USE OF CLOSED FACILITIES

SECTION 16C.1.(a) In conjunction with the closing of prison facilities, youth detention centers, and youth development centers, the Department of Public Safety shall consult with the county or municipality in which the facility is located, with elected State and local officials, and with State and federal agencies about the possibility of converting that facility to other use. The Department may also consult with any private for-profit or nonprofit firm about the possibility of converting the facility to other use. In developing a proposal for future use of each facility, the Department shall give priority to converting the facility to other criminal justice use. Consistent with existing law and the future needs of the Department of Public Safety, the State may provide for the transfer or the lease of any of these facilities to counties, municipalities, State agencies, federal agencies, or private firms wishing to convert them to other use. G.S. 146-29.1(f) through (g) shall not apply to a transfer made pursuant to this section. The Department of Public Safety may also consider converting some of the facilities recommended for closing from one security custody level to another, where that conversion would be cost-effective. A prison unit under lease to a county pursuant to the provisions of this section for use as a jail is exempt for the period of the lease from any of the minimum standards adopted by the Secretary of Health and Human Services pursuant to G.S. 153A-221 for the housing of adult prisoners that would subject the unit to greater standards than those required of a unit of the State prison system.

SECTION 16C.1.(b) The Department may convert closed facilities for the following purposes:

1. Training needs.
2. Behavior modification facilities.
3. Transitional housing.

Sixty days prior to converting facilities to these purposes, the Department shall report to the Joint Legislative Oversight Committee on Justice and Public Safety. The report shall include the justification for the conversion, operational requirements for the facility, and available resources for staffing and operating the facility. If the proposed facility will require additional funding in the future, the report shall provide a five-year projection of those funding needs.
