24 (g) Criteria for Legislative and Congressional Redistricting. – In preparing  
25 legislative and congressional district plans, the Independent Redistricting Commission  
26 shall adhere to the following criteria in the order of precedence in which they appear  
27 below:

- 28 (1) There shall be substantial equality of population among Senators in  
29 each senatorial district. State Senate and State House of  
30 Representatives districts shall be drawn so as to contain approximately  
31 the ideal number of residents for each member. In no event shall the  
32 population of any district in the State House of Representatives and the  
33 State Senate plans deviate from the ideal population by more than five  
34 percent (5%). In congressional districts, the districts shall be drawn as  
35 nearly equal in population as practicable.
- 36 (2) The voting rights of racial minorities shall not be abridged or denied in  
37 the formation of districts.
- 38 (3) All districts shall consist of contiguous territory.
- 39 (4) Census blocks shall not be divided in the drawing of districts.
- 40 (5) It is desirable to avoid dividing precincts in the drawing of districts.
- 41 (6) All congressional and legislative districts shall, to the extent consistent  
42 with federal law and the North Carolina Constitution, be  
43 single-member districts.

1           (7) Legislative districts shall be drawn so as to avoid the unnecessary  
2 division of counties, cities, and other political subdivisions. No city  
3 smaller than the size of a district shall contain subdivisions of more  
4 than two districts, except as required by federal law or the North  
5 Carolina Constitution.

6           (8) Districts shall be geographically compact in form. In drawing such  
7 districts, populous adjacent territory shall not be bypassed to reach  
8 distant populous areas.

9           (9) Congressional and legislative districts shall be drawn so as to preserve  
10 existing communities of interest where that can be done in compliance  
11 with the standards listed above. For purposes of this subdivision,  
12 'community of interest' means a recognizable area with similarities of  
13 interests, including, but not limited to, geographic, social, cultural, or  
14 historic interests, as well as commonality of communications.

15           (10) Districts shall not be established with the intent and effect of diluting  
16 the voting strength of any person, group of persons, or members of any  
17 political party. Legislative districts shall not be drawn for the purpose  
18 of favoring any incumbent.

19           (h) In Case Plan Held Invalid. – The Independent Redistricting Commission shall  
20 recommend a new district plan in the event that a plan it has recommended is held  
21 invalid.

22           (i) Federal and State Law. – In recommending any plan under this section, the  
23 Independent Redistricting Commission shall comply with all relevant requirements of  
24 the United States Constitution and acts of Congress. It shall comply with the North  
25 Carolina Constitution as enunciated by the North Carolina Supreme Court.

26           (j) Local Redistricting. – The General Assembly may by law assign to the  
27 Independent Redistricting Commission the duty to recommend districting and  
28 redistricting plans for any county, city, town, special district, and other governmental  
29 subdivision if the governing board of the unit or a court of competent jurisdiction so  
30 requests."

31           **SECTION 2.** This act is effective when it becomes law.
