A BILL TO BE ENTITLED
AN ACT TO ENABLE COMMUNITY COLLEGES TO USE MODERN EQUIPMENT IN
TRAINING WORKERS FOR NORTH CAROLINA JOBS.

Whereas, the availability of an educated and well-trained workforce is a key factor in job location and expansion; and

Whereas, the State relies on community colleges to provide critical workforce training; and

Whereas, community colleges are hampered in their ability to provide workforce training due to the lack of funding for equipment essential for technical training and training in allied health fields; and

Whereas, without adequate equipment needed to train workers, community colleges cannot fulfill their workforce training mission; and

Whereas, the method of funding equipment at community colleges differs from that used for The University of North Carolina and, as a result, does not provide additional funds for equipment when enrollment increases; and

Whereas, adequate equipment for training workers is even more important in an economic downturn because when unemployment increases, community college enrollment also increases; Now, therefore,

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 143C-9-3 reads as rewritten:
