- (9) A bulk tobacco barn or rack, parts and accessories attached to the tobacco barn or rack, and any similar apparatus, part, or accessory used to cure or dry tobacco or another crop.
- (10) Repair, maintenance, and installation services.

(b) Conditional Exemption. – A person who does not meet the definition of a qualifying farmer in subsection (a) of this section may apply to the Department for a conditional exemption certificate under G.S. 105-164.28A. A person with a conditional exemption certificate is allowed to purchase items exempt from sales and use tax to the same extent as a qualifying farmer under subsection (a) of this section. To receive a conditional exemption certificate under this subsection, the person must certify that the person intends to engage in farming operations, as that term is described in subsection (a) of this section, and that the person will timely file State and federal income tax returns that reflect income and expenses incurred from farming operations during the taxable years that the conditional exemption certificate applies.

A conditional exemption certificate issued under this subsection is valid for the taxable year in which the certificate is issued and the following two taxable years, provided the person to whom the certificate is issued is engaged in farming and provides copies of applicable State and federal income tax returns to the Department within 90 days following the due date of an income tax return for each taxable year covered by the conditional exemption certificate, including an extension of the due date granted by the Secretary under G.S. 105-263. A conditional exemption certificate issued under this subsection may not be extended or renewed beyond the original three-year ~~period~~; provided that a person may request a one-year extension of their conditional exemption certificate if the person satisfies all of the following conditions:

- (1) The person holds a conditional exemption certificate that is scheduled to expire within 30 days of an extension request.
- (2) The person suffers a weather-related disaster that prevents the person from becoming eligible for a qualifying exemption certificate.
- (3) The person provides the Department all of the following:
 - a. Documents showing that, but for the disaster, the person would have earned ten thousand (\$10,000) or more in gross sales for the year in which the disaster occurred.
 - b. Documentation of revenues and expenses relating to the damaged crop.
 - c. An affidavit from a county extension director or FSA county committee that the disaster occurred in the area of the county in which the person farms.

The Department may not issue a conditional exemption certificate to a person who has had a conditional exemption certificate issued under this subsection during the prior 15 taxable years.

A person who purchases items with a conditional exemption certificate must maintain documentation of the items purchased and copies of State and federal income tax returns that reflect activities from farming operations for the period of time covered by the conditional exemption certificate for three years following the expiration of the conditional exemption certificate. The Secretary may require a person who has a conditional exemption certificate to provide any other information requested by the Secretary to verify the person met the conditions of this subsection. A person who fails to provide the information requested by the Secretary in a timely manner or who fails to meet the requirements of this subsection becomes liable for any taxes for which an exemption under this subsection was claimed. The taxes become due and payable at the expiration of the conditional exemption certificate, and interest accrues from the date of the original purchase. Additionally, where the person does not timely provide the information requested by the Secretary, the misuse of exemption certificate penalty in G.S. 105-236(a)(5a) applies to each seller identified by the Department from which the person made a purchase.

(c) Contract with a Farmer. – A qualifying item listed in subdivisions (5), (8), and (9) of subsection (a) of this section purchased to fulfill a contract with a person who holds a qualifying farmer exemption certificate or a conditional farmer exemption certificate issued under G.S. 105-164.28A is exempt from sales and use tax to the same extent as if purchased directly by the person who holds the exemption certificate. A contractor that purchases one of the items allowed an exemption under this section must provide an exemption certificate to the retailer that includes the name of the qualifying farmer or conditional farmer exemption certificate holder and the qualifying farmer or conditional farmer exemption certificate number issued to that holder.

(d) Definition. – For purposes of this section, the term "taxable year" has the same meaning as defined in G.S. 105-153.3."

SECTION 20.(b) This section is effective for taxes imposed for taxable years beginning on or after July 1, 2017.
