A BILL TO BE ENTITLED

1 AN ACT TO DIRECT THE REVENUE LAWS STUDY COMMITTEE TO CONTINUE ITS  
2 REVIEW OF LOCAL GOVERNMENT OWNED AND OPERATED  
3 COMMUNICATION SYSTEMS AND TO TEMPORARILY LIMIT THE FINANCING  
4 OPTIONS FOR THESE SYSTEMS.  
5

6 The General Assembly of North Carolina enacts:

7 **SECTION 1. Communication system.** – As used in this act, the term  
8 "communication system" means a system that provides high-speed broadband Internet access  
9 service or other Internet access service, cable service, telecommunications service, video  
10 programming service, or a combination of these services. The terms "cable service,"  
11 "telecommunications service," and "video programming service" have the same meanings as in  
12 G.S. 105-164.3.

13 **SECTION 2.(a) Study.** – The Revenue Laws Study Committee is directed to  
14 continue its study begun in 2009 of local government owned and operated communication  
15 systems and to report its findings and any recommended legislation on this subject to the 2011  
16 General Assembly by March 1, 2011. As part of its study, the Committee shall determine the  
17 following:

- 18 (1) The extent to which current law authorizes units of local government to offer  
19 communication services not traditionally thought of as cable television  
20 services.
- 21 (2) The requirements and standards that should apply to a unit of local  
22 government and to a private provider when the local unit offers a  
23 communication service that is offered by a private provider.
- 24 (3) Whether varying or different provisions are needed to accommodate  
25 communication systems placed in service by cities before the effective date  
26 of this act.
- 27 (4) Policies and incentives that can be established to facilitate the offering and  
28 expansion of communication service by both public and private service  
29 providers, including public-private ventures and other opportunities.

30 **SECTION 2.(b) Membership.** – In conducting the study described in subsection  
31 (a) of this section, the Revenue Laws Study Committee cochairs are authorized to appoint an  
32 advisory subcommittee and to ask the Local Government Commission to designate an  
33 individual to participate in the subcommittee's deliberations in an exofficio, nonvoting capacity.  
34 The subcommittee may consist of no more than 12 members and may include individuals who  
35 are not members of the Committee or of the General Assembly, eight of whom represent the  
36 following interests:

- 37 (1) A cable service provider.

- (2) A wireless telecommunications service provider.
- (3) A local exchange provider that is not a wireless telecommunications service provider.
- (4) A local exchange provider that is a wireless telecommunications service provider.
- (5) A city that operates a cable system and an electric power system as a public enterprise.
- (6) A city that operates a cable system as a public enterprise and does not operate an electric power system as a public enterprise.
- (7) A city that is a member of a joint agency established under G.S. 160A-462 for the operation of a cable system as a public enterprise.
- (8) The North Carolina League of Municipalities.

**SECTION 3.(a) Interim Financing Provisions.** – The Local Government Commission may not approve an application for financing under G.S. 160A-20 or G.S. 160A-466 by a unit of local government or a joint agency for a communication system that provides consumer Internet service at retail until the date a bill recommended to the 2011 Regular Session of the 2011 General Assembly by the Revenue Laws Study Committee as a result of the study directed by Section 2 of this act becomes law or, if a bill is not recommended by that Committee or is not enacted, until the adjournment of the 2011 Regular Session of the 2011 General Assembly. Consumer Internet service at retail does not include systems and services provided by a unit of local government only for its own use or, pursuant to an interlocal or service agreement, for use by other units or agencies of government.

The prohibition in this section does not apply to an application submitted by any of the following:

- (1) A unit of local government or a joint agency that, as of June 1, 2010, had previously entered into a contract under G.S. 160A-20 or G.S. 160A-466 to finance a communication system that provides consumer Internet service at retail.
- (2) A unit of local government that meets all of the following requirements:
  - a. As of June 1, 2010, has contracted with an outside party for a high-speed broadband Internet feasibility study. A high-speed broadband Internet feasibility study is a study that addresses the potential market for a publicly owned consumer Internet service at retail, explores a system design and deployment strategy for various models and levels of service, or identifies the investments in property and equipment necessary to develop a system under various models and levels of service.
  - b. On or before December 1, 2010, has taken formal action, as reflected in the minutes of the city council's meetings, to instruct city staff to file an application with the Local Government Commission to approve a contract by the city to finance a communication system that provides consumer Internet service at retail.
- (3) The recipient of a federal grant, if the recipient stated in its grant application that it would provide any matching funds required as a condition of receiving the grant through financing under G.S. 160A-20.
- (4) A unit of local government chosen by Google for its Fiber Project, if the financing is needed to qualify as the Fiber Project.

**SECTION 3.(b) Interim Notice Requirements.** – A unit of local government that plans to submit an application to the Local Government Commission during the period the prohibition in subsection (a) of this section is in effect and whose application is eligible for approval during this period because of the exclusion in subdivision (2) of that subsection must hold a public hearing on the proposed application and must send written notice to each person

1 that provides consumer Internet service at retail within the unit of its intent to submit an  
2 application. The notice must be sent at least 15 days before the date of a public hearing held on  
3 the proposal. If the unit submits an application to the Local Government Commission after the  
4 public hearing, the Local Government Commission must accept written and oral comments  
5 from the providers the unit is required to notify under this subsection.

6 **SECTION 3.(c) New Requirements Apply.** – A unit of local government whose  
7 application to the Local Government Commission is approved under subdivision (a)(2) of this  
8 section will be fully subject to the requirements of any bill enacted by the 2011 Regular Session  
9 of the 2011 General Assembly upon the recommendation of the Revenue Laws Study  
10 Committee as a result of the study directed by Section 2 of this act.

11 **SECTION 4.** This act is effective when it becomes law.
