Section 5.(b) Decreases in Federal Fund Availability. – If the United States Congress reduces federal fund availability in the Social Services Block Grant below the amounts appropriated in this section, then the Department of Health and Human Services shall allocate these decreases giving priority first to those direct services mandated by State or federal law, then to those programs providing direct services that have demonstrated effectiveness in meeting the federally and State-mandated services goals established for the Social Services Block Grant. The Department shall not include transfers from TANF for specified purposes in any calculations of reductions to the Social Services Block Grant.

If the United States Congress reduces the amount of TANF funds below the amounts appropriated in this section after the effective date of this act, then the Department shall allocate the decrease in funds after considering any underutilization of the budget and the effectiveness of the current level of services. Any TANF Block Grant fund changes shall be reported to the Senate Appropriations Committee on Human Resources, the House of Representatives Appropriations Subcommittee on Health and Human Services, and the Fiscal Research Division.

The Department of Health and Human Services shall make a report in collaboration with all other State and local agencies and public and private entities (i) that are impacted by the Social Services or TANF Block Grants and (ii) that will be affected by future reductions in either of these block grants detailing plans for dealing with future reductions or adjustments in either of these block grants, including plans for programs funded wholly or in part with transfers from the TANF Block Grant.

Decreases in federal fund availability shall be allocated for the Maternal and Child Health and Preventive Health Services federal block grants by the Department of Health and Human Services after considering the effectiveness of the current level of services.

Section 5.(c) Increases in Federal Fund Availability. – Any block grant funds appropriated by the United States Congress in addition to the funds specified in this act shall be expended by the Department of Health and Human Services, with the approval of the Office of State Budget and Management, provided the resultant increases are in

accordance with federal block grant requirements and are within the scope of the block grant plan approved by the General Assembly.

Section 5.(d) Changes to the budgeted allocations to the block grants appropriated in this act due to decreases or increases in federal funds shall be reported immediately to the Senate Appropriations Committee on Human Resources, the House of Representatives Appropriations Subcommittee on Health and Human Services, and the Fiscal Research Division.

Section 5.(e) Limitations on Preventive Health Services Block Grant Funds. – Twenty-five percent (25%) of funds allocated for Rape Prevention and Rape Education shall be allocated as grants to nonprofit organizations to provide rape prevention and education programs targeted for middle, junior high, and high school students.

If federal funds are received under the Maternal and Child Health Block Grant for abstinence education, pursuant to section 912 of Public Law 104-193 (42 U.S.C. § 710), for the 1999-2000 fiscal year, then those funds shall be transferred to the State Board of Education to be administered by the Department of Public Instruction. The Department of Public Instruction shall use the funds to establish an Abstinence Until Marriage Education Program and shall delegate to one or more persons the responsibility of implementing the program and G.S. 115C-81(e1)(4). The Department of Public Instruction shall carefully and strictly follow federal guidelines in implementing and administering the abstinence education grant funds.

Section 5.(f) The sum of one million dollars (\$1,000,000) appropriated to the Department of Health and Human Services, Division of Social Services, in the TANF Block Grant for the 1999-2000 fiscal year for the evaluation of the Work First Program shall be used to do each of the following:

- (1) Expand the current evaluation of the Work First Program to assess former recipients' earnings, barriers to advancement to economic self-sufficiency, utilization of community support services, and other longitudinal employment data. Assessment periods shall include six and 18 months following closure of the case.
- (2) Expand the current evaluation of the Work First Program to profile the State's child-only caseload to include indicators of economic and social well-being, academic and behavioral performance, demographic data, description of living arrangements including length of placement out of the home, social and other human services provided to families, and other information needed to assess the needs of the child-only Work First Family Assistance clients and families.
- (3) Expand the current evaluation to profile clients and families exempted from federal and State work participation requirements. The evaluation shall include an assessment of the client and family needs including why clients and families have been exempted.

The Department of Health and Human Services shall make a report on its progress in complying with this subsection to the Senate Appropriations Committee on Human Resources, the House of Representatives Appropriations Subcommittee on

Health and Human Services, and the Fiscal Research Division no later than May 1, 2000.

SUPPLEMENTAL FUNDING IN LOW-WEALTH COUNTIES

Section 8.5.(a) Funds for Supplemental Funding. – The General Assembly finds that it is appropriate to provide supplemental funds in low-wealth counties to allow those counties to enhance the instructional program and student achievement; therefore, funds are appropriated to State Aid to Local School Administrative Units for the 1999-2000 fiscal year and the 2000-2001 fiscal year to be used for supplemental funds for schools.

Section 8.5.(b) Use of Funds for Supplemental Funding. – All funds received pursuant to this section shall be used only (i) to provide instructional positions, instructional support positions, teacher assistant positions, clerical positions, instructional supplies and equipment, staff development, and textbooks, and (ii) for salary supplements for instructional personnel and instructional support personnel.

Local boards of education are encouraged to use at least twenty percent (20%) of the funds received pursuant to this section to improve the academic performance of children who are performing at Level I or II on either reading or mathematics end-of-grade tests in grades 3-8 and children who are performing at Level I or II on the writing tests in grades 4 and 7. Local boards of education shall report to the State Board of Education on an annual basis on funds used for this purpose, and the State Board shall report this information to the Joint Legislative Education Oversight Committee.

- a. Subtract the present-use value of agricultural land, horticultural land, and forestland in the county, as defined in G.S. 105-277.2, from the total assessed real property valuation of the county,
 - b. Adjust the resulting amount by multiplying by a weighted average of the three most recent annual sales assessment ratio studies,

 - c. Compute the percentage that the county-adjusted property tax base per square mile is of the State-adjusted property tax base per square mile and weight the resulting percentage by a factor of one-tenth,

If real property in a county has been revalued one year prior to the most recent sales assessment ratio study, a weighted average of the two most recent sales assessment ratios shall be used. If property has been revalued the year of the most recent

sales assessment ratio study, the sales assessment ratio for the year of revaluation shall be used.

Section 8.5.(d) Eligibility for Funds. – Except as provided in subsection (h) of this section, the State Board of Education shall allocate these funds to local school administrative units located in whole or in part in counties in which the county wealth as a percentage of the State average wealth is less than one hundred percent (100%).

Section 8.5.(e) Allocation of Funds. – Except as provided in subsection (g) of this section, the amount received per average daily membership for a county shall be the difference between the State average current expense appropriations per student and the current expense appropriations per student that the county could provide given the county's wealth and an average effort to fund public schools. (To derive the current expense appropriations per student that the county could be able to provide given the county's wealth and an average effort to fund public schools, multiply the county wealth as a percentage of State average wealth by the State average current expense appropriations per student.)

The funds for the local school administrative units located in whole or in part in the county shall be allocated to each local school administrative unit, located in whole or in part in the county, based on the average daily membership of the county's students in the school units.

If the funds appropriated for supplemental funding are not adequate to fund the formula fully, each local school administrative unit shall receive a pro rata share of the funds appropriated for supplemental funding.

Section 8.5.(f) Formula for Distribution of Supplemental Funding Pursuant to This Section Only. – The formula in this section is solely a basis for distribution of supplemental funding for low-wealth counties and is not intended to reflect any measure of the adequacy of the educational program or funding for public schools. The formula is also not intended to reflect any commitment by the General Assembly to appropriate any additional supplemental funds for low-wealth counties.

Section 8.5.(g) Minimum Effort Required. – Counties that had effective tax rates in the 1996-97 fiscal year that were above the State average effective tax rate but that had effective rates below the State average in the 1997-98 fiscal year or thereafter shall receive reduced funding under this section. This reduction in funding shall be determined by subtracting the amount that the county would have received pursuant to Section 17.1(g) of Chapter 507 of the 1995 Session Laws from the amount that the county would have received if qualified for full funding and multiplying the difference by ten percent (10%). This method of calculating reduced funding shall apply one time only.

This method of calculating reduced funding shall not apply in cases in which the effective tax rate fell below the statewide average effective tax rate as a result of a reduction in the actual property tax rate. In these cases, the minimum effort required shall be calculated in accordance with Section 17.1(g) of Chapter 507 of the 1995 Session Laws.

If the county documents that it has increased the per student appropriation to the school current expense fund in the current fiscal year, the State Board of Education

shall include this additional per pupil appropriation when calculating minimum effort pursuant to Section 17.1(g) of Chapter 507 of the 1995 Session Laws.

Section 8.5.(h) Nonsupplant Requirement. – A county in which a local school administrative unit receives funds under this section shall use the funds to supplement local current expense funds and shall not supplant local current expense funds. For the 1999-2001 fiscal biennium, the State Board of Education shall not allocate funds under this section to a county found to have used these funds to supplant local per student current expense funds. The State Board of Education shall make a finding that a county has used these funds to supplant local current expense funds in the prior year, or the year for which the most recent data are available, if:

- (1) The current expense appropriation per student of the county for the current year is less than ninety-five percent (95%) of the average of the local current expense appropriations per student for the three prior fiscal years; and
- (2) The county cannot show (i) that it has remedied the deficiency in funding, or (ii) that extraordinary circumstances caused the county to supplant local current expense funds with funds allocated under this section.

The State Board of Education shall adopt rules to implement this section.

Section 8.5.(i) Reports. – The State Board of Education shall report to the Joint Legislative Education Oversight Committee prior to May 1, 2000, if it determines that counties have supplanted funds.

Section 8.5.(j) Department of Revenue Reports. – The Department of Revenue shall provide to the Department of Public Instruction a preliminary report for the current fiscal year of the assessed value of the property tax base for each county prior to March 1 of each year and a final report prior to May 1 of each year. The reports shall include for each county the annual sales assessment ratio and the taxable values of (i) total real property, (ii) the portion of total real property represented by the present-use value of agricultural land, horticultural land, and forestland as defined in G.S. 105-277.2, (iii) property of public service companies determined in accordance with Article 23 of Chapter 105 of the General Statutes, and (iv) personal property.

SMALL SCHOOL SYSTEM SUPPLEMENTAL FUNDING

Section 8.6.(a) Funds for Small School Systems. – Except as provided in subsection (b) of this section, the State Board of Education shall allocate funds appropriated for small school system supplemental funding (i) to each county school administrative unit with an average daily membership of fewer than 3,150 students and (ii) to each county school administrative unit with an average daily membership of from 3,150 to 4,000 students if the county in which the local school administrative unit is located has a county-adjusted property tax base per student that is below the State-adjusted property tax base per student and if the total average daily membership of all

local school administrative units located within the county is from 3,150 to 4,000 students. The allocation formula shall:

- (1) Round all fractions of positions to the next whole position.
- (2) Provide five and one-half additional regular classroom teachers in counties in which the average daily membership per square mile is greater than four, and seven additional regular classroom teachers in counties in which the average daily membership per square mile is four or fewer.
- (3) Provide additional program enhancement teachers adequate to offer the standard course of study.
- (4) Change the duty-free period allocation to one teacher assistant per 400 average daily membership.
- (5) Provide a base for the consolidated funds allotment of at least three hundred fifty-five thousand dollars (\$355,000), excluding textbooks.
- (6) Allot vocational education funds for grade 6 as well as for grades 7-12.

If funds appropriated for each fiscal year for small school system supplemental funding are not adequate to fund fully the program, the State Board of Education shall reduce the amount allocated to each county school administrative unit on a pro rata basis. This formula is solely a basis for distribution of supplemental funding for certain county school administrative units and is not intended to reflect any measure of the adequacy of the educational program or funding for public schools. The formula is also not intended to reflect any commitment by the General Assembly to appropriate any additional supplemental funds for such county administrative units.

Section 8.6.(b) Nonsupplant Requirement. – A county in which a local school administrative unit receives funds under this section shall use the funds to supplement local current expense funds and shall not supplant local current expense funds. For the 1999-2001 fiscal biennium, the State Board of Education shall not allocate funds under this section to a county found to have used these funds to supplant local per student current expense funds. The State Board of Education shall make a finding that a county has used these funds to supplant local current expense funds in the prior year, or the year for which the most recent data are available, if:

- (1) The current expense appropriation per student of the county for the current year is less than ninety-five percent (95%) of the average of the local current expense appropriations per student for the three prior fiscal years; and
- (2) The county cannot show (i) that it has remedied the deficiency in funding, or (ii) that extraordinary circumstances caused the county to supplant local current expense funds with funds allocated under this section.

The State Board of Education shall adopt rules to implement this section.

Section 8.6.(c) Phase-Out Provisions. – If a local school administrative unit becomes ineligible for funding under this formula solely because of an increase in the county-adjusted property tax base per student of the county in which the local school administrative unit is located, funding for that unit shall be phased out over a two-year

period. For the first year of ineligibility, the unit shall receive the same amount it received for the prior fiscal year. For the second year of ineligibility, it shall receive one-half of that amount.

If a local school administrative unit becomes ineligible for funding under this formula solely because of an increase in the population of the county in which the local school administrative unit is located, funding for that unit shall be continued for five years after the unit becomes ineligible.

Section 8.6.(d) Definitions. – As used in this section:

- (1) "Average daily membership" means within two percent (2%) of the average daily membership as defined in the North Carolina Public Schools Allotment Policy Manual, adopted by the State Board of Education.
- (2) "County-adjusted property tax base per student" means the total assessed property valuation for each county, adjusted using a weighted average of the three most recent annual sales assessment ratio studies, divided by the total number of students in average daily membership who reside within the county.
- (2a) "Local current expense funds" means the most recent county current expense appropriations to public schools, as reported by local boards of education in the audit report filed with the Secretary of the Local Government Commission pursuant to G.S. 115C-447.
- (3) "Sales assessment ratio studies" means sales assessment ratio studies performed by the Department of Revenue under G.S. 105-289(h).
- (4) "State adjusted property tax base per student" means the sum of all county adjusted property tax bases divided by the total number of students in average daily membership who reside within the State.
- (4a) "Supplant" means to decrease local per student current expense appropriations from one fiscal year to the next fiscal year.
- (5) "Weighted average of the three most recent annual sales assessment ratio studies" means the weighted average of the three most recent annual sales assessment ratio studies in the most recent years for which county current expense appropriations and adjusted property tax valuations are available. If real property in a county has been revalued one year prior to the most recent sales assessment ratio study, a weighted average of the two most recent sales assessment ratios shall be used. If property has been revalued during the year of the most recent sales assessment ratio study, the sales assessment ratio for the year of revaluation shall be used.

Section 8.6.(e) Reports. – The State Board of Education shall report to the Joint Legislative Education Oversight Committee prior to May 1, 2000, if it determines that counties have supplanted funds.

Section 8.6.(f) Use of Funds. – Local boards of education are encouraged to use at least twenty percent (20%) of the funds they receive pursuant to this section to improve the academic performance of children who are performing at Level I or II on

either reading or mathematics end-of-grade tests in grades 3-8 and children who are performing at Level I or II on the writing tests in grades 4 and 7. Local boards of education shall report to the State Board of Education on an annual basis on funds used for this purpose and the State Board shall report this information to the Joint Legislative Education Oversight Committee.

Section 8.10.(a) The State Board of Education shall develop guidelines for identifying and providing services to students with limited proficiency in the English language.

The State Board shall allocate these funds to local school administrative units and to charter schools under a formula that takes into account the average percentage of students in the units or the charters over the past three years who have limited English proficiency. If data for the prior three years are not available, the State Board shall use the most recent reliable data. The State Board shall allocate funds to a unit or a charter school only if (i) average daily membership of the unit or the charter school includes at least 20 students with limited English proficiency or (ii) students with limited English proficiency comprise at least two and one-half percent (2 1/2%) of the average daily membership of the unit or charter school. Principal IV	33-43 Teachers
Principal V	44-54 Teachers
Principal VI	55-65 Teachers

Section 8.14.(e) For the 1999-2000 fiscal year, a principal or assistant principal shall be placed on the appropriate step plus one percent (1%) if:

- (1) The employee's school met or exceeded the projected levels of improvement in student performance for the 1997-98 fiscal year, in accordance with the ABCs of Public Education Program; or
- (2) The local board of education found in 1997-98 that the employee's school met objectively measurable goals set by the local board of education for maintaining a safe and orderly school; or

subdivisions (1) through (4). Under no circumstance shall placement of a principal or assistant principal be higher than four percent (4%) above the appropriate step on the salary schedule.

Section 8.14.(f) For the 1999-2000 fiscal year, a principal or assistant principal shall receive a lump-sum payment of:

- (1) One percent (1%) of his or her State-paid salary if the employee's school meets or exceeds the projected levels of improvement in student performance for the 1999-2000 fiscal year, in accordance with the ABCs of Public Education Program.

Section 8.14.(i) Longevity pay for principals and assistant principals shall be as provided for State employees under the State Personnel Act.

Section 8.14.(j)

- (1) If a principal is reassigned to a higher job classification because the principal is transferred to a school within a local school administrative unit with a larger number of State-allotted teachers, the principal shall be placed on the salary schedule as if the principal had served the principal's entire career as a principal at the higher job classification.
- (2) If a principal is reassigned to a lower job classification because the principal is transferred to a school within a local school administrative unit with a smaller number of State-allotted teachers, the principal shall be placed on the salary schedule as if the principal had served the principal's entire career as a principal at the lower job classification.

This subdivision applies to all transfers on or after the effective date of this section, except transfers in school systems that have been created, or will be created, by merging two or more school systems. In developing these guidelines, local boards shall consider the State Board's policies and guidelines developed under G.S. 115C-12(24). Upon adoption of policies and guidelines under this subdivision, local boards are encouraged to incorporate them in their safe school plans developed under G.S. 115C-105.47.

The General Assembly urges local boards to adopt policies that prohibit superintendents from assigning to any alternative learning program any professional public school employee who has received within the last three years a rating on a formal evaluation that is less than above standard."

Section 8.25.(b) G.S. 115C-105.26 is amended by adding a new subsection to read:

Any school that serves kindergarten students is eligible to receive funds under the program for the 1999-2000 fiscal year for those students. Schools participating in the program shall provide breakfast, without charge, to all kindergarten students.

ESTABLISH A PILOT PROGRAM TO TEST AND EVALUATE A REVISED SCHOOL ACCOUNTABILITY MODEL FOR THE ABCs PLAN

Section 8.36. The State Board of Education shall establish a pilot program in up to five local school administrative units for the purpose of determining whether revisions in the present school accountability model under the ABCs Plan are likely to result in more students demonstrating mastery of grade level subject matter and skills on the end-of-grade tests or demonstrating mastery of course subject matter or skills on end-of-course tests. The State Board, in selecting pilot sites, shall consider geographical areas of the State and urban and rural areas.

The revised school accountability model shall be common for all schools in all local school administrative units that participate in the pilot program. For purposes of the pilot program, the State Board shall disaggregate student performance within designated demographic groups or designated student performance level groups or both. The pilot school accountability model shall take into account student performance for each designated group and shall incorporate that performance in the overall school accountability model for the pilot program. The statewide ABCs Plan school accountability model also shall apply to the participating schools.

During the 1999-2000 school year, the State Board shall select local school administrative units to participate in the pilot program. The units shall be located geographically throughout the State, have different demographic profiles, and must have volunteered to participate in the program. A local board shall submit an application to the State Board in order to be considered for participation in the pilot program. Before a local board may submit an application to the State Board, it shall hold a public meeting and pass a resolution specifically approving its participation in the pilot program. The State Board shall implement the pilot program in the participating units during the 2000-2001 school year.

Personnel in schools that participate in the pilot program and that achieve the pilot program school accountability goals shall be eligible to receive financial awards for that achievement. Personnel in schools that participate in the pilot program and that achieve the statewide ABCs Plan school accountability goals also shall be eligible to receive financial awards under G.S. 115C-105.36. The financial awards for achieving the pilot program goals shall be separate from and in addition to the financial awards that are provided under G.S. 115C-105.36. All other statutory and regulatory provisions

of the statewide ABCs Plan school accountability model shall apply to local school administrative units, schools, and school personnel that participate in the pilot program. Notwithstanding any other law and in accordance with G.S. 115C-325(a)(4), the following shall not constitute a demotion: the reduction or elimination of bonus payments under the pilot program; the termination of the pilot program in a local school administrative unit or all participating units; or the statewide implementation of the pilot program school accountability model in the place of or as incorporated into the current ABCs Plan school accountability standards.

The State Board shall set a uniform level of financial awards for personnel in schools that achieve the pilot program goals, and the awards may be up to seven hundred fifty dollars (\$750.00) for each teacher and certified personnel and up to three hundred twenty-five dollars (\$325.00) for each teacher assistant. The State Board shall establish a match of twenty-five percent (25%) in local funds for participating school units that do not qualify for Low-Wealth or Small School supplemental funding. The match shall be used to meet the pilot program financial awards level in those school units.

The State Board shall evaluate the pilot program on an annual basis regarding its implementation in each participating unit, the student performance achieved by schools participating in the pilot, whether the student performance of students who qualify for free or reduced lunch is improved, and how the student performance in pilot program schools compares with the statewide results under the ABCs Plan. The State Board also shall determine whether the pilot program should be continued or terminated in each unit. The State Board may, in its discretion, terminate the pilot program in a local school administrative unit. The State Board shall terminate the pilot program in a local school administrative unit at the request of the unit's local board of education. However, the State Board shall not terminate a pilot program in a participating unit during the school year.

The State Board shall make a preliminary report to the Joint Legislative Education Oversight Committee by November 15, 1999, and prior to the selection of any local school administrative units to participate in the pilot program regarding the development of the revised school accountability model for the pilot program and the selection of local school administrative units to participate in the program. The Committee shall review the report and may make any recommendations to the State Board the Committee deems appropriate. The State Board shall report again to the Joint Legislative Education Oversight Committee prior to March 15, 2000, regarding the selection of participating school administrative units, the implementation of the pilot program, the estimated cost of providing bonuses under the pilot program, and possible sources of funds for the bonuses. The State Board also shall report to the Joint Legislative Education Oversight Committee by October 15, 2001, and annually thereafter, its findings and recommendations regarding the continued implementation, expansion, and modification of the pilot program.

The Joint Legislative Education Oversight Committee shall study issues related to the development of a revised school accountability model including the disaggregation of student performance, models used in other states, and possible sources

of funds for bonuses under a revised mode. The Committee may report its findings and recommendations to the 2000 Regular Session of the General Assembly, or to the 2001 General Assembly.

This section becomes effective July 1, 1999, and expires with the payment of pilot program incentive awards for the 2004-2005 school year.

PART IX. COMMUNITY COLLEGES

EMPLOYMENT OF COMMUNITY COLLEGE FACULTY/STUDY

Section 9. The State Board of Community Colleges shall contract with an outside consultant to study the issue of whether the Community College System should employ faculty members for less than 12 months instead of on a 12-month basis since the Community College System now operates on a semester system instead of a quarter system. The consultant also shall consider how much additional supplemental funding for summer term would be required if the Community College System employed faculty members for less than 12 months and needed to employ a portion of the faculty for the summer term.

The State Board shall use funds from the State Board Reserve to implement this section.

The State Board shall report to the Joint Legislative Appropriations Subcommittees on Education and the Fiscal Research Division prior to April 30, 2000, on the results of this study. It is the intent of the General Assembly, in considering the results of this study and other recommendations regarding community college faculty salaries, to provide for changes in the salary of community college faculty that result in an enhancement of salary for community college faculty.

Requested by: Representatives Boyd-McIntyre, Oldham, Rogers, Moore, Easterling, Hardaway, Redwine, Senators Lee, Dalton, Plyler, Perdue, Odom

COOPERATIVE HIGH SCHOOL EDUCATION PROGRAM ACCOUNTABILITY

Section 9.1. Section 10.7 of the Current Operations Appropriations and Capital Improvement Appropriations Act of 1998 directed the State Board of Community Colleges and the State Board of Education to create a joint task force to study the existing policies for cooperative high school education programs and to recommend changes necessary to improve the programs' success and accountability. Section 10.7 further directed the Boards to report their findings and recommendations to the Joint Legislative Education Oversight Committee and the Fiscal Research Division prior to March 1, 1999.

The General Assembly finds that the study submitted by the Boards inadequately addressed the concerns of the General Assembly; therefore, the General Assembly hereby requests that the Boards jointly reconsider existing policies for cooperative high school education programs. The General Assembly further requests

that the Boards make a preliminary report to the Joint Legislative Education Oversight Committee and the Fiscal Research Division prior to November 15, 1999, and a final report prior to April 15, 2000. The report shall include findings and recommendations that will enable the State to achieve the goal of the General Assembly to increase the number of qualified high school students participating in cooperative high school education programs that are provided by local community colleges. These programs should be cost-effective programs and should not duplicate high school Advanced Placement courses that are currently being offered or that could feasibly be offered. These programs should provide additional higher education opportunities for qualified high school students while minimizing overlapping costs to the State for public schools and community colleges.

After submission of the final report, the Joint Legislative Education Oversight Committee shall review the report and the success, or lack thereof, of this cooperative program. In the event the Committee finds that the report inadequately addresses the existing policies for cooperative high school education programs, or that there is an inadequate level of coordination between the high school, and community colleges, the Committee shall make a recommendation to the General Assembly as to how much, if any, downward adjustment should be made in appropriations to the respective agencies for failure to adequately develop and implement this program. This downward adjustment would be recommended due to the fact that this study, and the implementation thereof, is anticipated to be funded and implemented from current personnel and resources, and failure to adequately implement the program signifies a misuse of resources for which a downward adjustment in appropriations should be made.

Requested by: Representatives Boyd-McIntyre, Oldham, Rogers, Easterling, Hardaway, Redwine, Senators Lee, Dalton, Plyler, Perdue, Odom

IMPLEMENTATION OF PERFORMANCE BUDGETING

Section 9.2.(a) It is the intent of the General Assembly that the the State Board of Community Colleges implement the findings of the consultant's Phase IV Funding Study Report, prepared by the State Board and submitted to the Education Appropriations Subcommittee, on performance budgeting; therefore, Chapter 115D of the General Statutes is amended by adding a new section to read:

"§ 115D-31.3. Performance budgeting.

(a) The State Board of Community Colleges shall create new accountability measures and performance standards to be used for performance budgeting for the Community College System. The results of a survey may be used as a performance standard only if the survey is statistically valid. The State Board of Community Colleges shall review annually the accountability measures and performance standards to ensure that they are appropriate for use in performance budgeting.

(b) Notwithstanding any other provision of law, the State Board shall authorize each institution meeting the new performance standards to carryforward funds remaining in its budget at the end of each fiscal year in an amount not to exceed two percent (2%) of the State funds allocated to the institution for that fiscal year. The

funds carried forward shall be used for the purchase of equipment and initial program start-up costs excluding regular faculty salaries. These funds shall not be used for continuing salary increases or for other obligations beyond the fiscal year into which they were carried forward. These funds shall be encumbered within 12 months of the fiscal year into which they were carried forward.

(c) The five required performance measures are (i) progress of basic skills students, (ii) passing rate for licensure and certification examinations, (iii) goal completion of program completers, (iv) employment status of graduates, and (v) performance of students who transfer to the university system. Colleges may choose one other performance measure from the list contained in the State Board's Phase 4 Funding Formula Study, which was presented to the Joint Legislative Education Oversight Committee. Successful performance on each of the six performance measures shall allow a college to retain and carry forward up to one-third of one percent (1/3 of 1%) of its final fiscal year General Fund appropriations into the next fiscal year.

(d) Each college shall publish its performance on these six measures in its catalog each year beginning with the 2001 academic year."

Section 9.2.(b) The State Board of Community Colleges shall report to the Joint Legislative Education Oversight Committee and to the Fiscal Research Division prior to March 1, on an annual basis, on the implementation of this provision.

Section 9.2.(c) This section becomes effective July 1, 1999. The State Board of Community Colleges shall authorize institutions meeting the new performance standards to carry forward funds from the 2000-2001 fiscal year to the 2001-2002 fiscal year and at the end of subsequent fiscal years.

OVER-REALIZED TUITION AND FEE RECEIPTS TRANSFERRED TO THE EQUIPMENT RESERVE FUND

Section 9.3.(a) G.S. 115D-31 is amended by adding a new subsection to read:

"(e) If receipts for community college tuition and fees exceed the amount certified in General Fund Codes at the end of a fiscal year, the State Board of Community Colleges shall transfer the amount of receipts and fees above those budgeted to the Equipment Reserve Fund."

Section 9.3.(b) If receipts for community college tuition and fees exceed the amount certified in General Fund Codes at the end of the 1998-99 fiscal year, the State Board of Community Colleges shall transfer the amount of receipts and fees above those budgeted to the Equipment Reserve Fund.

Section 9.3.(c) Section 9.3.(b) becomes effective June 30, 1999.

Requested by: Representatives Boyd-McIntyre, Oldham, Rogers, Easterling, Hardaway, Redwine, Senators Lee, Dalton, Plyler, Perdue, Odom

FINANCIAL ASSISTANCE FOR COMMUNITY COLLEGE STUDENTS

Section 9.4.(a) Of the funds appropriated to the Community Colleges System Office for the 1999-2001 fiscal biennium, the sum of five million dollars (\$5,000,000) for the 1999-2000 fiscal year and the sum of five million dollars (\$5,000,000) for the 2000-2001 fiscal year shall be used to provide the largest financial need-based student assistance program in the history of the North Carolina Community College System.

Students must apply for federal Pell Grants to be eligible for this program. It is the intent of the General Assembly that the Community College System make these financial aid funds available to the neediest students who are not eligible for other financial aid programs that fully cover the required educational expenses of these students. The State Board may use some of these funds as short-term loans to students who anticipate receiving the federal HOPE or Lifetime Learning Tax Credits.

The State Board of Community Colleges shall adopt rules and policies for the disbursement of the need-based financial assistance. The State Board may contract with the State Education Assistance Authority for administration of these financial assistance funds. These funds shall not revert at the end of each fiscal year but shall remain available until expended for need-based financial assistance.

Section 9.4.(b) The State Board of Community Colleges shall ensure that at least one counselor is available at each college to inform students about federal programs and funds available to assist community college students including, but not limited to, Pell Grants and HOPE and Lifetime Learning Tax Credits and to actively encourage students to utilize these federal programs and funds.

Section 9.4.(c) G.S. 115D-40 is repealed.

Requested by: Representatives Boyd-McIntyre, Oldham, Rogers, Easterling, Hardaway, Redwine, Senators Lee, Dalton, Plyler, Perdue, Odom

COMMUNITY COLLEGE FUNDING FLEXIBILITY

Section 9.5. A local community college may use all State funds allocated to it, except for Literacy Funds and Funds for New and Expanding Industries, for any authorized purpose that is consistent with the college's Institutional Effectiveness Plan. Each local community college shall include in its Institutional Effectiveness Plan a section on how funding flexibility allows the college to meet the demands of the local community and to maintain a presence in all previously funded categorical programs.

The State Board may examine new State Aid allocation options that more closely align the allocation and expenditure of State-appropriated resources.

Funds appropriated for salary increases shall be used only for salary increases and necessary employer contributions.

The General Assembly recognizes that the Community College System has been required to transfer funds from the faculty salary line item in the funding formula during prior fiscal years to make up shortfalls in instructional and administrative support and in other cost items. To enable the Community College System to pay respectable faculty salaries and at the same time maintain the quality of the instructional programs, the General Assembly is providing an additional eight million dollars (\$8,000,000) in expansion funds for instructional and administrative support and an additional ten million dollars (\$10,000,000) in expansion funds for other cost items. It is the intent of

the General Assembly that no transfers be made from the formula salary line item and that faculty salary funds be used to enhance full-time and part-time faculty salaries and, where appropriate, to move part-time faculty members to full-time faculty status. Therefore, transfers made in college budgets from faculty salaries to other purposes shall be made only after public notice and notice to the faculty. No more than two percent (2%) systemwide may be transferred from faculty salaries without the approval of the State Board of Community Colleges. The State Board shall report on any such transfers above two percent (2%) systemwide to the Joint Legislative Commission on Governmental Operations at its next meeting.

Requested by: Representatives Boyd-McIntyre, Oldham, Rogers, Easterling, Hardaway, Redwine, Senators Lee, Dalton, Plyler, Perdue, Odom

STATE BOARD RESERVE ALLOCATIONS

Section 9.6.(a) The State Board of Community Colleges shall use funds from the State Board Reserve in the amount of one hundred thousand dollars (\$100,000) for each fiscal year to assist small rural low-wealth community colleges with operation and maintenance of plant costs if they need to assist new or expanding industries in their service delivery areas.

Section 9.6.(b) The State Board of Community Colleges shall use funds from the State Board Reserve in the amount of forty thousand dollars (\$40,000) for the 1999-2000 fiscal year to support the recruitment activities of the North Carolina Industries for Technical Education (NCITE). NCITE recruits students to community colleges with Heavy Equipment and Transportation Technology Programs in an effort to revitalize those programs.

Section 9.6.(c) The State Board of Community Colleges, in consultation with Cape Fear Community College, Brunswick Community College, and Southeastern Community College, shall use funds from the State Board Reserve in the amount of one hundred thousand dollars (\$100,000) for the 1999-2000 fiscal year for planning a Southeastern North Carolina Regional Fire Training Program and twenty thousand dollars (\$20,000) for the 1999-2000 fiscal year for other fire training programs.

Requested by: Representatives Boyd-McIntyre, Oldham, Rogers, Owens, Easterling, Hardaway, Redwine, Senators Lee, Dalton, Plyler, Perdue, Odom

PERMIT TRANSFERS OF FUNDS TO THE NEW AND EXPANDING INDUSTRY TRAINING PROGRAM

Section 9.7. The General Assembly finds that the New and Expanding Industry Training Program:

- (1) Assists companies creating new jobs in North Carolina by providing training for new employees;
- (2) Provides customized training to new or prospective employees in specific job skills needed by new or expanding industries; and
- (3) Supports local, regional, and State economic development goals by offering entry-level training at no cost to companies that are creating new jobs in the State.

"IV. If the State Board of Community Colleges determines that a community college has not met the matching requirements of G.S. 115D-31(a)(1) by July 1, 2000, with respect to a capital improvement project for which bond proceeds are allocated in subdivision I or pursuant to subdivision II of this subsection, the Board shall certify that fact to the State Treasurer by October 1, 2000. All of these bond proceeds with respect to which the Board certifies that the matching requirement has not been met by July 1, 2000, shall be placed by the State Treasurer in a special account within the Community

Colleges Bond Fund and shall be used for making grants to community colleges. Bond proceeds in the special account shall be allocated among the community colleges in accordance with the following conditions:

- (2) The State Board of Community Colleges shall provide the State Treasurer a projected allocation of the proceeds in the special account in accordance with this priority ranking, except that:
 - a. No projected allocation shall be made for a community college that the Board certified in accordance with this subdivision IV had failed to meet a matching requirement.
 - b. No more than four million dollars (\$4,000,000) shall be allocated to a single community college.
 - c. Funds shall not be allocated for more than one project per community college.
- (3) The proceeds of grants made from bond proceeds in the special account shall be allocated and expended for paying the cost of community college capital improvements in accordance with this allocation by the State Board of Community Colleges, to the extent and as provided in this act. The Director of the Budget is empowered, when the Director of the Budget determines it is in the best interest of the State and the North Carolina Community College System to do so, and if the cost of a particular project is less than the projected allocation, to use the excess funds to increase the size of that project or increase the size of any other project itemized in this section, or to increase the amount allocated to a particular community college within the aggregate amount of funds available under this section. The Director of the Budget shall consult with the Advisory Budget Commission and the Joint Legislative Commission on Governmental Operations before making these changes."

These funds shall provide up to one thousand fifty dollars (\$1,050) per full-time equivalent North Carolina undergraduate student enrolled at a private institution as of October 1, 1999, for the 1999-2000 fiscal year and up to one thousand fifty dollars (\$1,050) per full-time equivalent North Carolina undergraduate student enrolled at a private institution as of October 1, 2000, for the 2000-2001 fiscal year.

These funds shall be placed in a separate, identifiable account in each eligible institution's budget or chart of accounts. All funds in this account shall be provided as scholarship funds for needy North Carolina students during the fiscal year. Each student awarded a scholarship from this account shall be notified of the source of the funds and of the amount of the award. Funds not utilized under G.S. 116-19 shall be available for the tuition grant program as defined in subsection (b) of this section.

Section 10.(b) In addition to any funds appropriated pursuant to G.S. 116-19 and in addition to all other financial assistance made available to private educational institutions located within the State, or to students attending these institutions, there is granted to each full-time North Carolina undergraduate student attending an approved institution as defined in G.S. 116-22, a sum, not to exceed one thousand seven hundred fifty dollars (\$1,750) for the 1999-2000 academic year and one thousand seven hundred fifty dollars (\$1,750) for the 2000-2001 academic year, which shall be distributed to the student as hereinafter provided.

In the event a student on whose behalf a grant has been paid is not enrolled and carrying a minimum academic load as of the tenth classroom day following the beginning of the school term for which the grant was paid, the institution shall refund the full amount of the grant to the State Education Assistance Authority. Disbursement to Wake Forest University shall be made in the amount of eight thousand dollars (\$8,000) for each medical student who is a North Carolina resident, one thousand dollars (\$1,000) of which shall be placed by the school in a fund to be used to provide financial aid to needy North Carolina students who are enrolled in the medical school. The maximum aid given to any student from this fund in a given year may not exceed the amount of the difference in tuition and academic fees charged by the school and those charged at the School of Medicine at the University of North Carolina at Chapel Hill.

Disbursement to Duke University shall be made in the amount of five thousand dollars (\$5,000) for each medical student who is a North Carolina resident, five hundred dollars (\$500.00) of which shall be placed by the school in a fund to be used to provide student financial aid to financially needy North Carolina students who are enrolled in the medical school. The Board of Governors shall establish the criteria for determining the eligibility for financial aid of needy North Carolina students who are enrolled in the medical schools and shall review the grants or awards to eligible students. The Board of Governors shall adopt rules for determining which students are residents of North Carolina for the purposes of these programs. The Board shall also make any regulations as necessary to ensure that these funds are used directly for instruction in the medical programs of the schools and not for religious or other nonpublic purposes. The Board shall encourage the two schools to orient students toward primary care, consistent with the directives of G.S. 143-613(a). The two schools shall supply information necessary for the Board to comply with G.S. 143-613(d).

Section 10.2.(b) If the funds appropriated in this act to the Board of Governors of The University of North Carolina for continuation of financial assistance to the medical schools of Duke University and Wake Forest University are insufficient to cover the enrolled students in accordance with this section, then the Board of Governors may transfer unused funds from other programs in the Related Educational Programs budget code to cover the extra students.

UNC ENROLLMENT PLANNING

Section 10.8.(a) The University of North Carolina faces an increase in student enrollment of 48,000 students over the next 10 years, primarily at the undergraduate level. The Board of Governors of The University of North Carolina has adopted plans for meeting this large increase. These plans call for 10 constituent institutions to enroll a larger share of the new enrollments. Of these 10 institutions, seven currently have underutilized capacity. These seven schools (Elizabeth City State University, Fayetteville State University, North Carolina Agricultural and Technical State University, North Carolina Central University, the University of North Carolina at Pembroke, Western Carolina University, and Winston-Salem State University) are expected to grow by twenty percent (20%) by fall, 2003.

Section 10.8.(b) Of the funds appropriated to the Board of Governors of The University of North Carolina for a "Strategic Initiatives Reserve", for the 1999-2000 fiscal year, the sum of two million dollars (\$2,000,000) of the reserve shall be used to perform campus assessments and develop enrollment growth plans for the seven constituent institutions designated as growing twenty percent (20%) by fall, 2003 in the Board of Governors' enrollment plan. Section 10.8.(d) Of the funds appropriated to the Board of Governors of The University of North Carolina, the sum of three million dollars (\$3,000,000) in continuing operating funds shall be allocated for improvement of faculty instruction at the seven campuses targeted for major enrollment growth. The improvements shall be based on plans approved by the Board of Governors for hiring of new faculty, salary improvements, faculty development, or other initiatives that will improve instruction for students, especially undergraduate students. The Board of Governors shall report to the Joint Legislative Education Oversight Committee by April 15, 2000, on the allocation and proposed use of these funds.

Section 10.8.(e) Of the funds appropriated to the Board of Governors of The University of North Carolina, the sum of two million dollars (\$2,000,000) in continuing operating funds shall be allocated for the enhancement of development offices at the smaller institutions. The goal of this funding is to increase the ability of these institutions to raise funds from the private sector and enhance the institutions' abilities to leverage State and other resources with private donations.

Section 10.8.(f) Of the funds appropriated to the Board of Governors of The University of North Carolina, the sum of one million dollars (\$1,000,000) in continuing operating funds shall be allocated to further develop facilities management support for the smaller campuses facing rapid growth and having greater than average needs for renovation and repair of existing facilities. Funds may be allocated directly to the institutions needing assistance or may be dedicated to providing the assistance needed by other methods. The Board of Governors shall report to the Joint Legislative Education Oversight Committee on the allocation and use of these funds by April 15, 2000.

Section 10.8.(g) Of the funds appropriated by this act to the Board of Governors of The University of North Carolina, the sum of one million dollars (\$1,000,000) shall be used on a continuing basis by the Board of Governors to prevent reductions in faculty positions for the seven growth constituent institutions identified in subsection (a) of this section if these institutions are projected to have budget reductions based on current enrollment estimates.

The Board of Governors shall report to the Joint Legislative Education Oversight Committee by December 15 of each year on enrollment planning, current and anticipated growth, and management of capacity to meet the demands for higher education in North Carolina. These reports shall continue through December 2005.

Section 11.48.(b) The General Assembly finds that it is essential to continue developing comprehensive programs that provide high quality early childhood education and development services locally for children and their families. The General Assembly intends to expand the Early Childhood Education and Development Initiatives Program (the "Program") in a manner which ensures quality assurance and performance-based accountability for the Program.

Section 11.48.(c) Notwithstanding any provision of Part 10B of Article 3 of Chapter 143B of the General Statutes or any other provision of law or policy, the Department of Health and Human Services and the North Carolina Partnership for Children, Inc., jointly shall continue to implement the recommendations contained in the Smart Start Performance Audit prepared pursuant to Section 27A(1)b. of Chapter 324 of the 1995 Session Laws, as modified by Section 24.29 of Chapter 18 of the Session Laws, Second Extra Session 1996. The North Carolina Partnership for Children, Inc., shall continue to report quarterly to the Joint Legislative Commission on Governmental Operations on its progress toward full implementation of the modified audit recommendations.

Section 11.48.(d) The Joint Legislative Commission on Governmental Operations shall, consistent with current law, continue to be the legislative oversight body for the Program. The President Pro Tempore of the Senate and the Speaker of the House of Representatives may appoint a subcommittee of the Joint Legislative Commission on Governmental Operations to carry out this function. This subcommittee may conduct all initial reviews of plans, reports, and budgets relating to the Program and shall make recommendations to the Joint Legislative Commission on Governmental Operations.

Section 11.48.(e) Administrative costs shall be equivalent to, on an average statewide basis for all local partnerships, not more than eight percent (8%) of the total

statewide allocation to all local partnerships. What counts as administrative costs shall be as defined in the Smart Start Performance Audit.

Section 11.48.(f) Any local partnership, before receiving State funds, shall be required annually to submit a plan and budget for State funds for appropriate programs to the North Carolina Partnership for Children, Inc., and the Joint Legislative Commission on Governmental Operations. State funds to implement the programs shall not be allocated to a local partnership until the program plan is approved by the North Carolina Partnership for Children, Inc.

Section 11.48.(g) The North Carolina Partnership for Children, Inc., and all local partnerships shall use competitive bidding practices in contracting for goods and services on contract amounts as follows:

Section 11.48.(h) The role of the North Carolina Partnership for Children, Inc., shall continue to be expanded to incorporate all the aspects of the new role determined for the Partnership in the Smart Start Performance Audit recommendations and to provide technical assistance to local partnerships, assess outcome goals for children and families, ensure that statewide goals and legislative guidelines are being met, help establish policies and outcome measures, obtain non-State resources for early childhood and family services, and document and verify the cumulative contributions received by the partnerships.

Section 11.48.(i) The North Carolina Partnership for Children, Inc., and all local partnerships shall, in the aggregate, be required to match no less than fifty percent (50%) of the total amount budgeted for the Program in each fiscal year of the biennium as follows: contributions of cash equal to at least ten percent (10%) and in-kind donated resources equal to no more than ten percent (10%) for a total match requirement of twenty percent (20%) for each fiscal year. Any program funding expended for child care subsidies during the previous 12 months is excluded from the match requirement of this subsection. Only in-kind contributions that are quantifiable, as determined in the Smart Start Performance Audit, shall be applied to the in-kind match requirement. Expenses, including both those paid by cash and in-kind contributions, incurred by other participating non-State entities contracting with the North Carolina Partnership for Children, Inc., or the local partnerships, also may be considered resources available to meet the required private match. In order to qualify to meet the required private match, the expenses shall:

- (8) Be reported to the North Carolina Partnership for Children, Inc., or the local partnership by the contractor in the same manner as reimbursable expenses.

The North Carolina Partnership for Children, Inc., shall establish uniform guidelines and reporting format for local partnerships to document the qualifying expenses occurring at the contractor level. Local partnerships shall monitor qualifying expenses to ensure they have occurred and meet the requirements prescribed in this subsection.

Failure to obtain a twenty percent (20%) match by May 1 of each fiscal year shall result in a dollar-for-dollar reduction in the appropriation for the Program for the next fiscal year. The North Carolina Partnership for Children, Inc., shall be responsible for compiling information on the private cash and in-kind contributions into a report that is submitted to the Joint Legislative Commission on Governmental Operations in a format that allows verification by the Department of Revenue. The same match requirements shall apply to any expansion funds appropriated by the General Assembly.

Section 11.48.(j) Counties participating in the Program may use the county's allocation of State and federal child care funds to subsidize child care according to the county's Early Childhood Education and Development Initiatives Plan as approved by the North Carolina Partnership for Children, Inc. The use of federal funds shall be consistent with the appropriate federal regulations. Child care providers shall, at a minimum, comply with the applicable requirements for State licensure pursuant to Article 7 of Chapter 110 of the General Statutes, with other applicable requirements of State law or rule, including rules adopted for nonlicensed child care by the Social Services Commission, and with applicable federal regulations.

These funds may be used as financial incentives to encourage regionalization at the local level and to complete development of contracting and accounting systems at the local level. Any funds used to encourage regionalization or to complete development of contracting and accounting systems at the local level shall not be included in computations affecting the administrative cost limitations under subsection (e) of this section.

To the extent practicable, these funds shall be used to enhance the affordability, availability, and quality of child care services as described in this section. The local partnerships shall give priority for the use of these funds to augmenting the State's supplemental subsidy payment rate per child per month for licensed child care centers and homes earning a rated license that exceeds the minimum licensing standards."

SCHOOL EMPLOYEE RETIREMENT CREDIT CHANGED

Section 28.26.(a) G.S. 115C-302.1(c) reads as rewritten:

"(c) Vacation. – Included within the 10-month term shall be annual vacation leave at the same rate provided for State employees, computed at one-twelfth of the annual rate for State employees for each month of employment. Local boards shall provide at

least 10 days of annual vacation leave at a time when students are not scheduled to be in regular attendance. However, instructional personnel who do not require a substitute may use annual vacation leave on days that students are in attendance. Vocational and technical education teachers who are employed for 11 or 12 months may, with prior approval of the principal, work on annual vacation leave days designated in the school calendar and may use those annual vacation leave days during the eleventh or twelfth month of employment.

On a day that pupils are not required to attend school due to inclement weather, but employees are required to report for a workday, a teacher may elect not to report due to hazardous travel conditions and to take an annual vacation day or to make the day at a time agreed upon by the teacher and the teacher's immediate supervisor or principal. On a day that school is closed to employees and pupils due to inclement weather, a teacher shall work on the scheduled makeup day.

All vacation leave taken by the teacher will be upon the authorization of the teacher's immediate supervisor and under policies established by the local board of education. Annual vacation leave shall not be used to extend the term of employment.

Notwithstanding any provisions of this subsection to the contrary, no person shall be entitled to pay for any vacation day not earned by that person."

Section 28.26.(b) G.S. 115C-302.1 is amended by adding two new subsections to read:

"(c1) Conversion of Leave. – Teachers may accumulate annual vacation leave days without any applicable maximum until June 30 of each year. In order that only 30 days of annual vacation leave carry forward to July 1, on June 30 of each year any teacher or other personnel paid on the teacher salary schedule who has accumulated more than 30 days of annual vacation leave shall:

- (1) Convert to either sick leave or to pay the excess accumulation that is the result of the teacher having to forfeit annual vacation leave in order to attend required workdays; and
- (2) Convert to sick leave the remaining excess accumulation.

Local boards of education shall identify which days are accumulated due to the teacher forfeiting annual vacation leave in order to attend required workdays. Actual payment for excess accumulated annual vacation leave may be made after July 1.

(c2) Conversion of Leave Upon Separation of Service. – Upon separation from service due to service retirement, resignation, dismissal, reduction in force, or death, an employee shall be paid in a lump sum for accumulated annual vacation leave not to exceed a maximum of 30 days. Employees going onto term disability may exhaust annual leave rather than be paid in a lump sum.

Any teacher or other personnel paid on the teacher salary schedule who has more than 30 days of accumulated annual vacation leave at the time the person retires shall:

- (1) Convert to either sick leave or to pay the excess accumulation that is the result of the teacher having to forfeit annual vacation leave in order to attend required workdays; and

- (2) Convert to sick leave the remaining excess accumulation which may be used for creditable service at retirement in accordance with G.S. 135-4(e).

Local boards of education shall identify which days are accumulated due to the teacher forfeiting annual vacation leave in order to attend required workdays."

Section 28.26.(c) G.S. 115C-272(b)(2) reads as rewritten:

- "(2) Notwithstanding any provisions of this section to the contrary no person shall be entitled to pay for any vacation day not earned by that person. Vacation days shall not be used for extending the term of employment of individuals and shall not be cumulative from one fiscal year to another fiscal year: Provided, that superintendents may accumulate annual vacation leave days as follows: annual leave may be accumulated without any applicable maximum until June 30 of each year. On June 30 of each year, any superintendent with more than 30 days of accumulated leave shall have the excess accumulation converted to sick leave so that only 30 days are carried forward to July 1 of the same year. All vacation leave taken by the superintendent will be upon the authorization of his immediate supervisor and under policies established by the local board of education. An employee shall be paid in a lump sum for accumulated annual leave not to exceed a maximum of 240 hours or 30 days when separated from service due to resignation, dismissal, reduction in force, death, or service retirement. Upon separation from service due to service retirement, any annual vacation leave over 30 days will convert to sick leave and may be used for creditable service at retirement in accordance with G.S. 135-4(e). If the last day of terminal leave falls on the last workday in the month, payment shall be made for the remaining nonworkdays in that month. Employees retiring on disability retirement may exhaust annual leave rather than be paid in a lump sum. The provisions of this subdivision shall be accomplished without additional State and local funds being appropriated for this purpose. The State Board of Education shall adopt rules and regulations for the administration of this subdivision."

Section 28.26.(d) G.S. 115C-285(a)(2) reads as rewritten:

Section 28.26.(e) G.S. 115C-316(a)(3) reads as rewritten:

"(3) Notwithstanding any provisions of this section to the contrary no person shall be entitled to pay for any vacation day not earned by that person. The first 10 days of annual leave earned by a 10- or 11-month employee during any fiscal year period shall be scheduled to be used in the school calendar adopted by the respective local boards of education. Vacation days shall not be used for extending the term of employment of individuals. Ten- or 11-month employees may accumulate annual vacation leave days as follows: annual leave may be accumulated without any applicable maximum until June 30 of each year. Dependent child shall also include any child under age 19 who has reached his or her 18th birthday, provided the employee was legally responsible for such child's maintenance and support on his or her 18th birthday.

A foster child is covered (i) if living in a regular parent-child relationship with the expectation that the employee will continue to rear the child into adulthood, (ii) if at the time of enrollment, or at the time a foster child relationship is established, whichever occurs first, the employee applies for coverage for such child and submits evidence of a bona fide foster child relationship, identifying the foster child by name and setting forth all relevant aspects of the relationship, (iii) if the Claims Processor accepts the foster child as a participant through a separate written document identifying the foster child by name and specifically recognizing the foster child relationship, and (iv) if at the time a claim is incurred, the foster child relationship, as identified by the employee, continues to exist. Newly acquired dependents (spouse/child) enrolled within 30 days of becoming an eligible dependent will not be subject to the 12-month waiting period for preexisting conditions. A dependent can become qualified due to marriage, adoption, entering a foster child relationship, due to the divorce of a dependent child or the death of the spouse of a dependent child, and at the beginning of each legislative session (applies only to enrolled legislators). Expenditure of funds shall not be made by any State department, institution, or agency, until an allotment has been approved by the Governor as Director of the Budget. The allotment shall be approved only after full compliance with the Executive Budget Act, Article 1 of Chapter 143 of the General Statutes. Prior to the award of construction contracts for projects to be financed in whole or in part with self-liquidating appropriations, the Director of the Budget shall approve the elements of the method of financing of those projects including the source of funds, interest rate, and liquidation period. Provided, however, that if the Director of the Budget approves the method of financing a project, the Director shall report that action to the Joint Legislative Commission on Governmental Operations at its next meeting.
