
(a) Protection of Properties on National Register. – It shall be the duty of the Historical Commission, meeting at such times and according to such procedures as it shall by rule prescribe, to provide an advisory and coordinative mechanism in and by which State undertakings of every kind that are potentially harmful to the cause of historic preservation within the State may be discussed, and where possible, resolved, giving due consideration to the competing public interests that may be involved. To this end, the head of any State agency having direct or indirect jurisdiction over a proposed State or state-assisted undertaking, or the head of any State department, board, commission, or independent agency having authority to build, construct, operate, license, authorize, assist, or approve any State or state-assisted undertaking, shall, prior to the approval of any State funds for the undertaking, or prior to any approval, license, or authorization, as the case may be, take into account the effect of the undertaking on any district, site, building, structure, or object that is listed in the National Register of Historic Places established pursuant to Public Law 89-665, 16 U.S.C. 470.

Where, in the judgment of the Commission, an undertaking will have an effect upon any listed district, site, building, structure, or object, the head of the appropriate State agency shall afford the Commission a reasonable opportunity to comment with regard to such undertaking.

The Historical Commission shall act with reasonable diligence to insure that all State departments, boards, commissions, or agencies potentially affected by the provisions of this section be kept currently informed with respect to the name, location, and other significant particulars of any district, site, building, structure, or object listed or placed upon the National Register of Historic Places. The Commission shall cooperate to the fullest practical extent with any local historical organization and with any city or county historic district properties commission. If the property is a building, the Commission shall request and review the plans for the use, maintenance, operation, and purpose of the building and shall comment on the feasibility of the plans in the written report. This report, which shall be filed as a matter of record in the custody of the Department of Natural and Cultural Resources, shall set forth the following opinions or recommendations of the Commission:

(1) Whether the property is historically authentic;
Whether it is of such educational, historical, or cultural significance as to be essential to the development of a balanced State program of historic and archaeological sites and properties;

Whether practical plans have been or can be developed for the funding of the nonstate portion of the costs;

Such further comments and recommendations that the Commission may make.

The Commission shall investigate, evaluate, and prepare a written report on all interpretive, security, or climate control programs or projects for which State appropriations to be administered by the Department of Natural and Cultural Resources are proposed. This report, which shall be filed as a matter of record in the custody of the Department of Natural and Cultural Resources, shall set forth the following opinions or recommendations of the Commission:
