Subject to G.S. 130A-412.10, an anatomical gift of a donor's body or body part may be made during the life of the donor for the purpose of transplantation, therapy, research, or education in the manner provided in G.S. 130A-412.7 by:

"§ 130A-412.8. Amending or revoking anatomical gift before donor's death.

"§ 130A-412.10. Preclusive effect of an anatomical gift, amendment, or revocation.

(a) Except as otherwise provided in subsection (g) of this section and subject to subsection (f) of this section, in the absence of an express, contrary indication by the donor, a person other than the donor is barred from making, amending, or revoking an anatomical gift of a donor's body or body part if either of the following apply:

(b) A donor's revocation of an anatomical gift of the donor's body or body part under G.S. 130A-412.8 is not a refusal and does not bar another person specified in G.S. 130A-412.6 or G.S. 130A-412.11 from making an anatomical gift of the donor's body or body part under G.S. 130A-412.7 or G.S. 130A-412.12.

(d) A revocation of an anatomical gift of a donor's body or body part under G.S. 130A-412.8 by a person other than the donor does not bar another person from making an anatomical gift of the body or body part under G.S. 130A-412.7 or G.S. 130A-412.12.

(e) In the absence of an express, contrary indication by the donor or other person authorized to make an anatomical gift under G.S. 130A-412.6, an anatomical gift of a body part is neither a refusal to give another body part nor a limitation on the making of an anatomical gift of another body part at a later time by the donor or another person.

(f) In the absence of an express, contrary indication by the donor or other person authorized to make an anatomical gift under G.S. 130A-412.6, an anatomical gift of a body part for one or more of the purposes set forth in G.S. 130A-412.6 is not a limitation on the making of an anatomical gift of the body part for any of the other purposes by the donor or any other person under G.S. 130A-412.7 or G.S. 130A-412.12.

(g) If a donor who is an unemancipated minor dies, a parent of the donor who is reasonably available may revoke or amend an anatomical gift of the donor's body or body part.

(h) If an unemancipated minor who signed a refusal dies, a parent of the minor who is reasonably available may revoke the minor's refusal.

"§ 130A-412.11. Who may make an anatomical gift of decedent's body or body part.

(a) Subject to subsections (b) and (c) of this section, and unless barred by G.S. 130A-412.9 or G.S. 130A-412.10, an anatomical gift of a decedent's body or body part for purpose of transplantation, therapy, research, or education may be made by any member of the following classes of persons who is reasonably available, in the order of priority listed:

- (1) An agent of the decedent at the time of death who could have made an anatomical gift under G.S. 130A-412.6(2) immediately before the decedent's death;

(b) If there is more than one member of a class listed in subdivision (a)(1), (3), (4), (5), (6), (7), or (9) of this section entitled to make an anatomical gift, an anatomical gift may be made by a member of the class unless that member or a person to which the gift may pass under G.S. 130A-412.13 knows of an objection by another member of the class. If an objection is known, the gift may be made only by a majority of the members of the class who are reasonably available.

(c) A person may not make an anatomical gift if, at the time of the decedent's death, a person in a prior class under subsection (a) of this section is reasonably available to make or to object to the making of an anatomical gift.

"§ 130A-412.12. Manner of making, amending, or revoking anatomical gift of decedent's body or body part.

(a) A person authorized to make an anatomical gift under G.S. 130A-412.11 may make an anatomical gift by a document of gift signed by the person making the gift or by that person's oral communication that is electronically recorded or is contemporaneously reduced to a record and signed by the individual receiving the oral communication.

(b) Subject to subsection (c) of this section, an anatomical gift by a person authorized under G.S. 130A-412.11 may be amended or revoked orally or in a record by any member of a prior class who is reasonably available. If more than one member of the prior class is reasonably available, the gift made by a person authorized under G.S. 130A-412.11 may be:

- (1) Amended only if a majority of the reasonably available members agrees to the amending of the gift; or
- (2) Revoked only if a majority of the reasonably available members agrees to the revoking of the gift or if they are equally divided as to whether to revoke the gift.

(c) A revocation under subsection (b) of this section is effective only if, before an incision has been made to remove a body part from the donor's body or before invasive procedures have begun to prepare the recipient, the procurement organization, transplant hospital, or physician or technician knows of the revocation.

"§ 130A-412.13. Persons that may receive anatomical gift; purpose of anatomical gift.

(a) An anatomical gift may be made to the following persons named in the document of gift:

- (1) A hospital; accredited medical school, dental school, college, or university; organ procurement organization; or other appropriate person, including the Commission on Anatomy, for research or education;
- (2) Subject to subsection (b) of this section, an individual designated by the person making the anatomical gift if the individual is the recipient of the body part;
- (3) An eye bank or tissue bank.

(b) If an anatomical gift to an individual under subdivision (a)(2) of this section cannot be transplanted into the individual, the body part passes in accordance with subsection (g) of this section in the absence of an express, contrary indication by the person making the anatomical gift.

(c) If an anatomical gift of one or more specific body parts or of all body parts is made in a document of gift that does not name a person described in subsection (a) of this section but identifies the purpose for which an anatomical gift may be used, the following rules apply:

- (1) If the body part is an eye and the gift is for the purpose of transplantation or therapy, the gift passes to the appropriate eye bank.
- (2) If the body part is tissue and the gift is for the purpose of transplantation or therapy, the gift passes to the appropriate tissue bank.
- (3) If the body part is an organ and the gift is for the purpose of transplantation or therapy, the gift passes to the appropriate organ procurement organization as custodian of the organ.

(d) For the purpose of subsection (c) of this section, if there is more than one purpose of an anatomical gift set forth in the document of gift but the purposes are not set forth in any priority, the gift must be used for transplantation or therapy, if suitable.

If the gift cannot be used for transplantation or therapy, the gift may be used for research or education.

(e) If an anatomical gift of one or more specific body parts is made in a document of gift that does not name a person described in subsection (a) of this section and does not identify the purpose of the gift, the gift may be used only for transplantation or therapy, and the gift passes in accordance with subsection (g) of this section.

(f) If a document of gift specifies only a general intent to make an anatomical gift by words such as "donor," "organ donor," or "body donor," or by a symbol or statement of similar import, the gift may be used only for transplantation or therapy, and the gift passes in accordance with subsection (g) of this section.

(i) If an anatomical gift does not pass pursuant to subsections (a) through (h) of this section or the decedent's body or body part is not used for transplantation, therapy, research, or education, then custody of the body or body part passes to the person under obligation to dispose of the body or body part.

(j) A person may not accept an anatomical gift if the person knows that the gift was not effectively made under G.S. 130A-412.7 or G.S. 130A-412.12 or if the person knows that the decedent made a refusal under G.S. 130A-412.9 that was not revoked. For purposes of this subsection, if a person knows that an anatomical gift was made on a document of gift, the person is deemed to know of any amendment or revocation of the gift or any refusal to make an anatomical gift on the same document of gift.

(k) Except as otherwise provided in subdivision (a)(2) of this section, nothing in this act affects the allocation of organs for transplantation or therapy.

"§ 130A-412.14. Search and notification.

(a) The following persons shall make a reasonable search of an individual who the person reasonably believes is dead or near death for a document of gift or other information identifying the individual as a donor or as an individual who made a refusal:

- (2) If no other source of the information is immediately available, a hospital, as soon as practical after the individual's arrival at the hospital.

(b) If a document of gift or a refusal to make an anatomical gift is located by the search required by subdivision (a)(1) of this section and the individual or deceased

individual to whom it relates is taken to a hospital, the person responsible for conducting the search shall send the document of gift or refusal to the hospital.

(c) A person is not subject to criminal or civil liability for failing to discharge the duties imposed by this section but may be subject to administrative sanctions.

"§ 130A-412.16. Rights and duties of procurement organization and others.

(a) When a hospital refers an individual at or near death to a procurement organization, the organization shall make a reasonable search of the records of the North Carolina Department of Transportation, Division of Motor Vehicles, and any donor registry that it knows exists for the geographical area in which the individual resides to ascertain whether the individual has made an anatomical gift.

(b) A procurement organization must be allowed reasonable access to information in the records of the North Carolina Department of Transportation, Division of Motor Vehicles, to ascertain whether an individual at or near death is a donor.

(c) When a hospital refers an individual at or near death to a procurement organization, the organization may conduct any reasonable examination necessary to ensure the medical suitability of a body part that is or could be the subject of an anatomical gift for transplantation, therapy, research, or education from a donor or a prospective donor. During the examination period, measures necessary to ensure the medical suitability of the body part may not be withdrawn unless the hospital or procurement organization knows that the individual expressed a contrary intent.

(d) Unless prohibited by law other than this Part, at any time after a donor's death, the person to which a body part passes under G.S. 130A-412.13 may conduct any reasonable examination necessary to ensure the medical suitability of the body or body part for its intended purpose.

(e) Unless otherwise prohibited by law, an examination under subsection (c) or (d) of this section may include an examination of all medical and dental records of the donor or prospective donor.

(f) Upon the death of a minor who was a donor or had signed a refusal, unless a procurement organization knows the minor is emancipated, the procurement organization shall conduct a reasonable search for the parents of the minor and provide the parents with an opportunity to revoke or amend the anatomical gift or revoke the refusal.

(g) Upon referral by a hospital under subsection (a) of this section, a procurement organization shall make a reasonable search for any person listed in G.S. 130A-412.11 having priority to make an anatomical gift on behalf of a prospective donor. If a procurement organization receives information that an anatomical gift to any other

person was made, amended, or revoked, it shall promptly advise the other person of all relevant information.

(h) Subject to G.S. 130A-412.13(i) and G.S. 130A-412.25, the rights of the person to which a body part passes under G.S. 130A-412.13 are superior to the rights of all others with respect to the body part. The person may accept or reject an anatomical gift in whole or in part. Subject to the terms of the document of gift and this Part, a person that accepts an anatomical gift of an entire body may allow embalming, burial, or cremation, and use of remains in a funeral service. If the gift is of a body part, the person to which the body part passes under G.S. 130A-412.13, upon the death of the donor and before embalming, burial, or cremation, shall cause the body part to be removed without unnecessary mutilation.

(i) Neither the physician who attends the decedent at death nor the physician who determines the time of the decedent's death may participate in the procedures for removing or transplanting a part from the decedent.

(j) A physician or technician may remove a donated body part from the body of a donor that the physician or technician is qualified to remove.

"§ 130A-412.17. Coordination of procurement and use.

Each hospital in this State shall enter into agreements or affiliations with procurement organizations for coordination of procurement and use of anatomical gifts.

"§ 130A-412.18. Sale or purchase of body parts prohibited.

(a) Except as otherwise provided in subsection (b) of this section, a person, that for valuable consideration, knowingly purchases or sells a body part for transplantation or therapy if removal of a body part from an individual is intended to occur after the individual's death commits a Class H felony and upon conviction may be fined up to fifty thousand dollars (\$50,000) for each offense.

(b) A person may charge a reasonable amount for the removal, processing, preservation, quality control, storage, transportation, implantation, or disposal of a body part.

"§ 130A-412.19. Other prohibited acts.

A person that, in order to obtain a financial gain, intentionally falsifies, forges, conceals, defaces, or obliterates a document of gift, an amendment or revocation of a document of gift, or a refusal commits a Class H felony and upon conviction may be fined up to fifty thousand dollars (\$50,000) for each offense.

"§ 130A-412.20. Immunity.

(a) A person that acts with due care in accordance with this Part or with the applicable anatomical gift law of another state, or attempts in good faith to do so, is not liable for the act in a civil action, criminal prosecution, or administrative proceeding.

(b) Neither the person making an anatomical gift nor the donor's estate is liable for any injury or damage that results from the making or use of the gift.

(c) In determining whether an anatomical gift has been made, amended, or revoked under this Part, a person may rely upon representations of an individual listed in subdivisions (2) through (8) of G.S. 130A-412.11(a) relating to the individual's relationship to the donor or prospective donor unless the person knows that the representation is untrue.

"§ 130A-412.21. Law governing validity; choice of law as to execution of document of gift; presumption of validity.

(a) A document of gift is valid if executed in accordance with:

(1) This Part;

(2) The laws of the state or country where it was executed; or

(3) The laws of the state or country where the person making the anatomical gift was domiciled, has a place of residence, or was a national at the time the document of gift was executed.

(b) If a document of gift is valid under this section, the law of this State governs the interpretation of the document of gift.

(c) A person may presume that a document of gift or amendment of an anatomical gift is valid unless that person knows that it was not validly executed or was revoked.

"§ 130A-412.22. Donor registry.

The online Organ Donor Registry Internet site established pursuant to G.S. 20-43.2 shall be the State donor registry for anatomical gifts made pursuant to this Part. Requirements for maintenance and use of the State donor registry shall be as provided under G.S. 20-43.2.

"§ 130A-412.23. Cooperation between a medical examiner and the procurement organization.

(a) The medical examiner shall cooperate with procurement organizations to maximize the opportunity to recover anatomical gifts for the purpose of transplantation, therapy, research, or education.

(b) If a medical examiner receives notice from a procurement organization that an anatomical gift might be available or was made with respect to a decedent whose body is under the jurisdiction of the medical examiner and a postmortem examination is going to be performed, unless the medical examiner denies recovery in accordance with G.S. 130A-412.24, the medical examiner or designee shall conduct a postmortem examination of the body or the body part in a manner and within a period compatible with its preservation for the purposes of the gift.

(c) A body part may not be removed from the body of a decedent under the jurisdiction of a medical examiner for transplantation, therapy, research, or education unless the body part is the subject of an anatomical gift. The body of a decedent under the jurisdiction of the medical examiner may not be delivered to a person for research or education unless the body is the subject of an anatomical gift. This subsection does not preclude a medical examiner from performing the medicolegal investigation upon the body or body parts of a decedent under the jurisdiction of the medical examiner.

(d) As used in this section and G.S. 130A-412.24, "medical examiner" includes the Chief Medical Examiner, a county medical examiner, or a designee of either.

If the decedent's body or body part is medically suitable for transplantation, therapy, research, or education, the medical examiner shall release postmortem examination results to the procurement organization. (c) A person that has any information requested by a medical examiner pursuant to subsection (b) of this section shall provide that information as expeditiously as possible to allow the medical examiner to conduct the medicolegal investigation within a period compatible with the preservation of body parts for the purpose of transplantation, therapy, research, or education.

(d) If an anatomical gift has been or might be made of a body part of a decedent whose body is under the jurisdiction of the medical examiner and a postmortem examination is not required, or the medical examiner determines that a postmortem examination is required but that the recovery of the body part that is the subject of an anatomical gift will not interfere with the examination, the medical examiner and procurement organization shall cooperate in the timely removal of the body part from the decedent for the purpose of transplantation, therapy, research, or education.

(e) If an anatomical gift of a body part from the decedent under the jurisdiction of the medical examiner has been or might be made, but the medical examiner initially believes that the recovery of the body part could interfere with the postmortem investigation into the decedent's cause or manner of death, the collection of evidence, or the description, documentation, or interpretation of injuries on the body, the medical examiner shall consult with the procurement organization or physician or technician designated by the procurement organization about the proposed recovery. After consultation, the medical examiner may deny or allow the recovery.

(f) If the medical examiner or designee allows recovery of a body part under subsection (d) or (e) of this section, the procurement organization shall provide the medical examiner or designee with a record describing the condition of the body part signed by the physician or technician who removes the body part and any other information and observations that would assist in the postmortem examination."
