SECTION 1. G.S. 20-118 reads as rewritten:

## "§ 20-118. Weight of vehicles and load.

(a) For the purposes of this section, the following definitions shall apply:
(1) Single-axle weight. - The gross weight transmitted by all wheels whose centers may be included between two parallel transverse vertical planes 40 inches apart, extending across the full width of the vehicle.
(2) Tandem-axle weight. - The gross weight transmitted to the road by two or more consecutive axles whose centers may be included between parallel vertical planes spaced more than 40 inches and not more than 96 inches apart, extending across the full width of the vehicle.
(3) Axle group. - Any two or more consecutive axles on a vehicle or combination of vehicles.
(4) Gross weight. - The weight of any single axle, tandem axle, or axle group of a vehicle or combination of vehicles plus the weight of any load thereon.
(5) Light-traffic roads. - Any highway on the State Highway System, excepting routes designated I, U.S. or N.C., posted by the Department of Transportation to limit the axle weight below the statutory limits.
(b) The following weight limitations shall apply to vehicles operating on the highways of the State:
(1) The single-axle weight of a vehicle or combination of vehicles shall not exceed 20,000 pounds.
(2) The tandem-axle weight of a vehicle or combination of vehicles shall not exceed 38,000 pounds.
(3) The gross weight imposed upon the highway by any axle group of a vehicle or combination of vehicles shall not exceed the maximum weight given for the respective distance between the first and last axle of the group of axles measured longitudinally to the nearest foot as set forth in the following table:

* Distance in Feet Between the Extremes of any Group of Two or More Consecutive Axles.
** See exception in G.S. 20-118(c)(1).
(4) The Department of Transportation may establish light-traffic roads and further restrict the axle weight limit on such light-traffic roads lower than the statutory limits. The Department of Transportation shall have authority to designate any highway on the State Highway System, excluding routes designated by I, U.S. and N.C., as a light-traffic road
when in the opinion of the Department of Transportation, such road is inadequate to carry and will be injuriously affected by vehicles using the said road carrying the maximum axle weight. All such roads so designated shall be conspicuously posted as light-traffic roads and the maximum axle weight authorized shall be displayed on proper signs erected thereon.
(c) Exceptions. - The following exceptions apply to G.S. 20-118(b) and 20-118(e).
(7) A wrecker may tow a-any disabled truck or other motor vehicle or combination of vehicles in an emergency-to a place for repairs, the nearest feasible point for parking parking, or storage within 50 miles from the point that the vehicle was disabled and may tow a truck, tractor, or other replacement vehicle to the site of the disabled vehicle without being in violation of G.S. 20-118 provided that the wrecker and towed vehicle or combination of vehicles otherwise meet all requirements of this section.

SECTION 2. G.S. 20-116(e) reads as rewritten:
"(e) Except as provided by G.S. 20-115.1, no combination of vehicles coupled together shall consist of more than two units and no such combination of vehicles shall exceed a total length of 60 feet inclusive of front and rear bumpers, subject to the following exceptions: Said length limitation shall not apply to vehicles operated in the daytime when transporting poles, pipe, machinery or other objects of a structural nature which cannot readily be dismembered, nor to such vehicles transporting such objects operated at nighttime by a public utility when required for emergency repair of public service facilities or properties, but in respect to such night transportation every such vehicle and the load thereon shall be equipped with a sufficient number of clearance lamps on both sides and marker lamps upon the extreme ends of said projecting load to clearly mark the dimensions of such load: Provided that vehicles designed and used exclusively for the transportation of motor vehicles shall be permitted an overhang tolerance front or rear not to exceed five feet. Provided, that wreckers im wnemergency may tow a truck, combination tractor and trailer-trailer, trailer, or any other disabled vehicle or combination of vehicles to a place for to the nearest feasible point for repair and/or storage: repair, parking, or storage within 50 miles of the point where the vehicle was disabled and may tow a truck, tractor, or other replacement vehicle to the site of the disabled vehicle. Provided, however, that a combination of a house trailer used as a mobile home, together with its towing vehicle, shall not exceed a total length of 55 feet exclusive of front and rear bumpers. Provided further, that the said limitation that no combination of vehicles coupled together shall consist of more than two units shall not apply to trailers not exceeding three in number drawn by a motor vehicle used by municipalities for the removal of domestic and commercial refuse and street rubbish, but such combination of vehicles shall not exceed a total length of 50 feet inclusive of front and rear bumpers. Provided further, that the said limitation that no combination of vehicles coupled together shall consist of more than two units shall not apply to a combination of vehicles coupled together by a saddle mount device used to transport motor vehicles in a driveway service when no more than three saddle mounts are used and provided further, that equipment used in said combination is approved by the safety regulations of the Federal Highway Administration and the safety rules of the Department of Crime Control and Public Safety."
