### ANNOUNCEMENT

There will be a meeting after session on Tuesday, April 12, 2011, in Room 544 LOB on Natural Gas “Fracking” 101. The process of “fracturing” or “fracking” to develop natural gas reserves is attracting considerable interest among energy companies, states and environmental organizations, including those in North Carolina. In this presentation, Dr. Vik Rao, Executive Director of the Research Triangle Energy Consortium housed at RTI in the Research Triangle Park and former Chief Technical Officer at Halliburton, provides an overview of the fracturing process - how it works and its economic and environmental challenges. Dr. Rao will be joined by former Secretary of the NC Department of Natural Resources Secretary Bill Holman - now at the Duke University Institute for the Environment - who will provide an overview of how other states are managing the policy questions concerning fracturing.

### **2011 Session Deadlines**

<b>Drafts</b>	<b>To Bill Drafting by 4 pm</b>	<b>Filed in House by 3 pm Wednesdays</b>
