rewritten:
- 40 "(16) Power with Regard to Salary Schedules. The Board shall provide for
  41 sick leave with pay for all public school employees in accordance with
  42 the provisions of this Chapter and shall promulgate rules and regulations

- providing for necessary substitutes on account of sick leave and other teacher absences.
  - a. Support personnel refers to all public school employees who are not required by statute or regulation to be certified in order to be employed. The State Board of Education is authorized and empowered to adopt all necessary rules for full implementation of all schedules to the extent that State funds are made available for support personnel.
    - b. Salary schedules for the following public school support personnel shall be adopted by the State Board of Education: school finance officer, office support personnel, teacher assistants, maintenance supervisors, custodial personnel, and transportation personnel. The Board shall classify these support positions in terms of uniform pay grades included in the salary schedule of the State Personnel Commission.

By the end of the third payroll period of the 1995-96 fiscal year, local boards of education shall place State-allotted office support personnel, teacher assistants, and custodial personnel on the salary schedule adopted by the State Board of Education so that the average salary paid is the State-allotted amount for the category. In placing employees on the salary schedule, the local board shall consider the education, training, and experience of each employee. It is the intent of the General Assembly that a local school administrative unit not fail to employ an employee who was employed for the prior school year in order to implement the provisions of this sub-subdivision. A local board of education is in compliance with this sub-subdivision if the average salary paid is at least ninety-five percent (95%) of the State-allotted amount for the category at the end of the third payroll period of the 1995-96 fiscal year, and at least ninety-eight percent (98%) of the State-allotted amount for the category at the end of the third payroll period of each subsequent fiscal year. The Department of Public Instruction shall provide technical assistance to local school administrative units regarding the implementation of this sub-subdivision.

The State Board of Education shall report to the General Assembly, prior to March 31, 1995, and March 31, 1996, on the implementation of this sub-subdivision.

These guidelines shall include (i) a description of the programs and services that are recommended to be provided in alternative learning programs and (ii) a process for ensuring that an assignment is appropriate for the student and that the student's parents are involved in the decision.

> The State Board of Education shall provide technical support to local school administrative units to assist them in developing and implementing plans for alternative learning programs.

The State Board shall evaluate the effectiveness of alternative learning programs and, in its discretion, of any other programs funded from the Alternative Schools/At-Risk Student allotment. Local school administrative units shall report to the State Board of Education on how funds in the Alternative Schools/At-Risk Student allotment are spent and shall otherwise cooperate with the State Board of Education in evaluating the alternative learning programs. G.S. 115C-81(a) reads as rewritten:

The General Assembly believes that all children can learn. It is the intent of the 26 "(a) 27 General Assembly that the mission of the public school community is to challenge with 28 high expectations each child to learn, to achieve, and to fulfill his or her potential. With that mission as its guide, the State Board of Education shall adopt a Basic Education 29 Program for the public schools of the State. Before it adopts or revises the Basic 30 Education Program, the State Board shall consult with an Advisory Committee, including 31 at least eight members of local boards of education, that the State Board appoints from a 32 list of nominees submitted by the North Carolina School Boards Association. The State 33 34 Board shall report annually to the General Assembly on any changes it has made in the program 35 in the preceding 12 months and any changes it is considering for the next 12 months.

36 The State Board shall implement the Basic Education Program within funds appropriated for that purpose by the General Assembly and by units of local government. 37 It is the intent of the General Assembly that until the Basic Education Program is fully 38 funded, the implementation of the Basic Education Program shall be the focus of State 39 40 educational funding. It is the goal of the General Assembly that the Basic Education 41 Program be fully funded and completely operational in each local school administrative unit by July 1, 1995. 42
