

Article 40.

Perfusionist Licensure Act.

§ 90-681. Legislative findings.

The General Assembly finds that the practice of perfusion is an area of health care that is continually evolving to include more sophisticated and demanding patient care activities. The General Assembly further finds that the practice of perfusion by unauthorized, unqualified, unprofessional, and incompetent persons is a threat to public health, safety, and welfare, and therefore it is necessary to establish minimum standards of education, training, and competency for persons engaged in the practice of perfusion. (2005-267, s. 1.)
