No charter school shall employ as a teacher any person whose certification has been revoked by the State Board.

The charter school’s board of directors shall employ and contract with at least one individual whose major function includes the direct or indirect supervision of teaching or of any other part of the instructional program at the school. school administrative unit in which the school is located. The charter school is not required to
provide transportation to any student who lives within one and one half miles of the school. At
the request of the charter school and if the local board of the local school administrative unit in
which the charter school is located operates a school bus system, then that local board may
contract with the charter school to provide transportation in accordance with the charter
school's transportation plan to students who reside in the local school administrative unit and
who reside at least one and one-half miles of the charter school. A local board may charge the
charter school a reasonable charge that is sufficient to cover the cost of providing this
transportation. Furthermore, a local board may refuse to provide transportation under this
subsection if it demonstrates there is no available space on buses it intends to operate during the
term of the contract or it would not be practically feasible to provide this transportation."

(h1) Nutrition. – The charter school shall provide free and reduced priced meals to
students with family income below one hundred eighty-five percent (185%) of the poverty
level unless waived by the State Board upon a showing of extraordinary financial hardship by
the charter school.
