Restoration After Violation. - When the Division restores the license of a person 1 (k) 2 whose license was revoked pursuant to subsection (f) or (g) of this section and the revocation 3 occurred prior to completion of time period required by subsection (c) of this section, in addition to any other restriction or condition, it shall require the person to comply with the 4 5 conditions of subsection (b) of this section until the person has complied with those conditions for the cumulative period of time as set forth in subsection (c) of this section. The period of 6 7 time for which the person successfully complied with subsection (b) of this section prior to 8 revocation pursuant to subsection (f) or (g) of this section shall be applied towards the 9 requirements of subsection (c) of this section.

10 Medical Exception to Requirement. - A person subject to this section who has a (1)11 medically diagnosed physical condition that makes the person incapable of personally 12 activating an ignition interlock system may request an exception to the requirements of this 13 section from the Division. The Division shall not issue an exception to this section unless the 14 person has submitted to a physical examination by two or more physicians or surgeons duly licensed to practice medicine in this State or in any other state of the United States and unless 15 16 such examining physicians or surgeons have completed and signed a certificate in the form 17 prescribed by the Division. Such certificate shall be devised by the Commissioner with the 18 advice of those qualified experts in the field of diagnosing and treating physical disorders that 19 the Commissioner may select and shall be designed to elicit the maximum medical information 20 necessary to aid in determining whether or not the person is capable of personally activating an 21 ignition interlock system. The certificate shall contain a waiver of privilege and the 22 recommendation of the examining physician to the Commissioner as to whether the person is 23 capable of personally activating an ignition interlock system.

24 The Commissioner is not bound by the recommendations of the examining physicians but 25 shall give fair consideration to such recommendations in acting upon the request for medical 26 exception, the criterion being whether or not, upon all the evidence, it appears that the person is 27 in fact incapable of personally activating an ignition interlock system. The burden of proof of 28 such fact is upon the person seeking the exception.

29 Whenever an exception is denied by the Commissioner, such denial may be reviewed by a 30 reviewing board upon written request of the person seeking the exception filed with the 31 Division within 10 days after receipt of such denial. The composition, procedures, and review 32 of the reviewing board shall be as provided in G.S. 20-9(g)(4)."
