SENATE BILL 589

Short Title:	Hazardous Waste Amends.	(Public)
Sponsors:	Senator Vaughan.	
Referred to:	Agriculture/Environment/Natural Resources.	
	April 14, 2011	

A BILL TO BE ENTITLED

2 AN ACT TO AMEND CERTAIN LAWS GOVERNING HAZARDOUS WASTE 3 FACILITIES.

4 The General Assembly of North Carolina enacts:

SECTION 1. G.S. 130A-295.04 reads as rewritten:

"§ 130A-295.04. Financial responsibility requirements for applicants for a permit and permit holders for hazardous waste facilities.

8 (a) In addition to any other financial responsibility requirements for solid waste 9 management facilities under this Part, the applicant for a permit or a permit holder for a 10 hazardous waste facility shall establish financial assurance that will ensure that sufficient funds 11 are available for facility closure, post-closure maintenance and monitoring, any corrective 12 action that the Department may require, and to satisfy any potential liability for sudden and 13 nonsudden accidental occurrences, even if the applicant or permit holder becomes insolvent or 14 ceases to reside, be incorporated, do business, or maintain assets in the State.

15 (b) To establish sufficient availability of funds under this section, the applicant for a 16 permit or a permit holder for a hazardous waste facility may use insurance, financial tests, 17 third-party guarantees by persons who can pass the financial test, guarantees by corporate 18 parents who can pass the financial test, irrevocable letters of credit, trusts, surety bonds, or any 19 other financial device, or any combination of the foregoing, shown to provide protection 20 equivalent to the financial protection that would be provided by insurance if insurance were the 21 only mechanism used.

(c) The applicant for a permit or a permit holder for a hazardous waste facility, and any parent, subsidiary, or other affiliate of the applicant, permit holder, or parent, including any joint venturer with a direct or indirect interest in the applicant, permit holder, or parent, shall be a guarantor of payment for closure, post-closure maintenance and monitoring, any corrective action that the Department may require, and to satisfy any potential liability for sudden and nonsudden accidental occurrences arising from the operation of the hazardous waste facility.

In addition to any other financial assurance requirements for hazardous waste 28 (d) 29 management facilities under this section, an applicant for a permit or a permit holder for a 30 commercial hazardous waste facility shall establish financial assurance that will ensure that sufficient funds are available for corrective action and for off-site screening for potential 31 32 migration of contaminants in the event of a release of hazardous waste or hazardous waste 33 constituents into the environment in an amount approved by the Department. The applicant for 34 a permit or a permit holder may not use a financial test or captive insurance to establish financial assurance under this subsection. 35

(e) The Department may require an applicant for a permit for a hazardous waste facility
 to provide cost estimates for facility closure, post-closure maintenance and monitoring, and any

	under subsection (d) of this section, the written responses the applicant rec	
	subsection (e) of this section, and verification by each that its resources and ec	
	available and adequate it is able to respond to an emergency at the facility in accord	
•	role as set forth in the contingency plan. If the applicant does not receive a timely	
	from a local government or emergency response agency notified under subsection	. ,
	section, the Department shall verify the adequacy of resources and equipment fo	
	response during the course of review of the permit application, taking into	account any
	contracts entered into by the applicant for such emergency response resources.(g) At each two-year interval after a permit for a hazardous waste facility in the second second	is issued the
	permit holderDepartment shall verify that the resources and equipment of	
	government and emergency response agency are available and adequate to re	
	emergency at the facility in accordance with its role as set forth in the contingence	
r	and shall submit this verification to the Department. A contingency plan verification	
	subsection shall be available through utilization of the UT-Dallas E-Plan reporting	
	SECTION 3. G.S. 130A-295.01 reads as rewritten:	<u>system.</u>
	"§ 130A-295.01. Additional requirement for commercial hazardous waste faci	lities.
	(a) As used in this section:	
	(1) "Commercial hazardous waste facility" means any hazardous w	vaste facility
	that accepts hazardous waste from the general public or from an	•
	for a fee, but does not include any facility owned or operated by	
	of hazardous waste solely for his own use, and does not include	
	owned by the State or by any agency or subdivision thereof s	• •
	management of hazardous waste generated by agencies or sub	•
	the State.	
	(2) "New", when used in connection with "facility", refers to a	planned or
)	proposed facility, or a facility that has not been placed in operat	-
	not include facilities that have commenced operations as of 22	
}	including facilities operated under interim status.	
)	(3) "Modified", when used in connection with "permit", means an	
)	any permit in force on or after 22 June 1987 that would either	
	scope of permitted operations, or extend the expiration date of the	he permit, or

health. The requirements of this subsection may be satisfied either by employing trained facility
 personnel or by providing an electronic security and surveillance system which may include
 television, motion detectors, heat-sensing equipment, combustible gas monitors, or any
 combination of these, as approved by the Department.

(h) The operator of a commercial hazardous waste facility shall install an on-site wind
 monitor approved by the Department. The wind monitor required shall be located so that the
 real-time wind direction can be determined from a remote location in the event of a release of
 hazardous waste or hazardous waste constituents into the environment."

SECTION 4. G.S. 130A-295.02(j) reads as rewritten:

39 For purposes of this subsection, special purpose commercial hazardous waste "(j) 40 facilities include: a facility that manages limited quantities of hazardous waste; a facility that limits its hazardous waste management activities to reclamation or recycling, including energy 41 42 or materials recovery or a facility that stores hazardous waste primarily for use at such 43 facilities; or a facility that is determined to be low risk under rules adopted by the Commission 44 pursuant to this subsection. The Commission shall adopt rules to determine whether a 45 commercial hazardous waste facility is a special purpose commercial hazardous waste facility 46 and to establish classifications of special purpose commercial hazardous waste facilities. The rules to determine whether a commercial hazardous waste facility is a special purpose 47 48 commercial hazardous waste facility and to establish classifications of special purpose 49 commercial hazardous waste facilities shall be based on factors including, but not limited to, 50 the size of the facility, the type of treatment or storage being performed, the nature and volume 51 of waste being treated or stored, the uniformity, similarity, or lack of diversity of the waste

General Assembly of North Carolina

streams, the predictability of the nature of the waste streams and their treatability, whether the 1 2 facility utilizes automated monitoring or safety devices that adequately perform functions that 3 would otherwise be performed by a resident inspector, the fact that reclamation or recycling is 4 being performed at the facility, and the compliance history of the facility and its operator. 5 Based on the foregoing factors and any increase or decrease in the number of sensitive land 6 uses over time or in estimated population density over time reported pursuant to 7 G.S. 130A 295.01(f), rules adopted pursuant to this subsection shall establish times and 8 frequencies for the presence of a resident inspector on less than a full time basis at special 9 purpose commercial hazardous waste facilities and specify a minimum number of additional 10 inspections at special purpose hazardous waste facilities. Special purpose commercial hazardous waste facilities that utilize hazardous waste as a fuel 11 12 source shall be inspected a minimum of 40 hours per week, unless compliance data for these 13 facilities can be electronically monitored and recorded off-site by the Department. The 14 Department, considering the benefits provided by electronic monitoring, shall determine the 15 number of hours of on-site inspection required at these facilities. The Department shall 16 maintain records of all inspections at special purpose commercial hazardous waste facilities. 17 Such records shall contain sufficient detail and shall be arranged in a readily understandable 18 format so as to facilitate determination at any time as to whether the special purpose 19 commercial hazardous waste facility is in compliance with the requirements of this subsection 20 and of rules adopted pursuant to this subsection. Notwithstanding any other provision of this 21 section, special purpose commercial hazardous waste facilities shall be subject to inspection at 22 all times during which the facility is in operation, undergoing any maintenance or repair, or 23 undergoing any test or calibration."

24

SECTION 5. G.S. 130A-294(c)(8) reads as rewritten:

"(c) The Commission shall adopt and the Department shall enforce rules governing the
 management of hazardous waste. These rules shall establish a complete and integrated
 regulatory scheme in the area of hazardous waste management, implement this Part, and shall:

- 29 (8) Develop standards regarding location, design, ownership and construction of
 30 hazardous waste facilities; provided, however, that no hazardous waste
 31 disposal facility or polychlorinated biphenyl disposal facility shall be located
 32 within 25 miles of any other hazardous waste disposal facility or
 33 polychlorinated biphenyl disposal facility.facilities."
- 34 **SECTION 6.** This act is effective when it becomes law.
