| 16<br>17 | of the plan, for ending overfishing. This subdivision shall only apply to a  |  |  |
| 17       | plan for a fishery that is not producing a sustainable harvest.  |  |  |
| 18       | (6) Specify a time period, not to exceed 10 years from the date of the adoption  |  |  |
| 19       | of the plan, for achieving a sustainable harvest. This subdivision shall not   |  |  |
| 20       | apply if the Fisheries Director determines that the biology of the fish,   |  |  |
| 21       | environmental conditions, or lack of sufficient data make implementing the   |  |  |
| 22       | requirements of this subdivision incompatible with professional standards  |  |  |
| 23       | for fisheries management.  |  |  |
| 24       | (7) Include a standard of at least fifty percent (50%) probability of achieving  |  |  |
| 25       | sustainable harvest for the fishery or fisheries. This subdivision shall not   |  |  |
| 26       | apply if the Fisheries Director determines that the biology of the fish,   |  |  |
| 27       | environmental conditions, or lack of sufficient data make implementing the   |  |  |
| 28       | requirements of this subdivision incompatible with professional standards  |  |  |
| 29       | for fisheries management.  |  |  |
| 30       | (c) To assist in the development of each Fishery Management Plan, the Chair of the   |  |  |
| 31       | Marine Fisheries Commission shall appoint a fishery management plan advisory committee.  |  |  |
| 32       | Each fishery management plan advisory committee shall be composed of commercial  |  |  |
| 33       | fishermen, recreational fishermen, and scientists, all with expertise in the fishery for which the   |  |  |
| 34       | Fishery Management Plan is being developed.  |  |  |
| 35       | (c1) The Department shall consult with the regional advisory committees established  |  |  |
| 36       | pursuant to G.S. 143B-289.57(e) regarding the preparation of each Fishery Management Plan.   |  |  |
| 37       | Before submission of a plan for review by the Joint Legislative Commission on Governmental   |  |  |
| 38       | Operations, Fish and Wildlife, the Department shall review any comment or recommendation   |  |  |
| 39       | regarding the plan that a regional advisory committee submits to the Department within the   |  |  |
| 40       | time limits established in the Schedule for the development and adoption of Fishery  |  |  |
| 41       | Management Plans established by G.S. 143B-289.52. Before the Commission adopts a   |  |  |
| 42       | management measure to implement a plan, the Commission shall review any comment or   |  |  |
| 43       | recommendation regarding the management measure that a regional advisory committee   |  |  |
| 44       | submits to the Commission.   |  |  |
| 45       | (d) Each Fishery Management Plan shall be reviewed at least once every five years. The   |  |  |
| 46       | Marine Fisheries Commission may revise the Priority List and guidance criteria whenever it   |  |  |
| 47       | determines that a revision of the Priority List or guidance criteria will facilitate or improve the  |  |  |
| 48       | development of Fishery Management Plans or is necessary to restore, conserve, or protect the   |  |  |
| 49       | marine and estuarine resources of the State. The Marine Fisheries Commission may not revise  |  |  |
| 50       | the Schedule for the development of a Fishery Management Plan, once adopted, without the   |  |  |
| 51       | approval of the Secretary of Environment and Natural Resources.  |  |  |
|          |  |  |  |

Session 2011

The Secretary of Environment and Natural Resources shall monitor progress in the 1 (e) 2 development and adoption of Fishery Management Plans in relation to the Schedule for 3 development and adoption of the plans established by the Marine Fisheries Commission. The 4 Secretary of Environment and Natural Resources shall report to the Joint Legislative 5 Commission on Governmental OperationsFish and Wildlife on progress in developing and implementing the Fishery Management Plans on or before 1 September of each year. The 6 7 Secretary of Environment and Natural Resources shall report to the Joint Legislative 8 Commission on Seafood and AquacultureFish and Wildlife within 30 days of the completion or 9 substantial revision of each proposed Fishery Management Plan. The Joint Legislative 10 Commission on Governmental OperationsFish and Wildlife shall review each proposed Fishery 11 Management Plan within 30 days of the date the proposed Plan is submitted by the Secretary. The Joint Legislative Commission on Governmental OperationsFish and Wildlife may submit 12 13 comments and recommendations on the proposed Plan to the Secretary within 30 days of the 14 date the proposed Plan is submitted by the Secretary.

15 If the Secretary determines that it is in the interest of the long-term viability of a (e1) 16 fishery, the Secretary may authorize the Commission to develop temporary management 17 measures to supplement an existing Fishery Management Plan pursuant to this subsection. 18 Development of temporary management measures pursuant to this subsection is exempt from 19 subsections (c), (c1), and (e) of this section and the Priority List, Schedule, and guidance 20 criteria established by the Marine Fisheries Commission under G.S. 143B-289.52. During the 21 next review period for a Fishery Management Plan supplemented pursuant to this subsection, 22 the Commission shall either incorporate the temporary management measures into the revised 23 Fishery Management Plan or the temporary management measures shall expire on the date the 24 revised Fishery Management Plan is adopted.

25 The Marine Fisheries Commission shall adopt rules to implement Fishery (f) 26 Management Plans in accordance with Chapter 150B of the General Statutes.

27 To achieve sustainable harvest under a Fishery Management Plan, the Marine (g) 28 Fisheries Commission may include in the Plan a recommendation that the General Assembly 29 limit the number of fishermen authorized to participate in the fishery. The Commission may 30 recommend that the General Assembly limit participation in a fishery only if the Commission 31 determines that sustainable harvest cannot otherwise be achieved. In determining whether to 32 recommend that the General Assembly limit participation in a fishery, the Commission shall 33 consider all of the following factors:

34

- Current participation in and dependence on the fishery. (1)
- 35
- Past fishing practices in the fishery. (2)
- 36 37

38

39

40

- (3) Economics of the fishery.
- Capability of fishing vessels used in the fishery to engage in other fisheries. (4)
- Cultural and social factors relevant to the fishery and any affected fishing (5) communities.
- (6)Capacity of the fishery to support biological parameters.
- Equitable resolution of competing social and economic interests. (7)
- 41 42 43
- Any other relevant considerations." (8) SECTION 7. G.S. 113-200(i) reads as rewritten:

44 Report on Grant Program. - The Sea Grant College Program shall report on the "(i) 45 Fishery Resource Grant Program to the Marine Fisheries Commission and the Joint Legislative 46 Commission on Governmental OperationsFish and Wildlife no later than January 1 of each 47 year."

48

# SECTION 8. G.S. 143B-279.8 reads as rewritten:

#### 49 "§ 143B-279.8. Coastal Habitat Protection Plans.

50 The Department shall coordinate the preparation of draft Coastal Habitat Protection (a) 51 Plans for critical fisheries habitats. The goal of the Plans shall be the long-term enhancement of

(2)

1 coastal fisheries associated with each coastal habitat identified in subdivision (1) of this 2 subsection. The Department shall use the staff of those divisions within the Department that 3 have jurisdiction over marine fisheries, water quality, and coastal area management in the 4 preparation of the Coastal Habitat Protection Plans and shall request assistance from other 5 federal and State agencies as necessary. The plans shall:

6 7

8

9

(1) Describe and classify biological systems in the habitats, including wetlands, fish spawning grounds, estuarine or aquatic endangered or threatened species, primary or secondary nursery areas, shellfish beds, submerged aquatic vegetation (SAV) beds, and habitats in outstanding resource waters.

- 10 11
  - 12 13

Evaluate the function, value to coastal fisheries, status, and trends of the habitats.

- (3) Identify existing and potential threats to the habitats and the impact on coastal fishing.
- 14

(4) Recommend actions to protect and restore the habitats.

15 Once a draft Coastal Habitat Protection Plan has been prepared, the chairs of the (b) 16 Coastal Resources Commission, the Environmental Management Commission, and the Marine 17 Fisheries Commission shall each appoint two members of the commission he or she chairs to a 18 six-member review committee. The six-member review committee, in consultation with the 19 Department, shall review the draft Plan and may revise the draft Plan on a consensus basis. The 20 draft Plan, as revised by the six-member review committee, shall then be submitted to the 21 Coastal Resources Commission, the Environmental Management Commission, and the Marine Fisheries Commission, each of which shall independently consider the Plan for adoption. If any 22 23 of the three commissions is unable to agree to any aspect of a Plan, the chair of each 24 commission shall refer that aspect of the Plan to a six-member conference committee to 25 facilitate the resolution of any differences. The six-member conference committee shall be 26 appointed in the same manner as a six-member review committee and may include members of 27 the six-member review committee that reviewed the Plan. Each final Coastal Habitat Protection 28 Plan shall consist of those provisions adopted by all three commissions. The three commissions 29 shall review and revise each Coastal Habitat Protection Plan at least once every five years.

30 (c) In carrying out their powers and duties, the Coastal Resources Commission, the 31 Environmental Management Commission, and the Marine Fisheries Commission shall ensure, 32 to the maximum extent practicable, that their actions are consistent with the Coastal Habitat 33 Protection Plans as adopted by the three commissions. The obligation to act in a manner 34 consistent with a Coastal Habitat Protection Plan is prospective only and does not oblige any 35 commission to modify any rule adopted, permit decision made, or other action taken prior to 36 the adoption or revision of the Coastal Habitat Protection Plan by the three commissions. The 37 Coastal Resources Commission, the Environmental Management Commission, and the Marine 38 Fisheries Commission shall adopt rules to implement Coastal Habitat Protection Plans in 39 accordance with Chapter 150B of the General Statutes.

(d) If any of the three commissions concludes that another commission has taken an
action that is inconsistent with a Coastal Habitat Protection Plan, that commission may request
a written explanation of the action from the other commission. A commission shall provide a
written explanation: (i) upon the written request of one of the other two commissions, or (ii)
upon its own motion if the commission determines that it must take an action that is
inconsistent with a Coastal Habitat Protection Plan.

(e) The Coastal Resources Commission, the Environmental Management Commission,
and the Marine Fisheries Commission shall report to the Joint Legislative Commission on
Governmental OperationsFish and Wildlife and the Environmental Review Commission on
progress in developing and implementing the Coastal Habitat Protection Plans, including the
extent to which the actions of the three commissions are consistent with the Plans, on or before
1 September of each year.

The Secretary of Environment and Natural Resources shall report to the 1 (f) 2 Environmental Review Commission and the Joint Legislative Commission on Seafood and 3 Aquaculture [Joint Legislative Commission on Governmental Operations]Fish and Wildlife 4 within 30 days of the completion or substantial revision of each draft Coastal Habitat Protection 5 Plan. The Environmental Review Commission and the Joint Legislative Commission on 6 Governmental OperationsFish and Wildlife shall concurrently review each draft Coastal 7 Habitat Protection Plan within 30 days of the date the draft Plan is submitted by the Secretary. 8 The Environmental Review Commission and the Joint Legislative Commission on 9 Governmental OperationsFish and Wildlife may submit comments and recommendations on 10 the draft Plan to the Secretary within 30 days of the date the draft Plan is submitted by the 11 Secretary." 12 SECTION 9. This act becomes effective January 1, 2013.
