The General Assembly of North Carolina enacts:

SECTION 1. G.S. 115C-105.25(b) is amended by adding a new subdivision to read:

"(12) Notwithstanding G.S. 115C-408, funds allotted by the State Board of Education, for any purpose, except for funds allotted to the classroom teacher allotment category and the teacher assistant allotment category, may be used for the purpose of lease payments for leases entered into under G.S. 115C-530 by a local board of education of a local school administrative unit located in a county that, at the time the lease was entered into, was in a development tier one area, as defined in G.S. 143B-437.08. Nothing in this subdivision shall be construed to obligate either the State or the State Board of Education to provide funds for any lease payments for leases entered into under G.S. 115C-530 by a local board of education. Any leases entered into by a local board of education under G.S. 115C-530 shall not involve or be secured by the faith, credit, or taxing power of the State. If funds allotted by the State Board of Education to a local school administrative unit are decreased, the county in which the local school administrative unit is located shall be responsible for any lease payments for leases entered into under G.S. 115C-530 by the local board of education of the local school administrative unit."

SECTION 2. G.S. 115C-530 reads as rewritten:

"§ 115C-530. Operational leases of school buildings and school facilities.
(a) Local boards of education may enter into operational leases of real or personal property for use as school buildings or school facilities. Operational leases for terms of less than three years shall not be subject to the approval of the board of county commissioners. Operational leases for terms of three years or longer, including periods that may be added to the original term through the exercise of options to renew or extend, are permitted if all of the following conditions are met:
(1) The budget resolution includes an appropriation authorizing the current fiscal year's portion of the obligation.

(2) An unencumbered balance remains in the appropriation sufficient to pay in the current fiscal year the sums obligated by the lease for the current fiscal year.

(3) The leases are approved by a resolution adopted by the board of county commissioners. If an operating lease is approved by the board of county commissioners, in each year the county commissioners shall appropriate sufficient funds to meet the amounts to be paid during the fiscal year under the lease.

(4) Any construction, repair, or renovation of the property is in compliance with the requirements of G.S. 115C-521(c) relating to energy guidelines and (c1).

For purposes of this section, an operating lease is defined according to generally accepted accounting principles and may be for new or existing buildings.

(a1) In addition to meeting the requirements of subsection (a) of this section, an operating lease entered into by a local board of education with a private developer for a new school building shall be on a site owned either by the local board of education or the county containing the proposed site. The local board of education or the county that owns the site shall enter into a ground lease with the private developer for the purposes of facilitating the construction of the new building.

(b) Local boards of education may enter into contracts for the construction, repair, or renovation of leased property if (i) the budget resolution includes an appropriation authorizing the obligation, (ii) an unencumbered balance remains in the appropriation sufficient to pay in the current fiscal year the sums obligated by the transaction for the current fiscal year, and (iii) the construction, repair, or renovation is in compliance with the requirements of G.S. 115C-521(c) relating to energy guidelines and (c1). Construction, repair, or renovation work undertaken or contracted by a private developer is subject to the requirements of Article 8 of Chapter 143 of the General Statutes. A private developer undertaking or contracted with for construction, repair, or renovation work shall select a general contractor through one of the methods listed under G.S. 143-128(a1)(1) through G.S. 143-128(a1)(7). Payment bond requirements shall be in accordance with the selected contracting method. In addition, the private developer shall provide letters of credit or a payment bond in an amount equal to one hundred percent (100%) of the fees for any design and contracting services. Contracts for new construction and renovation that are subject to the bidding requirements of G.S. 143-129(a) and which do not constitute continuing contracts for capital outlay must be approved by the board of county commissioners.

(b1) A local board of education that determines it is in the local school administrative entity's best interests to pursue an operating lease with a private developer for one or more school buildings or facilities in the unit shall adopt a resolution justifying entering into an operating lease agreement along with a description of the school building or school buildings being pursued.

(b2) After adoption of the resolution under subsection (b1) of this section, the local board of education shall issue a public notice of the request for qualifications of private developers and evaluate the qualifications of the private developers. The notice shall be published in a newspaper having general circulation within the county in which the local school administrative unit of the local board of education is located. The notice shall be published a minimum of 30 days prior to evaluating the proposals received.

(b3) Before entering into a predevelopment or lease agreement to lease a school building or facility, the local board of education shall select the private developer on the basis of demonstrated competence and qualifications consistent with Article 3D of Chapter 143 of the
General Assembly Of North Carolina  

Session 2017

General Statutes. Any private developer submitting qualifications shall submit and the local board of education shall consider the following:

(4) Statement of availability to undertake the project and projected time line for project completion.

(5) The goals and plans of providers for utilization of minority business enterprises.

(6) Any other information required by the local board of education.

Following evaluation of the qualifications of the private developers, the three most highly qualified developers shall be ranked. If after the solicitation for developers, not as many as three responses have been received from qualified developers, the local board of education shall again solicit for developers. If as a result of such second solicitation not as many as three responses are received, the local board of education may then begin negotiations with the highest-ranked private developer under G.S. 143-64.31, even though fewer than three responses were received. If the local board of education deems it appropriate, the local board may invite some or all responders to interview with the local board.

(c) Operational Operating leases and contracts entered into under this section are subject to approval by the Local Government Commission under Article 8 of Chapter 159 of the General Statutes if they meet the standards set out in G.S. 159-148(a)(1), 159-148(a)(2), and 159-148(a)(3). For purposes of determining whether the standards set out in G.S. 159-148(a)(3) have been met, only the five hundred thousand dollar ($500,000) threshold shall apply.

(d) If a local board of education enters into an operating lease of real property for use as a school building or for school facilities, then the county may borrow money for a purpose allowed pursuant to 26 U.S.C. § 54E(d)(3) with respect to the building or facilities. The operating lease shall be for a period of at least 10 years.”
