HOUSE BILL DRH30085-MGf-4C (11/16)

Short Title: Legalize Medical Marijuana. (Public)

Sponsors: Representatives Alexander, Carney, Harrison, and R. Moore (Primary Sponsors).

Referred to:

1 A BILL TO BE ENTITLED  
2 AN ACT ESTABLISHING THE NORTH CAROLINA MEDICAL CANNABIS ACT.  
3 The General Assembly of North Carolina enacts:  
4 **SECTION 1.** Chapter 90 of the General Statutes is amended by adding a new Article  
5 to read:

6 "Article 43.  
7 "North Carolina Medical Cannabis Act.

8 **"§ 90-730. Short title.**

9 This Article shall be known and may be cited as the "North Carolina Medical Cannabis Act."

10 **"§ 90-730.1. Legislative findings and purpose.**

11 The General Assembly makes the following findings:

- 12 (1) Modern medical research has discovered beneficial uses for cannabis in treating  
13 or alleviating pain, nausea, and other symptoms associated with certain  
14 debilitating medical conditions, as found by the National Academy of Sciences'  
15 Institute of Medicine in March 1999.
- 16 (2) According to the United States Sentencing Commission and the Federal Bureau  
17 of Investigation, 99 out of every 100 cannabis arrests in the United States are  
18 made under state law, rather than under federal law. Consequently, changing  
19 State law will have the practical effect of protecting from arrest the vast  
20 majority of seriously ill people who have a medical need to use cannabis.
- 21 (3) The United States Department of Health and Human Services, through the  
22 Compassionate Investigational New Drug (IND) program, provides cannabis by  
23 prescription to a number of individuals for their use as medicine. The cannabis  
24 is grown at the federal cannabis research garden at the University of Mississippi  
25 and is processed and distributed by the Research Triangle Institute in Research  
26 Triangle Park, North Carolina. The patients receive the cannabis monthly in  
27 canisters of approximately 300 prerolled cigarettes. The dosage for patients in  
28 the IND program ranges from seven to nine grams per day. Since the inception  
29 of the program in 1978, individual patients in the IND program have received  
30 and consumed approximately 6.5 pounds of cannabis per year, thereby  
31 establishing a safe and effective dosage for a chronic daily use patient to  
32 possess and consume. The IND program was closed to new applicants in 1991.
- 33 (4) In 1992, the United States Drug Enforcement Administration (DEA) published  
34 research in a report entitled "Cannabis Yields" stating that canopy cover, rather  
35 than the number of plants, is the most accurate indicator of a garden's yield.  
36 According to the DEA report, 250 square feet of mature garden canopy will

1 typically yield six pounds of processed cannabis per year, a common amount  
2 for patients who use cannabis daily, and less than the amount prescribed and  
3 delivered to the IND patients by the federal government.

4 (5) Although federal law currently prohibits any use of cannabis outside of the IND  
5 program, the laws of Alaska, Arizona, Arkansas, California, Colorado,  
6 Connecticut, District of Columbia, Delaware, Florida, Hawaii, Illinois, Maine,  
7 Maryland, Massachusetts, Michigan, Minnesota, Montana, Nevada, New  
8 Hampshire, New Jersey, New Mexico, New York, North Dakota, Ohio,  
9 Oregon, Pennsylvania, Rhode Island, Vermont, and Washington permit the  
10 medical use and cultivation of cannabis. North Carolina joins in this effort for  
11 the health and welfare of its citizens.

12 (6) States are not required to enforce federal law or prosecute people for engaging  
13 in activities prohibited by federal law. Therefore, compliance with this Article  
14 does not put the State of North Carolina in violation of federal law.

15 (7) Compassion dictates that State law should make a distinction between the  
16 medical and nonmedical use of cannabis. Hence, the purpose of this Article is  
17 to protect patients with debilitating medical conditions, and their physicians and  
18 caregivers, from arrest and prosecution, criminal and other penalties, and  
19 property forfeiture by allowing the beneficial use of medical cannabis in a  
20 regulated system for alleviating symptoms caused by debilitating medical  
21 conditions and their medical treatments.

22 (8) This Article is intended to make only those changes to existing North Carolina  
23 laws that are necessary to protect patients and their doctors from criminal and  
24 civil penalties and is not intended to change current civil and criminal laws  
25 governing the use of cannabis for nonmedical purposes.

26 (9) Based on data gathered from other states where medical cannabis has been  
27 regulated, this Article will result in approximately two hundred fifty million  
28 dollars (\$250,000,000) per year in revenues for the State within four years of  
29 implementation.

30 (10) The General Assembly enacts this Article pursuant to its police power to enact  
31 legislation for the protection of the health of its citizens, as reserved to the State  
32 in the Tenth Amendment of the United States Constitution.

7                   the qualified patient or the qualified patient's designated caregiver of a  
8                   size reasonably necessary to assure the uninterrupted availability of  
9                   cannabis for a period of three months, in a form recommended by the

17                  offers to provide follow-up care and treatment to the patient, including patient  
18                  examinations, to determine the efficacy of the use of medical cannabis as a

41          benefits of the medical use of cannabis would likely outweigh the health risks  
42          for the patient.

43    **"§ 90-730.3. Protections for the medical use of cannabis.**

44           (a)    A qualified patient shall not be subject to arrest, prosecution, or penalty in any manner,  
45           or denied any right or privilege, including, but not limited to, civil penalty or disciplinary action  
46           by a business or occupational or professional licensing board or bureau, for the possession or  
47           purchase of cannabis for medical use by the qualified patient if the quantity of usable cannabis  
48           possessed or purchased does not exceed an adequate supply, as determined by the qualified  
49           patient's physician.

50           (b)    A designated caregiver shall not be subject to arrest, prosecution, or penalty in any  
51           manner, or denied any right or privilege, including imposition of a civil penalty or disciplinary

1 action by a business or occupational or professional licensing board or bureau, for the possession  
2 or purchase of cannabis for medical use by the qualified patient if the quantity of cannabis  
3 possessed or purchased does not exceed an adequate supply for the qualified patient, as  
4 determined by the qualified patient's physician.

5 (c) If usable cannabis is infused or added as an ingredient to food, salve, tincture, or any  
6 other preparation to be consumed or used by a qualified patient, the weight of the other ingredients  
7 that are not usable cannabis shall not be included for the purpose of determining whether a  
8 qualified patient is in possession of an amount of cannabis that exceeds the qualified patient's  
9 adequate supply.

10 (d) Subsection (a) of this section does not apply to a qualified patient under 18 years of  
11 age, unless all of the following criteria are met:

12 (1) The qualified patient's physician has explained the potential risks and benefits  
13 of the medical use of cannabis to the qualified patient and to a parent, guardian,  
14 or person having legal custody of the qualified patient.

15 (2) A parent, guardian, or person having legal custody of the qualified patient  
16 consents in writing to (i) allow the qualified patient's medical use of cannabis,  
17 (ii) serve as the qualified patient's designated caregiver, and (iii) control the  
18 dosage and frequency of the medical use of cannabis by the qualified patient.

19 (e) A qualified patient or a designated caregiver shall be granted the full legal protections  
20 provided in this section as long as the qualified patient or designated caregiver is in possession of  
21 a registry identification card. If the qualified patient or designated caregiver is not in possession of  
22 a registry identification card, the individual shall be given an opportunity to produce the registry  
23 identification card before the initiation of any arrest, criminal charges, or other penalties.

24 (f) A qualified patient or a designated caregiver is presumed to be engaged in the medical  
25 use of cannabis if the qualified patient or designated caregiver is in possession of a registry  
26 identification card and an amount of cannabis that does not exceed the qualified patient's adequate  
27 supply. This presumption may be rebutted only by evidence that the qualified patient or designated  
28 caregiver engaged in conduct related to cannabis for a purpose other than alleviating the qualified  
29 patient's debilitating medical condition or symptoms associated with the debilitating medical  
30 condition.

31 (g) A designated caregiver may receive reimbursement for costs associated with assisting a  
32 qualified patient in the medical use of cannabis. Reimbursement for these costs does not constitute  
33 the sale of a controlled substance under Article 5 of Chapter 90 of the General Statutes.

34 (h) A school, employer, or landlord shall not refuse to enroll, employ, lease, or otherwise  
35 penalize a qualified patient or a designated caregiver solely because of (i) the individual's status as  
36 a qualified patient or a designated caregiver or (ii) the presence of cannabis metabolites in the  
37 individual's bodily fluids.

38 (i) For the purposes of medical care, including organ transplants, a qualified patient's  
39 authorized use of cannabis in accordance with this Article shall be treated in the same manner as  
40 the authorized use of any other medication used at the direction of a physician and shall not  
41 constitute the use of an illegal substance.

42 (j) A licensed producer of medical cannabis shall not be subject to arrest, prosecution, or  
43 penalty in any manner, or denied any right or privilege, or subject to disciplinary action by a  
44 business or occupational or professional licensing board or bureau for producing, possessing,  
45 distributing, or dispensing cannabis in a manner consistent with this Article.

46 (k) A physician shall not be subject to arrest, prosecution, or penalty in any manner, or  
47 denied any right or privilege, or subject to increased monitoring or disciplinary action by the  
48 North Carolina Medical Board or any other business or occupational or professional licensing  
49 board or bureau for either of the following:

50 (1) Advising a patient about the risks and benefits of the medical use of cannabis or  
51 that the patient may benefit from the medical use of cannabis if, in the

1 physician's medical judgment, the potential benefits of the medical use of  
2 cannabis would likely outweigh the health risks for that particular patient.

3 (2) Providing a patient with valid documentation, based upon the physician's  
4 assessment of the patient's medical history and current medical condition, that  
5 the potential benefits of the medical use of cannabis would likely outweigh the  
6 health risks for that particular patient.

7 (l) A physician shall not be subject to arrest, prosecution, or penalty in any manner, or  
8 denied any right or privilege, or subject to disciplinary action by a business or occupational or  
9 professional licensing board or bureau for discussing with a patient the benefits or health risks of  
10 the medical use of cannabis or the interaction of cannabis with other substances.

11 (m) State and local law enforcement officers shall not harm, neglect, injure, or destroy an  
12 individual's interest in or right to property that is possessed, owned, or used in connection with the  
13 medical use of cannabis, or acts incidental to the medical use of cannabis, while the property is in  
14 the possession of State or local law enforcement officials as a result of a seizure of the property in  
15 connection with the claimed medical use of cannabis. A person does not forfeit any right or  
16 interest in property seized in connection with the medical use of cannabis under any provision of  
17 State law providing for the forfeiture of property, unless the forfeiture is part of a sentence  
18 imposed upon the person as a result of a conviction of a criminal violation of this Article or entry  
19 of a plea of guilty to such violation. Cannabis, paraphernalia, or other property seized from a  
20 qualified patient, designated caregiver, or licensed producer of medical cannabis in connection  
21 with the claimed medical use or production for medical use of cannabis shall be returned  
22 immediately upon the determination by a court, prosecutor, or law enforcement officer that the  
23 qualified patient, designated caregiver, or licensed producer of medical cannabis is entitled to the  
24 protections of this Article. In making this determination, the court, a prosecutor, or a law  
25 enforcement officer shall consider as evidence the failure of law enforcement officers to actively  
26 investigate the case, a decision not to prosecute, the dismissal of charges, or acquittal.

27 (n) A person shall not be denied custody of, or visitation or parenting time with, a minor  
28 for conduct allowed under this Article.

29 (o) There is no presumption of neglect or child endangerment for conduct allowed under  
30 this Article.

31 (p) No person shall be subject to arrest or prosecution for constructive possession,  
32 conspiracy, aiding and abetting, being an accessory, or any other offense, for simply being in the  
33 presence or vicinity of the medical use of cannabis as permitted under this Article or for assisting a  
34 qualified patient with using or administering cannabis.

35 (q) Possession of or application for a registry identification card shall not alone constitute  
36 probable cause to search the person or the property of the person possessing or applying for a  
37 registry identification card or otherwise subject the person or the person's property to inspection  
38 by any government agency.

39 (r) If an individual being investigated by a law enforcement officer employed by a  
40 State-funded or locally funded law enforcement agency credibly asserts during the course of the  
41 investigation that the individual is a qualified patient or designated caregiver, neither the law  
42 enforcement officer nor the law enforcement agency shall provide any information, except as  
43 required by federal law or the United States Constitution, from any cannabis-related investigation  
44 of the individual to any law enforcement authority that does not recognize the protections of this  
45 Article. Any prosecution of the individual for a violation of this Article shall be conducted  
46 pursuant to the laws of this State.

47 (s) Cannabis produced and possessed under this Article is exempt from the Unauthorized  
48 Substances Tax set forth in Article 2D of Chapter 105 of the General Statutes, and no tax under  
49 that Article may be levied against any qualified patient, designated caregiver, licensed medical  
50 cannabis center, licensed producer of medical cannabis, or licensed producer of cannabis-infused  
51 products operating in accordance with this Article.

1        (t) Nothing in this Article shall be construed to extend the protections of this Article to  
2 any person, including a qualified patient, designated caregiver, or producer, to allow that person to  
3 acquire, possess, manufacture, produce, use, sell, distribute, dispense, or transport cannabis in a  
4 manner that is not consistent with this Article.

5 **"§ 90-730.4. Prohibitions, restrictions, and limitations on medical use of cannabis.**

6        (a) This Article does not permit any person to do any of the following:

7            (1) Operate, navigate, or be in actual physical control of any motor vehicle, aircraft,  
8 or motorboat while impaired by cannabis. However, a qualified patient shall not  
9 be considered impaired solely due to the presence of cannabis metabolites in  
10 the individual's system.

11           (2) Undertake any task under the influence of cannabis, when doing so would  
12 constitute negligence or professional malpractice.

13           (3) Smoke cannabis in a school bus or other form of public transportation, on any  
14 school grounds, in any correctional facility, or in any public place in this State.

15        (b) A person who commits an act prohibited by subsection (a) of this section is subject to  
16 all penalties provided by law.

17        (c) Nothing in this Article shall be construed to require any of the following:

18           (1) A government-sponsored medical assistance program or private health insurer  
19 to reimburse a person for costs associated with the medical use of cannabis.

20           (2) An employer to accommodate the medical use of cannabis in any workplace.

21        (d) Fraudulent representation to a law enforcement official of any fact or circumstance  
22 relating to the medical use of cannabis to avoid arrest or prosecution is a Class 2 misdemeanor  
23 punishable by a fine of five hundred dollars (\$500.00) in addition to any other applicable penalties  
24 for making a false statement about the medical use of cannabis.

25        (e) A licensed producer of medical cannabis that sells, distributes, dispenses, or transfers  
26 cannabis to an individual other than a registry identification cardholder or to a person other than a  
27 person licensed pursuant to G.S. 90-730.6, or obtains or transports cannabis outside of North  
28 Carolina in violation of federal law, is subject to arrest, prosecution, and civil or criminal penalties  
29 pursuant to State law.

30        (f) Nothing in this Article shall be construed as a waiver of sovereign immunity by the  
31 State.

32 **"§ 90-730.5. Registry identification cards for qualified patients and designated caregivers.**

33        (a) As used in this section, "Department" means the North Carolina Department of Health  
34 and Human Services.

35        (b) The Department shall issue a registry identification card to any qualified patient or  
36 designated caregiver who meets the requirements of this section.

37        (c) The Department shall not issue or renew a registry identification card to a qualified  
38 patient under 18 years of age unless each of the following criteria is met:

39           (1) The qualified patient's physician has explained the potential risks and benefits  
40 of the medical use of cannabis to the qualified patient and to a parent, guardian,  
41 or person having legal custody of the qualified patient.

42           (2) A parent, guardian, or person having legal custody of the qualified patient  
43 consents in writing to (i) allow the qualified patient's medical use of cannabis,  
44 (ii) serve as one of the qualified patient's designated caregivers, and (iii) control  
45 the acquisition of the cannabis, the dosage, and the frequency of the medical  
46 use of cannabis by the qualified patient.

47        (d) The Department shall verify the information contained in a registry identification card  
48 application or renewal application submitted pursuant to this section and shall approve or deny an  
49 application or renewal application within 45 days after receipt. The Department may deny a  
50 registry identification card application or renewal application only if the applicant fails to provide  
51 the information required pursuant to this section or if the Department determines that the

1 application or renewal application contains false information. If the Department fails to approve or  
2 deny a registration application or renewal application submitted pursuant to this section within 45  
3 days after receipt, the application or renewal application shall be deemed approved, and a copy of  
4 the application or renewal application together with proof of receipt by the Department at least 45  
5 days prior to the date this information is presented in lieu of a registry identification card shall be  
6 deemed a valid registry identification card.

7 (e) The Department may issue a registry identification card to a maximum of two  
8 designated caregivers named in a qualified patient's approved application.

9 (f) The Department shall issue a registry identification card to an applicant within five  
10 days after approving an application or renewal. The application or renewal expires two years after  
11 the date of issuance.

12 (g) Each registry identification card shall contain at least all of the following information:

13 (1) The date of issuance.

14 (2) The date of expiration.
