A BILL TO BE ENTITLED

AN ACT TO IMPROVE THE SCHOOL PERFORMANCE GRADE SYSTEM.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 115C-47(58) reads as rewritten:

"(58) To Inform the Public About the North Carolina School Report Cards Issued by the State Board of Education. – Each local board of education shall ensure that the report card issued for it by the State Board of Education receives wide distribution to the local press or is otherwise provided to the public. Each local board of education shall ensure that the overall school performance score and grade earned by each school in the local school administrative unit for the current and previous four school years is prominently displayed on the Web site of the local school administrative unit. Any publication of the annual report card shall include an explanation of the method of calculation and compilation of school performance data and associated school performance grades, with a translation of this explanatory information in Spanish. If any school in the local school administrative unit is awarded a grade of D or F, the local board of education shall provide notice of the grade in writing to the parent or guardian of all students enrolled in that school."

SECTION 2. G.S. 115C-83.15(d) reads as rewritten:

- "(d) Calculation of the School Performance Scores and Grades. The State Board of Education shall use EVAAS to calculate the school performance score by adding the school achievement score, as provided in subsection (b) of this section, and the school growth score, as provided in subsection (c) of this section, earned by a school. The school achievement score shall account for eighty percent (80%), twenty percent (20%), and the school growth score shall account for twenty percent (20%) eighty percent (80%) of the total sum. If a school has met expected growth and inclusion of the school's growth score reduces the school's performance score and grade, a school may choose to use the school achievement score solely to calculate the performance score and grade. For all schools, the total school performance score shall be converted to a 100-point scale and used to determine a school performance grade based on the following scale:
 - (1) A school performance score of at least 90 is equivalent to an overall school performance grade of A.
 - (2) A school performance score of at least 80 is equivalent to an overall school performance grade of B.
