

Article 57.

Nuisance Liability of Agricultural and Forestry Operations.

§ 106-700. Legislative determination and declaration of policy.

It is the declared policy of the State to conserve and protect and encourage the development and improvement of its agricultural land and forestland for the production of food, fiber, and other products. When other land uses extend into agricultural and forest areas, agricultural and forestry operations often become the subject of nuisance suits. As a result, agricultural and forestry operations are sometimes forced to cease. Many others are discouraged from making investments in farm and forest improvements. It is the purpose of this Article to reduce the loss to the State of its agricultural and forestry resources by limiting the circumstances under which an agricultural or forestry operation may be deemed to be a nuisance. (1979, c. 202, s. 1; 1991 (Reg. Sess., 1992), c. 892, s. 1.)

§ 106-701. When agricultural and forestry operation, etc., not constituted nuisance by changed conditions in or about the locality outside of the operation.

(a) No agricultural or forestry operation or any of its appurtenances shall be or become a nuisance, private or public, by any changed conditions in or about the locality outside of the operation after the operation has been in operation for more than one year, when such operation was not a nuisance at the time the operation began.

(a1) The provisions of subsection (a) of this section shall not apply when the plaintiff demonstrates that the agricultural or forestry operation has undergone a fundamental change. A fundamental change to the operation does not include any of the following:

- (1) A change in ownership or size.
- (2) An interruption of farming for a period of no more than three years.
- (3) Participation in a government-sponsored agricultural program.
- (4) Employment of new technology.
- (5) A change in the type of agricultural or forestry product produced.

(a2) The provisions of subsection (a) of this section shall not apply whenever a nuisance results from the negligent or improper operation of any agricultural or forestry operation or its appurtenances.

(b) For the purposes of this Article, "agricultural operation" includes, without limitation, any facility for the production for commercial purposes of crops, livestock, poultry, livestock products, or poultry products.

(b1) For the purposes of this Article, "forestry operation" shall mean those activities involved in the growing, managing, and harvesting of trees.

(c) The provisions of subsection (a) shall not affect or defeat the right of any person, firm, or corporation to recover damages for any injuries or damages sustained by him on account of any pollution of, or change in condition of, the waters of any stream or on the account of any overflow of lands of any such person, firm, or corporation.

(d) Any and all ordinances of any unit of local government now in effect or hereafter adopted that would make the operation of any such agricultural or forestry operation or its appurtenances a nuisance or providing for abatement thereof as a nuisance in the circumstance set forth in this section are and shall be null and void; provided, however, that the provisions of this subsection shall not apply whenever a nuisance results from the negligent or improper operation of any such agricultural or forestry operation or any of its appurtenances. Provided

further, that the provisions shall not apply whenever a nuisance results from an agricultural or forestry operation located within the corporate limits of any city at the time of enactment hereof.

(e) This section shall not be construed to invalidate any contracts heretofore made but insofar as contracts are concerned, it is only applicable to contracts and agreements to be made in the future.

(f) In a nuisance action against an agricultural or forestry operation, the court shall award costs and expenses, including reasonable attorneys' fees, to:

- (1) The agricultural or forestry operation when the court finds the operation was not a nuisance and the nuisance action was frivolous or malicious; or
- (2) The plaintiff when the court finds the agricultural or forestry operation was a nuisance and the operation asserted an affirmative defense in the nuisance action that was frivolous and malicious. (1979, c. 202, s. 1; 1991 (Reg. Sess., 1992), c. 892, s. 1; 2013-314, s. 1.)

§ 106-702. Limitations on private nuisance actions against agricultural and forestry operations.

(a) The compensatory damages that may be awarded to a plaintiff for a private nuisance action where the alleged nuisance emanated from an agricultural or forestry operation shall be as follows:

- (1) If the nuisance is a permanent nuisance, compensatory damages shall be measured by the reduction in the fair market value of the plaintiff's property caused by the nuisance, but not to exceed the fair market value of the property.
- (2) If the nuisance is a temporary nuisance, compensatory damages shall be limited to the diminution of the fair rental value of the plaintiff's property caused by the nuisance.

(b) If any plaintiff or plaintiff's successor in interest brings a subsequent private nuisance action against any agricultural or forestry operation, the combined recovery from all such actions shall not exceed the fair market value of his or her property. This limitation applies regardless of whether the subsequent action or actions were brought against a different defendant than the preceding action or actions.

(c) This Article shall apply to any private nuisance claim brought against any party based on that party's contractual or business relationship with an agricultural or forestry operation.

(d) This Article does not apply to any cause of action brought against an agricultural or forestry operation for negligence, trespass, personal injury, strict liability, or other cause of action for tort liability other than nuisance, nor does this Article prohibit or limit any request for injunctive relief or punitive damages that are otherwise available. (2017-11, s. 1.)
