§ 58-36. Disapproval; hearing, order; adjustment of premium, review of filing.

(a) At any time within 50 days after the date of any filing, the Commissioner may give
written notice to the Bureau specifying in what respect and to what extent the Commissioner
contends the filing fails to comply with the requirements of this Article and fixing a date for
hearing not less than 30 days from the date of mailing of such notice. Once begun, hearings
must proceed without undue delay. At the hearing the burden of proving that the proposed rates are not excessive, inadequate, or unfairly discriminatory is on the Bureau. At the hearing the factors specified in G.S. 58-36-10 shall be considered. If the Commissioner after hearing finds that the filing does not comply with the provisions of this Article, he may issue his order determining wherein and to what extent such filing is deemed to be improper and fixing a date thereafter, within a reasonable time, after which the filing shall no longer be effective. In the event the Commissioner finds that the proposed rates are excessive, the Commissioner shall specify the overall rates, between the existing rates and the rates proposed by the Bureau filing, that may be used by the members of the Bureau instead of the rates proposed by the Bureau filing, issue an order disapproving the filing and specifying the appropriate rate level or levels that may be used by the members of the Bureau instead of the rate level or levels proposed by the Bureau filing. In any such order, the Commissioner shall make findings of fact based on the evidence presented in the filing and at the hearing. Any order issued after a hearing shall be issued within 45 days after the completion of the hearing. If no order is issued within 45 days after the completion of the hearing, the filing shall be deemed to be approved.

PART III. BONDING AUTHORITY

SECTION 3.1. Chapter 58 of the General Statutes is amended by adding a new Article to read:

"Article 45A.

"Recovery Finance Authority.

§ 58-45A-1. Name.
This Article shall be known as the "North Carolina Recovery Finance Authority Act."

The General Assembly finds that the likelihood of one or more hurricanes or other catastrophic events causing sufficient damage and destruction for the Association to incur losses and loss expenses that exceed the combination of available surplus, reinsurance, and other sources of funding, including assessments on its member companies, is significant. The General Assembly finds that in any such event it will be beneficial to the residents and property owners in this State and will increase the insurance capacity and the overall functioning of the State's insurance industry that all or a portion of the obligations to pay claims under policies issued by the Association and related to the hurricane or other catastrophic event resulting in such excess losses and loss expenses could be financed by a State entity through bonded indebtedness paid from amounts including catastrophe recovery charges imposed on residential and commercial property insurance policyholders Statewide with their annual policy premiums. The General Assembly therefore finds that, as an additional or alternative method to borrowing by the Association for the purpose of paying such excess losses and loss expenses, the creation of a State authority to acquire the obligation to pay such claims under such policies and provide for the issuance of bonded indebtedness is necessary and desirable to provide the most efficient mechanisms for addressing excess losses and loss expenses that may arise from hurricanes or other catastrophic events in the State.

SECTION 3.2. G.S. 58–45–47 reads as rewritten:

"§ 58-45-47. Deficit event.
(a) Nonrecoupable Assessment. – In the event the Association expects to incur losses
and expenses to the Association exceeding available surplus, reinsurance, and other sources of
funding of Association losses, with such availability determined taking into account sources
committed with respect to losses and expenses expected from prior events, the Association is
authorized to issue a nonrecoupable assessment upon its members in accordance with its Plan
of Operation. Member assessments shall not exceed one billion dollars ($1,000,000,000) for
losses incurred from any event or series of events that occur in a given calendar year, regardless
of when such assessments are actually levied on or collected from member companies.
(b) Deficit Event. – When the Association knows that it has incurred or determines that it
expects it will incur losses and loss expenses in a particular calendar year that will exceed the
combination of available surplus, reinsurance, and other sources of funding, including
permissible member company assessments, then the Association shall immediately give notice
to the Commissioner and the North Carolina Recovery Finance Authority that a deficit event
has occurred. With such notice the Association shall provide evidence with respect to its
estimates of the total losses and loss expenses the Association expects to incur within the
calendar year and the amounts available to it from surplus, reinsurance, and other sources of
funding, including member assessments, with such availability determined taking into account
sources committed with respect to losses and expenses expected from prior events. The
Association shall make such evidence and related materials available to the Commissioner for
review and verification.
(c) Imposition of Catastrophe Recovery Charge. – Upon agreement by the
Commissioner with a determination by the Association that a deficit event has occurred, the
Association shall determine, in its discretion, the appropriate means of financing the
deficit, deficit in whole or in part, which may include, but is not limited to, the purchase of
reinsurance, arranging lines of credit, or other forms of borrowing or financing, including
a North Carolina Recovery Finance Authority financing as described in subdivision
(2) of this subsection, or any combination of these means. If the Association determines that the
member companies have paid one billion dollars ($1,000,000,000) in nonrecoupable
assessments for losses and expenses incurred in any given year pursuant to subsection (a) of
this section, the Association may, subject to the verification by the Commissioner that the
dollar value of losses and expenses has reached the level necessary for a catastrophe recovery
charge, take either of the following actions:
(1) Authorize member companies to impose a catastrophe recovery charge on their residential and commercial property insurance policyholders statewide. Catastrophe recovery charges shall be charged as a uniform percentage of written premiums as prescribed by the Commissioner, and shall not exceed an aggregate amount of ten percent (10%) of the annual policy premium on any one policy of insurance. Catastrophe recovery charges collected under this section subsection shall be transferred on a periodic basis, as determined by the Association and ordered by the Commissioner, directly to the Association, or, at the Association's direction, to a trustee for the Association's creditors in a financing on a periodic basis as determined by the Association and ordered by the Commissioner. The Association and the FAIR Plan also shall charge their policyholders a catastrophe recovery charge as provided in this section.

(2) Inform the North Carolina Recovery Finance Authority and the Commissioner that it will assign without recourse to the North Carolina Recovery Finance Authority the Association's obligation to pay claims with respect to policies issued by the Association in an amount estimated to be in excess of its losses and expenses that exceed available surplus, reinsurance, and other sources of funding of Association losses, including permissible assessments on its members, and act as agent for the North Carolina Recovery Finance Authority to collect catastrophe recovery charges imposed pursuant to G.S. 58-45-47 and direct amounts so collected to the North Carolina Recovery Finance Authority or at its direction.

(d) Requirements for Catastrophe Recovery Charge. – Catastrophe recovery charges imposed under this section shall be charged as a uniform percentage of written premiums as prescribed by the Commissioner, shall not exceed an aggregate amount of ten percent (10%) of the annual policy premium on any one policy of insurance, and shall also be imposed upon policyholders with insurance from the Association and the FAIR Plan established under Article 46 of this Chapter. The catastrophe recovery charge shall be clearly identified to policyholders on the premium statement, declarations page, or by other appropriate electronic or written method. The identification shall refer to the post-catastrophe loss for which the charge was imposed. Any such catastrophe recovery charge shall not be considered premium for any purpose, including premium taxes or commissions, except that failure to pay the catastrophe recovery charge shall be treated as failure to pay premium and shall be grounds for termination of insurance. The identified catastrophe recovery charge shall be accompanied by an explanation of the charge and shall appear on the medium by which the charge is conveyed to the policyholder. The explanatory language shall be prescribed by the Commissioner.

(e) Report. – The Association shall report quarterly to the Commissioner and the North Carolina Recovery Finance Authority providing all financial information for each catastrophe recovery charge authorized by this section, including total catastrophe recovery charge funds recovered to date and any information reasonably requested by the Commissioner or the North Carolina Recovery Finance Authority.

(f) Periodic Revision of Catastrophe Recovery Charge. – The Association shall recalculate the catastrophe recovery charge amount annually for any such charge imposed pursuant to subdivision (c)(1) of this section and, subject to procedure approved by the Commissioner, adjust the charge percentage as needed. The North Carolina Recovery Finance Authority shall recalculate the catastrophe recovery charge amount annually for any such charge imposed pursuant to subdivision (c)(2) of this section and adjust the charge percentage as needed.

(g) Cessation; Treatment of Excess Charges. – The catastrophe recovery charge amount shall continue until financing or refinancing of the deficit event has been paid in full. The State
of North Carolina does pledge to and agree with any creditors of the Association under
financings pursuant to subdivision (c)(1) of this section that so long as any such financing is
outstanding and unpaid the State will not limit the rights to catastrophe recovery charges vested
in the Association at the time of incurrence its obligations under such financings. Upon order of
cessation, any catastrophe recovery charge amounts imposed pursuant to subdivision (c)(1) of
this section collected by member companies, the Association or the FAIR Plan that exceed
amounts necessary for payment of the debt shall be remitted to the Association and added to the
surplus for the purposes of offsetting future Association losses or expenses. Any catastrophe
recovery charge amounts imposed pursuant to subdivision (c)(2) of this section collected by
member companies, the Association or the FAIR Plan that exceed amounts necessary for
payment of the debt shall first be remitted to the North Carolina Recovery Finance Authority
for payment of reasonable outstanding expenses associated with the issuance and repayment of
the debt and other necessary related activities of the North Carolina Recovery Finance
Authority. Charge amounts remaining after expenses shall be refunded to policyholders in a
manner approved by the Commissioner.

(h) Limitations. — Nothing contained in this section prohibits the Association from
entering into any financing arrangements for the purpose of financing a deficit, provided that
the pledge of catastrophe recovery charge amounts under such financing agreements shall not
result in the actual levying of any catastrophe recovery charge until after the Association has
incurred a deficit and until after the Commissioner has approved implementation of the
Association's catastrophe recovery charge plan. Nothing in this section prevents the Association
from utilizing financings under both subdivisions (c)(1) and (c)(2) of this section or either of
them in the same calendar year or there being in existence more than one catastrophe recovery
charge under either subsection or both subsections at the same time; provided all catastrophe
recovery charges, whether imposed by the Association or the North Carolina Recovery Finance
Authority, may not in the aggregate exceed ten percent (10%) of the annual policy premium on
any one policy of insurance."

No revenue bond project for the acquisition or construction of systems or facilities for the generation, production, or transmission of gas or electric power may be undertaken by the State or a municipality unless the State or municipality, as the case may be, shall first obtain a certificate of convenience and necessity from the North Carolina Utilities Commission. PART IV. REFORM CONSENT TO RATE
SECTION 4.1. G.S. 56-36-30 reads as rewritten:

... 

(b) This subsection applies only to insurance against theft of or physical damage to nonfleet private passenger motor vehicles and for loss costs and residual market rate filings for workers’ compensation and employers’ liability insurance written in connection with those loss costs and rate filings. A rate in excess of that promulgated by the Bureau may be charged by an insurer on any specific risk if the higher rate is charged in accordance with rules adopted by the Commissioner and with the knowledge and written consent of the insured. The insurer is not required to obtain the written consent of the insured on any renewal of or endorsement to the policy if the policy renewal or endorsement states that the rates are greater than those rates that are applicable in the State of North Carolina. The insurer shall retain the signed consent form and other policy information for each insured and make this information available to the Commissioner, upon request of the Commissioner. This subsection may be used to provide motor vehicle liability coverage limits above those required under Article 9A of Chapter 20 of the General Statutes and above those cedable to the Facility under Article 37 of this Chapter to persons whose personal excess liability insurance policies require that they maintain specific higher liability coverage limits. Any data obtained by the Commissioner under this subsection is proprietary and confidential and is not a public record under G.S. 132-1 or G.S. 58-2-100.

(b1) This subsection applies only to insurance against loss to residential real property with not more than four housing units. A rate in excess of that promulgated by the Bureau may be charged by an insurer on any specific risk if the higher rate is charged in accordance with rules adopted by the Commissioner, is based on sound actuarial principles, and is charged with the knowledge and written consent of the insured. The insurer is not required to obtain the written consent of the insured on any renewal of or endorsement to the policy if the policy renewal or endorsement states that the rates are greater than those rates that are applicable in the State of North Carolina, provided, however, that if the renewal or endorsement rates are greater than those previously consented to in writing by the insured, the insurer shall give 30 days’ notice to the insured and obtain the insured’s written consent to the greater rates. The insurer shall retain the signed consent form and other policy information for each insured and make this information available to the Commissioner, upon request of the Commissioner. Any data obtained by the Commissioner under this subsection is proprietary and confidential and is not a public record under G.S. 132-1 or G.S. 58-2-100.

PART V. CATASTROPHIC MODELING

SECTION 5.1. G.S. 58-36-10 reads as rewritten:

"§ 58-36-10. Method of rate making; factors considered.

The following standards shall apply to the making and use of rates:

(1) Rates or loss costs shall not be excessive, inadequate or unfairly discriminatory.

(2) Due consideration shall be given to actual loss and expense experience within this State for the most recent three-year period for which that information is available; to prospective loss and expense experience within this State; to the hazards of conflagration and catastrophe; to a reasonable margin for underwriting profit and to contingencies; to dividends, savings, or unabsorbed premium deposits allowed or returned by insurers to their policyholders, members, or subscribers; to investment income earned or realized by insurers from their unearned premium, loss, and loss expense reserve funds generated from business within this State; to past and prospective expenses specially applicable to this State; and to all other
relevant factors within this State: Provided, however, that countrywide
expense and loss experience and other countrywide data may be considered
only where credible North Carolina experience or data is not available.

(3) In the case of property insurance rates under this Article, consideration may
be given to the experience of property insurance business during the most
recent five-year period for which that experience is available. In the case of
property insurance rates under this Article, consideration shall be given to
the insurance public protection classifications of fire districts established by
the Commissioner. The Commissioner shall establish and modify from time
to time insurance public protection districts for all rural areas of the State
and for cities with populations of 100,000 or fewer, according to the most
recent annual population estimates certified by the State Budget Officer. In
establishing and modifying these districts, the Commissioner shall use
standards at least equivalent to those used by the Insurance Services Office,
Inc., or any successor organization. The standards developed by the
Commissioner are subject to Article 2A of Chapter 150B of the General
Statutes. The insurance public protection classifications established by the
Commissioner issued pursuant to the provisions of this Article shall be
subject to appeal as provided in G.S. 58-2-75, et seq. The exceptions stated
in G.S. 58-2-75(a) do not apply. If the Rate Bureau presents any modeled
losses with a property insurance rate filing, the Bureau shall present data
from more than one catastrophe model, and the models shall be based on
maximum load designs, such as maximum wind or rain loads, contained
within the State Building Codes promulgated by the State Building Code
Council.
