HOUSE DRH20023-MG-31B (02/05)

Short Title: Enact Medical Cannabis Act. (Public)

Sponsors: Representatives Alexander, Carney, Harrison, and Cunningham (Primary Sponsors).

Referred to:

1 A BILL TO BE ENTITLED
2 AN ACT TO ENACT THE NORTH CAROLINA MEDICAL CANNABIS ACT.
3 The General Assembly of North Carolina enacts:

4 SECTION 1. Chapter 90 of the General Statutes is amended by adding a new
5 Article to read:

6 "Article 43.

7 "North Carolina Medical Cannabis Act.

8 **"§ 90-730. Short title.**

9 This Article shall be known and may be cited as the "North Carolina Medical Cannabis
10 Act."

11 **"§ 90-730.1. Legislative findings and purpose.**

12 The General Assembly makes the following findings:

- 13 (1) Modern medical research has discovered beneficial uses for cannabis in
14 treating or alleviating pain, nausea, and other symptoms associated with
15 certain debilitating medical conditions, as found by the National Academy of
16 Sciences' Institute of Medicine in March 1999.
- 17 (2) According to the United States Sentencing Commission and the Federal
18 Bureau of Investigation, 99 out of every 100 cannabis arrests in the United
19 States are made under State law, rather than under federal law.
20 Consequently, changing State law will have the practical effect of protecting
21 from arrest the vast majority of seriously ill people who have a medical need
22 to use cannabis.
- 23 (3) The United States Department of Health and Human Services, through the
24 Compassionate Investigational New Drug (IND) program, provides cannabis
25 by prescription to a number of individuals for their use as medicine. The
26 cannabis is grown at the federal cannabis research garden at the University
27 of Mississippi and is processed and distributed by the Research Triangle
28 Institute in Research Triangle Park, North Carolina. The patients receive the
29 cannabis monthly in canisters of approximately 300 prerolled cigarettes. The
30 dosage for patients in the IND program ranges from seven to nine grams per
31 day. Since the inception of the program in 1978, individual patients in the
32 IND program have received and consumed approximately 6.5 pounds of
33 cannabis per year, thereby establishing a safe and effective dosage for a
34 chronic daily-use patient to possess and consume. The IND program was
35 closed to new applicants in 1991.

- 1 (4) In 1992, the United States Drug Enforcement Administration (DEA)
2 published research in a report entitled "Cannabis Yields" stating that canopy
3 cover, rather than the number of plants, is the most accurate indicator of a
4 garden's yield. According to the DEA report, 250 square feet of mature
5 garden canopy will typically yield six pounds of processed cannabis per
6 year, a common amount for patients who use cannabis daily, and less than
7 the amount prescribed and delivered to the IND patients by the federal
8 government.
- 9 (5) Although federal law currently prohibits any use of cannabis outside of the
10 IND program, the laws of Alaska, Arizona, California, Colorado,
11 Connecticut, District of Columbia, Delaware, Hawaii, Illinois, Maine,
12 Maryland, Massachusetts, Michigan, Minnesota, Montana, Nevada, New
13 Hampshire, New Jersey, New Mexico, New York, Oregon, Rhode Island,
14 Vermont, and Washington permit the medical use and cultivation of
15 cannabis. North Carolina joins in this effort for the health and welfare of its
16 citizens.
- 17 (6) States are not required to enforce federal law or prosecute people for
18 engaging in activities prohibited by federal law. Therefore, compliance with
19 this Article does not put the State of North Carolina in violation of federal
20 law.
- 21 (7) Compassion dictates that State law should make a distinction between the
22 medical and nonmedical use of cannabis. Hence, the purpose of this Article
23 is to protect patients with debilitating medical conditions, and their
24 physicians and caregivers, from arrest and prosecution, criminal and other
25 penalties, and property forfeiture by allowing the beneficial use of medical
26 cannabis in a regulated system for alleviating symptoms caused by
27 debilitating medical conditions and their medical treatments.
- 28 (8) This Article is intended to make only those changes to existing North
29 Carolina laws that are necessary to protect patients and their doctors from
30 criminal and civil penalties and is not intended to change current civil and
31 criminal laws governing the use of cannabis for nonmedical purposes.
- 32 (9) Based on data gathered from other states where medical cannabis has been
33 regulated, this Article will result in approximately two hundred fifty million
34 dollars (\$250,000,000) per year in revenues for the State within four years of
35 implementation.
- 36 (10) The General Assembly enacts this Article pursuant to its police power to
37 enact legislation for the protection of the health of its citizens, as reserved to
38 the State in the Tenth Amendment of the United States Constitution.

39 **§ 90-730.2. Definitions.**

40 The following definitions apply in this Article:

43 source that is possessed by a qualified patient, or collectively
44 possessed by a qualified patient and the qualified patient's designated
45 caregiver, in an amount that does not exceed what is reasonably
46 necessary to assure the uninterrupted availability of cannabis for a
47 period of three months, in any form recommended by the qualified
48 patient's physician for the purpose of alleviating the symptoms or
49 effects of the qualified patient's debilitating medical condition.
- 50 b. For a qualified patient for whom a delivery method of inhalation of
51 cannabis vapor or smoking is recommended by the qualified patient's

1 physician, "adequate supply" means not more than 24 ounces of

3 garden cultivated by the qualified patient or the qualified patient's
4 designated caregiver of not more than 250 feet of total garden canopy
5 of mature female cannabis plants, measured by the combined
6 vegetative growth area, excluding any garden space devoted to
7 cannabis plants that are not mature and female but which are
8 cultivated for the purpose of maintaining the largest and most
9 productive canopy of mature female cannabis plants allowed by this
10 Article.

11 c. For a qualified patient for whom a delivery method other than
12 inhalation of cannabis vapor or smoking has been recommended by
13 the patient's physician, "adequate supply" means a garden of
14 cannabis cultivated by the qualified patient or the qualified patient's
15 designated caregiver of a size reasonably necessary to assure the

18 purpose of alleviating the symptoms or effects of the qualified
19 patient's debilitating medical condition.

20 (2) "Bona fide physician-patient relationship" means a physician and a patient
21 have a treatment or counseling relationship in which the physician has

1 health benefits of the medical use of cannabis would likely outweigh the
2 health risks for the patient.

3 **"§ 90-730.3. Protections for the medical use of cannabis.**

4 (a) A qualified patient shall not be subject to arrest, prosecution, or penalty in any
5 manner, or denied any right or privilege, including, but not limited to, civil penalty or
6 disciplinary action by a business or occupational or professional licensing board or bureau, for the
7 possession or purchase of cannabis for medical use by the qualified patient if the quantity of
8 usable cannabis possessed or purchased does not exceed an adequate supply, as determined by
9 the qualified patient's physician.

10 (b) A designated caregiver shall not be subject to arrest, prosecution, or penalty in any
11 manner, or denied any right or privilege, including imposition of a civil penalty or disciplinary
12 action by a business or occupational or professional licensing board or bureau, for the
13 possession or purchase of cannabis for medical use by the qualified patient if the quantity of
14 cannabis possessed or purchased does not exceed an adequate supply for the qualified patient,
15 as determined by the qualified patient's physician.

16 (c) If usable cannabis is infused or added as an ingredient to food, salve, tincture, or any
17 other preparation to be consumed or used by a qualified patient, the weight of the other
18 ingredients that are not usable cannabis shall not be included for the purpose of determining
19 whether a qualified patient is in possession of an amount of cannabis that exceeds the qualified
20 patient's adequate supply.

21 (d) Subsection (a) of this section does not apply to a qualified patient under 18 years of
22 age, unless all of the following criteria are met:

23 (1) The qualified patient's physician has explained the potential risks and
24 benefits of the medical use of cannabis to the qualified patient and to a
25 parent, guardian, or person having legal custody of the qualified patient.

26 (2) A parent, guardian, or person having legal custody of the qualified patient
27 consents in writing to (i) allow the qualified patient's medical use of
28 cannabis, (ii) serve as the qualified patient's designated caregiver, and (iii)
29 control the dosage and frequency of the medical use of cannabis by the
30 qualified patient.

31 (e) A qualified patient or a designated caregiver shall be granted the full legal
32 protections provided in this section as long as the qualified patient or designated caregiver is in
33 possession of a registry identification card. If the qualified patient or designated caregiver is not
34 in possession of a registry identification card, the individual shall be given an opportunity to
35 produce the registry identification card before the initiation of any arrest, criminal charges, or
36 other penalties.

37 (f) A qualified patient or a designated caregiver is presumed to be engaged in the
38 medical use of cannabis if the qualified patient or designated caregiver is in possession of a
39 registry identification card and an amount of cannabis that does not exceed the qualified
40 patient's adequate supply. This presumption may be rebutted only by evidence that the qualified
41 patient or designated caregiver engaged in conduct related to cannabis for a purpose other than
42 alleviating the qualified patient's debilitating medical condition or symptoms associated with
43 the debilitating medical condition.

44 (g) A designated caregiver may receive reimbursement for costs associated with
45 assisting a qualified patient in the medical use of cannabis. Reimbursement for these costs does
46 not constitute the sale of a controlled substance under Article 5 of Chapter 90 of the General
47 Statutes.

48 (h) A school, employer, or landlord shall not refuse to enroll, employ, lease, or
49 otherwise penalize a qualified patient or a designated caregiver solely because of (i) the
50 individual's status as a qualified patient or a designated caregiver or (ii) the presence of
51 cannabis metabolites in the individual's bodily fluids.

1 (i) For the purposes of medical care, including organ transplants, a qualified patient's
2 authorized use of cannabis in accordance with this Article shall be treated in the same manner
3 as the authorized use of any other medication used at the direction of a physician and shall not
4 constitute the use of an illegal substance.

5 (j) A licensed producer of medical cannabis shall not be subject to arrest, prosecution,
6 or penalty in any manner, or denied any right or privilege, or subject to disciplinary action by a
7 business or occupational or professional licensing board or bureau for producing, possessing,
8 distributing, or dispensing cannabis in a manner consistent with this Article.

9 (k) A physician shall not be subject to arrest, prosecution, or penalty in any manner, or
10 denied any right or privilege, or subject to increased monitoring or disciplinary action by the
11 North Carolina Medical Board or any other business or occupational or professional licensing
12 board or bureau for either of the following:

13 (1) Advising a patient about the risks and benefits of the medical use of
14 cannabis or that the patient may benefit from the medical use of cannabis if,
15 in the physician's medical judgment, the potential benefits of the medical use
16 of cannabis would likely outweigh the health risks for that particular patient.

17 (2) Providing a patient with valid documentation, based upon the physician's
18 assessment of the patient's medical history and current medical condition,
19 that the potential benefits of the medical use of cannabis would likely
20 outweigh the health risks for that particular patient.

21 (l) A physician shall not be subject to arrest, prosecution, or penalty in any manner, or
22 denied any right or privilege, or subject to disciplinary action by a business or occupational or
23 professional licensing board or bureau for discussing with a patient the benefits or health risks
24 of the medical use of cannabis or the interaction of cannabis with other substances.

25 (m) State and local law enforcement officers shall not harm, neglect, injure, or destroy
26 an individual's interest in or right to property that is possessed, owned, or used in connection
27 with the medical use of cannabis, or acts incidental to the medical use of cannabis, while the
28 property is in the possession of State or local law enforcement officials as a result of a seizure
29 of the property in connection with the claimed medical use of cannabis. A person does not
30 forfeit any right or interest in property seized in connection with the medical use of cannabis
31 under any provision of State law providing for the forfeiture of property, unless the forfeiture is
32 part of a sentence imposed upon the person as a result of a conviction of a criminal violation of
33 this Article or entry of a plea of guilty to such violation. Cannabis, paraphernalia, or other
34 property seized from a qualified patient, designated caregiver, or licensed producer of medical
35 cannabis in connection with the claimed medical use or production for medical use of cannabis
36 shall be returned immediately upon the determination by a court, prosecutor, or law
37 enforcement officer that the qualified patient, designated caregiver, or licensed producer of
38 medical cannabis is entitled to the protections of this Article. In making this determination, the
39 court, a prosecutor, or a law enforcement officer shall consider as evidence the failure of law
40 enforcement officers to actively investigate the case, a decision not to prosecute, the dismissal
41 of charges, or acquittal.

42 (n) A person shall not be denied custody of, or visitation or parenting time with, a
43 minor for conduct allowed under this Article.

44 (o) There is no presumption of neglect or child endangerment for conduct allowed
45 under this Article.

46 (p) No person shall be subject to arrest or prosecution for constructive possession,
47 conspiracy, aiding and abetting, being an accessory, or any other offense, for simply being in
48 the presence or vicinity of the medical use of cannabis as permitted under this Article or for
49 assisting a qualified patient with using or administering cannabis.

50 (q) Possession of or application for a registry identification card shall not alone
51 constitute probable cause to search the person or the property of the person possessing or

1 applying for a registry identification card or otherwise subject the person or the person's
2 property to inspection by any government agency.

3 (r) If an individual being investigated by a law enforcement officer employed by a
4 State-funded or locally funded law enforcement agency credibly asserts during the course of
5 the investigation that the individual is a qualified patient or designated caregiver, neither the
6 law enforcement officer nor the law enforcement agency shall provide any information, except
7 as required by federal law or the United States Constitution, from any cannabis-related
8 investigation of the individual to any law enforcement authority that does not recognize the
9 protections of this Article. Any prosecution of the individual for a violation of this Article shall
10 be conducted pursuant to the laws of this State.

11 (s) Cannabis produced and possessed under this Article is exempt from the
12 Unauthorized Substances Tax set forth in Article 2D of Chapter 105 of the General Statutes,
13 and no tax under that Article may be levied against any qualified patient, designated caregiver,
14 licensed medical cannabis center, licensed producer of medical cannabis, or licensed producer
15 of cannabis-infused products operating in accordance with this Article.

16 (t) Nothing in this Article shall be construed to extend the protections of this Article to
17 any person, including a qualified patient, designated caregiver, or producer, to allow that
18 person to acquire, possess, manufacture, produce, use, sell, distribute, dispense, or transport
19 cannabis in a manner that is not consistent with this Article.

20 **"§ 90-730.4. Prohibitions, restrictions, and limitations on medical use of cannabis.**

21 (a) This Article does not permit any person to do any of the following:

22 (1) Operate, navigate, or be in actual physical control of any motor vehicle,
23 aircraft, or motorboat while impaired by cannabis. However, a qualified
24 patient shall not be considered impaired solely due to the presence of
25 cannabis metabolites in the individual's system.

26 (2) Undertake any task under the influence of cannabis, when doing so would
27 constitute negligence or professional malpractice.

28 (3) Smoke cannabis in a school bus or other form of public transportation, on
29 any school grounds, in any correctional facility, or in any public place in this
30 State.

31 (b) A person who commits an act prohibited by subsection (a) of this section is subject
32 to all penalties provided by law.

33 (c) Nothing in this Article shall be construed to require any of the following:

34 (1) A government-sponsored medical assistance program or private health
35 insurer to reimburse a person for costs associated with the medical use of
36 cannabis.

37 (2) An employer to accommodate the medical use of cannabis in any workplace.

38 (d) Fraudulent representation to a law enforcement official of any fact or circumstance
39 relating to the medical use of cannabis to avoid arrest or prosecution is a Class 2 misdemeanor
40 punishable by a fine of five hundred dollars (\$500.00) in addition to any other applicable
41 penalties for making a false statement about the medical use of cannabis.

42 (e) A licensed producer of medical cannabis that sells, distributes, dispenses, or
43 transfers cannabis to an individual other than a registry identification cardholder or to a person
44 other than a person licensed pursuant to G.S. 90-730.6, or obtains or transports cannabis outside
45 of North Carolina in violation of federal law, is subject to arrest, prosecution, and civil or
46 criminal penalties pursuant to State law.

47 (f) Nothing in this Article shall be construed as a waiver of sovereign immunity by the
48 State.

49 **"§ 90-730.5. Registry identification cards for qualified patients and designated caregivers.**

50 (a) As used in this section, "Department" means the North Carolina Department of
51 Health and Human Services.

- 1 **(b)** The Department shall issue a registry identification card to any qualified patient or
2 designated caregiver who meets the requirements of this section.
- 3 **(c)** The Department shall not issue or renew a registry identification card to a qualified
4 patient under 18 years of age unless each of the following criteria is met:
- 5 **(1)** The qualified patient's physician has explained the potential risks and
6 benefits of the medical use of cannabis to the qualified patient and to a
7 parent, guardian, or person having legal custody of the qualified patient.
- 8 **(2)** A parent, guardian, or person having legal custody of the qualified patient
9 consents in writing to (i) allow the qualified patient's medical use of
10 cannabis, (ii) serve as one of the qualified patient's designated caregivers,
11 and (iii) control the acquisition of the cannabis, the dosage, and the
12 frequency of the medical use of cannabis by the qualified patient.
- 13 **(d)** The Department shall verify the information contained in a registry identification
14 card application or renewal application submitted pursuant to this section and shall approve or
15 deny an application or renewal application within 45 days after receipt. The Department may
16 deny a registry identification card application or renewal application only if the applicant fails
17 to provide the information required pursuant to this section or if the Department determines that
18 the application or renewal application contains false information. If the Department fails to
19 approve or deny a registration application or renewal application submitted pursuant to this
20 section within 45 days after receipt, the application or renewal application shall be deemed
21 approved, and a copy of the application or renewal application together with proof of receipt by
22 the Department at least 45 days prior to the date this information is presented in lieu of a
23 registry identification card shall be deemed a valid registry identification card.
- 24 **(e)** The Department may issue a registry identification card to a maximum of two
25 designated caregivers named in a qualified patient's approved application.
- 26 **(f)** The Department shall issue a registry identification card to an applicant within five
27 days after approving an application or renewal. The application or renewal expires two years
28 after the date of issuance.
- 29 **(g)** Each registry identification card shall contain at least all of the following
30 information:
- 31 **(1)** The date of issuance.
- 32 **(2)** The date of expiration.
- 33 **(3)** A random registry identification number.
- 34 **(4)** A photograph of the registry identification cardholder.
- 35 **(h)** Persons issued registry identification cards shall be subject to the following:
- 36 **(1)** A qualified patient who has been issued a registry identification card shall
37 notify the Department of any change in the qualified patient's name, address,
38 or designated caregiver and submit a ten-dollar (\$10.00) fee to the
39 Department within 15 days after the change occurs. A qualified patient who
40 fails to notify the Department of any of these changes within the specified
41 time frame commits an infraction and is subject to a fine not to exceed more
42 than one hundred fifty dollars (\$150.00).
- 43 **(2)** A designated caregiver shall notify the Department of any change in name or
44 address and submit a ten-dollar (\$10.00) fee to the Department within 15
45 days after the change occurs. A designated caregiver who fails to notify the
46 Department of any of these changes within the specified time frame commits
47 an infraction and is subject to a fine not to exceed one hundred fifty dollars
48 (\$150.00).
- 49 **(3)** When a qualified patient or designated caregiver notifies the Department of
50 any change, as required by this subsection, the Department shall issue the
51 qualified patient and each designated caregiver a new registry identification

1 card within 10 days after receiving the updated information and the
2 ten-dollar (\$10.00) fee.

3 (4) When a qualified patient who possesses a registry identification card notifies
4 the Department of a change in designated caregiver, the Department shall
5 notify the designated caregiver of record of the change within 15 days after
6 receiving notification of the change. The protections afforded under this
7 Article to the designated caregiver of record shall expire 30 days after the
8 designated caregiver of record is notified by the Department of the change in
9 designated caregiver.

10 (5) If a qualified patient or a designated caregiver loses a registry identification
11 card, the cardholder shall notify the Department within 15 days after losing
12 the card. The notification shall include a ten-dollar (\$10.00) replacement fee
13 for a new card. Within five days after receiving notification of a lost registry
14 identification card, the Department shall issue the cardholder a new registry
15 identification card with a new random identification number.

16 (i) If the Department determines that a qualified patient or designated caregiver has
17 willfully violated any provision of this Article, the Department may suspend or revoke the
18 qualified patient's or designated caregiver's registry identification card.

19 (j) Applications and supporting information submitted by qualified patients, including
20 information regarding their designated caregivers and physicians, are confidential and protected
21 under the federal Health Insurance Portability and Accountability Act of 1996.

22 (k) The Department shall maintain a confidential list of the persons to whom the
23 Department has issued registry identification cards. Individual names and other identifying
24 information on the list shall be confidential, exempt from the provisions of Chapter 132 of the
25 General Statutes, and not subject to disclosure, except to authorized employees of the
26 Department as necessary to perform official duties of the Department.

27 (l) The Department shall verify to law enforcement personnel whether a registry
28 identification card is valid solely by confirming the validity of the random registry
29 identification number and the name of the person to whom the Department has assigned the
30 random registry identification number.

31 (m) Any person, including an employee or official of the Department or another State
32 agency or local government, who breaches the confidentiality of information obtained pursuant
33 to this section is guilty of a Class 1 misdemeanor; however, any fine imposed for a violation
34 under this subsection shall not exceed one thousand dollars (\$1,000).

35 (n) Nothing in this section shall be construed to prevent Department employees from
36 notifying law enforcement officers about falsified or fraudulent information submitted to the
