## 35 EXPANDED USE OF FUNDS FOR INPATIENT PSYCHIATRIC BEDS OR BED DAYS

36 SECTION 12F.9. Subsection (a) of Section 12F.1 of S.L. 2015-241 reads as 37 rewritten:

38 "SECTION 12F.1.(a) Use of Funds. – Of the funds appropriated in Section 2.1 of this act to 39 the Department of Health and Human Services, Division of Mental Health, Developmental 40 Disabilities, and Substance Abuse Services, for crisis services, the sum of forty million five hundred eighty-three thousand three hundred ninety-four dollars (\$40,583,394) for the 2015-2016 41 42 fiscal year and the sum of forty million five hundred eighty-three thousand three hundred 43 ninety-four dollars (\$40,583,394) for the 2016-2017 fiscal year shall be used to purchase 44 additional new or existing local inpatient psychiatric beds or bed days not currently funded by or 45 though LME/MCOs. The Department shall continue to implement a two-tiered system of payment for purchasing these local inpatient psychiatric beds or bed days based on acuity level with an 46 47 enhanced rate of payment for inpatient psychiatric beds or bed days for individuals with higher 48 acuity levels, as defined by the Department. The enhanced rate of payment for inpatient 49 psychiatric beds or bed days for individuals with higher acuity levels shall not exceed the lowest 50 average cost per patient bed day among the State psychiatric hospitals. In addition, at the 51 discretion of the Secretary of Health and Human Services, existing funds allocated to LME/MCOs

1 for community-based mental health, developmental disabilities, and substance abuse services may 2 be used to purchase additional local inpatient psychiatric beds or bed days. Funds designated in 3 this subsection for the purchase of local inpatient psychiatric beds or bed days shall not be used to 4 supplant other funds appropriated or otherwise available to the Department for the purchase of 5 inpatient psychiatric services through contracts with local hospitals. The Department may use up to ten percent (10%) of the funds allocated in this subsection for 6 7 the 2016-2017 fiscal year for the State's three-way contracts to pay for facility-based crisis 8 services and non-hospital detoxification services for individuals in need of these services, 9 regardless if the individuals are medically indigent, as defined in subsection (b) of this section." 10 11 STRATEGIC PLAN FOR IMPROVEMENT OF BEHAVIORAL HEALTH SERVICES 12 **SECTION 12F.10.(a)** The General Assembly finds that behavioral health services 13 within the State are fragmented and a statewide comprehensive plan is necessary to ensure that 14 individuals with behavioral health needs are timely served in the most appropriate settings and 15 with the most appropriate services in order to achieve the best possible outcomes. The General 16 Assembly further finds the absence of a statewide strategic plan that defines, coordinates, and 17 facilitates the allocation of resources for needed services is an obstacle to improving the desired 18 outcomes for behavioral health services in this State. It is the intention of the General Assembly to 19 improve the delivery and coordination of behavioral health services across the State by targeting 20 State resources to identified needs of covered populations and to treatments and services most 21 effective at producing positive, measurable outcomes. 22 **SECTION 12F.10.(b)** By November 1, 2017, the Department of Health and Human 23 Services shall develop and submit to the Joint Legislative Oversight Committee on Health and 24 Human Services, the Joint Legislative Oversight Committee on Medicaid and NC Health Choice, 25 and the Fiscal Research Division a strategic statewide plan to improve the efficiency and 26 effectiveness of State-funded behavioral health services. The plan shall include at least all of the 27 following: 28 (1)Identification of the Division that will (i) assume lead responsibility for the 29 organization and delivery of publicly funded behavioral health services and (ii) 30 define the current and future roles and responsibilities of local management 31 entities/managed care organizations (LME/MCOs) with respect to the 32 organization and delivery of publicly funded behavioral health services. 33 A process for ensuring that all State contracts with behavioral health providers (2)34 and managed care organizations responsible for managing Medicaid behavioral 35 health services (including LME/MCOs) contain goals for overall behavioral 36 health services, along with specific measurable outcomes for all publicly 37 funded mental health, developmental disabilities, substance abuse, and 38 traumatic brain injury services. The process must require that the lead Division 39 utilize a single contract with each provider or managed care organization for all 40 publicly funded behavioral health services regardless of the source of funding. 41 A statewide needs assessment for mental health, developmental disabilities, (3) 42 substance abuse, and traumatic brain injury services by county and type of 43 service, broken down by the source of funding. The needs assessment must 44 include a defined service continuum to address identified needs for targeted 45 populations. 46 (4) Specific solvency standards to be incorporated into State contracts with 47 LME/MCOs that define appropriate cash balances, predictors for sustainability, 48 and measures for performance that the LME/MCOs will monitor and report to 49 the Department on a monthly, quarterly, and annual basis.

4	DEVELOPMENT OF NEW COMPREHENSIVE NUTRIENT MANAGEMENT
5	<b>REGULATORY FRAMEWORK</b>
5	<b>SECTION 14.13.(a)</b> The General Assembly finds all of the following:
7	(1) It is necessary for the State to have a comprehensive management strategy to
8	protect and improve water quality.
9	(2) Over the last 20 years, watershed nutrient management strategies and buffer
)	rules have been implemented throughout North Carolina.
1	(3) Existing nutrient management strategies in many cases have shown little to no
2	improvement in water quality, have created an increased regulatory and
3	economic burden in the billions of dollars to the State, its municipalities, and its
4	citizens, and have limited, and in some cases significantly limited, land use
5	options for thousands of public and private properties.
5	(4) Instead of continuing regulatory frameworks that may not improve water
7	quality in all watersheds now or in the future, new comprehensive management
8	strategies that include in situ treatment of impaired water bodies must be
9	developed.
)	(5) These new strategies should incorporate proven measures already shown to be
1	effective and recognize investments in water quality already implemented by
2	stakeholders.
3	<b>SECTION 14.13.(b)</b> For the reasons set forth in subsection (a) of this section,
4	subsections (a) and (c) of Section 14.5 of S.L. 2015-241 are repealed and the Department shall
5	terminate the Jordan Lake demonstration project. Any funds allocated under subsection (a) of
5	Section 14.5 of S.L. 2015-241 that are unspent and unencumbered on the effective date of this act
7	shall revert to the Clean Water Management Trust Fund.
8	<b>SECTION 14.13.(c)</b> Of the funds appropriated in this act to the Clean Water
9	Management Trust Fund, the sum of five hundred thousand dollars (\$500,000) for each of the
)	fiscal years from 2016-2017 through 2019-2020 is allocated to the Office of the Chancellor at the
1	University of North Carolina at Chapel Hill to designate an entity to oversee a study and analysis

of nutrient management strategies (including in situ strategies) and compilation of existing water 1 2 quality data specifically in the context of the State's nutrient impaired water bodies. As part of this 3 study, the entity shall review data collected by the Department of Environmental Quality and by 4 other stakeholders from water sampling in areas subject to one of the State Nutrient Management 5 Strategies and compare trends in water quality to the implementation of the various elements of 6 each of the State Nutrient Management Strategies. The entity shall also examine the costs and 7 benefits of basinwide nutrient strategies in other states and the impact (or lack of impact) those 8 strategies have had on water quality. The entity shall report the results of its study and its 9 recommendations for further action (including any statutory or regulatory changes necessary to 10 implement the recommendations) to the Environmental Review Commission, the Environmental 11 Management Commission, and the Department of Environmental Quality no later than December 12 31, 2019. No indirect or facilities and administrative costs shall be charged by the University 13 against the funds allocated by this section. The Department of Environmental Quality shall 14 provide all necessary data and staff assistance as requested by the entity for the duration of the 15 study required by this subsection. The Department shall also designate from existing positions an 16 employee to serve as liaison between the Department and the entity to facilitate communication 17 and handle data requests for the duration of the project. 18 **SECTION 14.13.(d)** As part of the periodic review of rules required by 19 G.S. 150B-21.3A, the Environmental Management Commission shall, based on the study required 20 by subsection (c) of this section, review and revise the State Nutrient Management Strategies, 21 consisting of the following: The Neuse River Basin Nutrient Sensitive Waters Management Strategy, 15A 22 (1)23 NCAC 2B .0232 through .0242 and .0315. 24 (2)The Tar-Pamlico Basin Nutrient Sensitive Waters Management Strategy, 15A 25 NCAC 2B .0255 through .0261 and .0316. The Falls Water Supply Nutrient Strategy, 15A NCAC 2B .0275 through .0282 26 (3) 27 and .0315. 28 (4) The Jordan Lake Water Supply Nutrient Strategy, 15A NCAC 2B .0263 29 through .0273 and .0311. 30 (5) The Randleman Lake Water Supply Watershed: Protection and Maintenance of 31 Existing Riparian Buffers, 15A NCAC 2B .0250. 32 Catawba River Basin: Protection and Maintenance of Existing Riparian (6) 33 Buffers, 15A NCAC 2B .0243. 34 The Site Specific Water Quality Management Plan for the Goose Creek (7)35 Watershed (Yadkin-Pee Dee River Basin), 15A NCAC 2B .0605 and .0607. 36 All other regulations imposing riparian buffer requirements for the purpose of (8) 37 nutrient management identified by the report required of the Department of 38 Environmental Quality in this subsection. 39 Any changes to these regulations imposed by subsequent acts of the General (9) 40 Assembly. 41 No later than December 31, 2016, the Department of Environmental Quality shall 42 report to the Environmental Review Commission a list of any other rules and any subsequent acts 43 of the General Assembly changing the rules that impose nutrient strategies and buffer 44 requirements pertaining to water quality, and the Commission's review shall include the rules 45 identified in this section and in that report. No later than December 31, 2020, the Commission 46 shall, based on its review and the study required by subsection (c) of this section, adopt temporary 47 rules based on the revisions to the State Nutrient Management Strategies. As part of its 48 rule-making process, the Commission shall (i) hold public hearings in the upstream and downstream portions of all impacted river basins and subbasins and (ii) no later than December 49 50 31, 2016, convene a stakeholder working group that represents all classes of users and all

5 **SECTION 14.13.(f)** Of the funds appropriated in this act to the Clean Water 6 Management Trust Fund for the 2016-2017 fiscal year, the sum of five hundred thousand dollars 7 (\$500,000) is allocated to the Wildlife Resources Commission to conduct applied research on 8 endemic freshwater mussel species, including species listed as federally threatened or endangered. 9 Specific research goals shall include determination of filtration capacity, nutrient cycling, and diet 10 preference; development and refinement of in vitro propagation; and determination of population 11 status, restoration goals, and opportunities to augment or restore mussel communities. The Commission shall also assess strategies for use of freshwater mussel species in impaired water 12 13 bodies in the State, including Jordan and Falls Lakes. The Commission shall provide an interim 14 report no later than March 1, 2017, and a final report no later than May 1, 2018, regarding its 15 implementation of this section to the Environmental Review Commission, the Joint Legislative 16 Oversight Committee on Agriculture and Natural and Economic Resources, and the Fiscal 17 Research Division. Funds allocated under this subsection that are not expended or 18 encumbered at the conclusion of the demonstration project shall revert to the Clean Water 19 Management Trust Fund.

SECTION 14.13.(g) Rules that are a part of the nutrient management strategy for the Jordan Lake watershed and the Falls Lake watershed, but that have effective dates between the effective date of this act and December 31, 2020, shall not take effect and are subject to the repeal set forth in subsection (e) of this section. While delayed, these rules are not subject to existing rule review under G.S. 150B-21.3A.

SECTION 14.13.(h) The cost for nutrient offsets in any watershed subject to a State Nutrient Management Strategy shall be, notwithstanding any other provision of law, no higher than those currently established for the Falls Lake watershed. This subsection expires on the earlier of the effective date of new temporary rules established under subsection (d) of this section or December 31, 2020.

30 **SECTION 14.13.(i)** Subsection (b) of this section becomes effective on the earlier of 31 July 1, 2016, or the date of termination of a contract related to in situ water quality remediation 32 strategies that was previously extended pursuant to Section 14.5 of S.L. 2015-241.
