(e) Employees. –
An employee of a charter school is not an employee of the local school administrative unit in which the charter school is located, except for employees of charter schools converted by a local board of education where a nonprofit, tax-exempt corporation was not required to be formed because the local board of education serves as the board of directors of the charter school. The charter school's board of directors shall employ and contract with necessary teachers to perform the particular service for which they are employed in the school; at least seventy-five percent (75%) of these teachers in grades kindergarten through five, at least fifty percent (50%) of these teachers in grades six through eight, and at least fifty percent (50%) of these teachers in grades nine through 12 shall hold teacher certificates. After the initial year of a charter school's operation, the local school administrative unit may require that the request for a leave of absence be made up to 90 days before the teacher would otherwise have to report for duty. A local board of education is not required to grant a request for a leave of absence or a request to extend or renew a leave of absence for a teacher who previously has received a leave of absence from that school board under this subdivision. A teacher who has career status under G.S. 115C-325 prior to receiving a leave of absence to teach at a charter school may return to a public school in the local school administrative unit with career status at the end of the leave of absence or upon the end of employment at the charter school if an appropriate position is available. If an appropriate position is unavailable, the teacher's name shall be placed on a list of available teachers and that teacher shall have priority on all positions for which that teacher is qualified in accordance with G.S. 115C-325(e)(2).

A teacher employed by a charter school who returns to employment with a local school administrative unit without a break in service shall have unused sick leave and annual leave from previous employment with a local school administrative unit reinstated. A teacher employed by a charter school who returns to employment with a local school administrative unit without a break in service shall be credited for the years of service at the charter school for the purposes of the salary schedule, longevity pay, and rate of earned leave.

The employees of the charter school shall be deemed employees of the local school administrative unit for purposes of providing certain State-funded
employee benefits, including membership in the Teachers’ and State
Employees’ Retirement System and the State Health Plan for Teachers and
State Employees. The State Board of Education provides funds to charter
schools, and the Commission approves the original members of the boards of
directors of the charter schools, has the authority to grant, supervise, and
revoke charters, and demands full accountability from charter schools for
school finances and student performance. Accordingly, it is the
determination of the General Assembly that charter schools are public
schools and that the employees of charter schools are public school
employees. Employees of a charter school whose board of directors elects to
become a participating employer under G.S. 135-5.3 are "teachers" for the
purpose of membership in the North Carolina Teachers’ and State
Employees’ Retirement System. In no event shall anything contained in this
Part require the North Carolina Teachers’ and State Employees' Retirement
System to accept employees of a private employer as members or
participants of the System.

(f) Accountability. –
(1) The school is subject to the financial audits, the audit procedures, and the
audit requirements adopted by the State Board of Education Commission for
charter schools. These audit requirements may include the requirements of
the School Budget and Fiscal Control Act.
(2) The school shall comply with the reporting requirements established by the
State Board of Education in the Uniform Education Reporting System,
except that reports shall be made to the Commission as well as the
State Board of Education.
(3) The school shall report at least annually to the chartering entity Commission
and the State Board of Education the information required by the chartering
entity Commission or the State Board.

(g) Admission Requirements. –

public school is qualified for admission to a charter school. Any charter
school that is unable to fill its current enrollment with students qualified
under the laws of this State for admission to a public school may enroll
persons of school age who are not domiciliaries of the State and charge those
students a tuition amount equal to the per pupil allocation of the local
appropriation for the county in which the charter school is located and the
per pupil State appropriation for that school year. The number of persons of
school age who are not domiciliaries of the State who are enrolled in a
charter school may not exceed ten percent (10%) of the total number of
students enrolled in the charter school.
(2) No local board of education shall require any student enrolled in the local
school administrative unit to attend a charter school.
(3) Admission to a charter school shall not be determined according to the
school attendance area in which a student resides, except that any local
school administrative unit in which a public school converts to a charter
school shall give admission preference to students who reside within the
former attendance area of that school. Public school converting to a charter
school shall adopt a policy giving enrollment preference to students who
reside within the former attendance area of that public school for at least the
first two years of operation of the charter school.
Admission to a charter school shall not be determined according to the local school administrative unit in which a student resides.

A charter school shall not discriminate against any student on the basis of ethnicity, national origin, gender, or disability. Except as otherwise provided by law or the mission of the school as set out in the charter, the school shall not limit admission to students on the basis of intellectual ability, measures of achievement or aptitude, athletic ability, disability, race, creed, gender, national origin, religion, or ancestry. The charter school may give enrollment priority to siblings of currently enrolled students who were admitted to the charter school in a previous year and to children of the school's principal, teachers, and teacher assistants, teacher assistants, and other full-time employees of the charter school. provide this transportation.

(h1) Food Services. – For charter schools approved after July 1, 2011, the charter school
shall develop a plan for food services which ensures that lack of food services shall not be a

government.

(i) Assets. – Upon dissolution of the charter school or upon the nonrenewal of the

A charter school identified as inadequate shall develop a school improvement plan to meet specific goals for student performance that are consistent with Commission criteria and the mission approved in the charter of the school. The school improvement plan shall be reviewed and approved by the Commission. Failure to demonstrate improvement under the school improvement plan shall be cause for termination or nonrenewal of the charter.

The State Board of Education shall develop and implement a process to address contractual and other grievances between a charter school and its chartering entity or the local board of education during the time of its charter.

The State Board and the charter school are encouraged to make a good-faith attempt to resolve the differences that may arise between them. They may agree to jointly select a mediator. The mediator shall act as a neutral facilitator of disclosures of factual information, statements of positions and contentions, and efforts to negotiate an agreement settling the differences.
