

**§ 130A-383. Medical examiner jurisdiction.**

(a) Upon the death of any person resulting from violence, poisoning, accident, suicide or homicide; occurring suddenly when the deceased had been in apparent good health or when unattended by a physician; occurring in a jail, prison, correctional institution or in police custody; occurring in State facilities operated in accordance with Part 5 of Article 4 of Chapter 122C of the General Statutes; occurring pursuant to Article 19 of Chapter 15 of the General Statutes; or occurring under any suspicious, unusual or unnatural circumstance, the medical examiner of the county in which the body of the deceased is found shall be notified by a physician in attendance, hospital employee, law-enforcement officer, funeral home employee, emergency medical technician, relative or by any other person having suspicion of such a death. No person shall disturb the body at the scene of such a death until authorized by the medical examiner unless in the unavailability of the medical examiner it is determined by the appropriate law enforcement agency that the presence of the body at the scene would risk the integrity of the body or provide a hazard to the safety of others. For the limited purposes of this Part, expression of opinion that death has occurred may be made by a nurse, an emergency medical technician or any other competent person in the absence of a physician.

(b) The discovery of anatomical material suspected of being part of a human body shall be reported to the medical examiner of the county in which the material is found.

(c) Upon completion of the investigation and in accordance with the rules of the Commission, the medical examiner shall release the body to the next of kin or other interested person who will assume responsibility for final disposition.
