"a. Charitable Contribution. – The amount allowed as a deduction for
charitable contributions under section 170 of the Code for that taxable
year. For taxable years beginning on or after 2014, 2014 through 2018,
a taxpayer who elected to take the income exclusion under section
408(d)(8) of the Code for a qualified charitable distribution from an
individual retirement plan by a person who has attained the age of 70

in G.S. 105-122(d2) per one thousand dollars ($1,000) of the amount
determined under subsection (a) of this section, but in section. In no case shall
the tax be more than one hundred fifty thousand dollars ($150,000) nor less
than two hundred dollars ($200.00).

(2) If the tax calculated under this subdivision exceeds the tax calculated under
subdivision (1) of this subsection, then the tax is levied at the rate of one dollar
and fifty cents ($1.50) set in G.S. 105-122(d2) per one thousand dollars
($1,000) on the greater of the following:

a. Fifty-five percent (55%) of the appraised value as determined for ad

PART III. USE MARKET-BASED SOURCING FOR MULTISTATE INCOME TAX APPORTIONMENT

SECTION 3.1. G.S. 105-130.4 reads as rewritten:

"§ 105-130.4. Allocation and apportionment of income for corporations.

... (l) (4) Sales Factor. – The sales factor is a fraction, the numerator of which is the total sales of the corporation in this State during the income year, and the denominator of which is the total sales of the corporation everywhere during the income year. Notwithstanding any other provision under this Part, the receipts from any casual sale of property shall be excluded from both the numerator and the denominator of the sales factor. Where a corporation is not taxable in another state on its apportionable income but is taxable in another state only because of nonapportionable income, all sales shall be treated as having been made in this State.

Receipts are in this State if the taxpayer's market for the receipts is in this State. If the market for a receipt cannot be determined, the state or states of assignment shall be reasonably approximated. In a case in which a taxpayer cannot ascertain the state or states to which receipts of a sale are to be assigned through the use of a method of reasonable approximation, the receipts must be excluded from the denominator of a taxpayer's sales factor. Except as otherwise provided by this section, a taxpayer's market for receipts is in this State as provided below:
In the case of sale, rental, lease, or license of real property, if and to the extent the property is located in this State.

In the case of rental, lease, or license of tangible personal property, if and to the extent the property is located in this State. Sales of tangible personal property are in this State if the property is received in this State by the purchaser. In the case of delivery of goods by common carrier or by other means of transportation, including transportation by the purchaser, the place at which the goods are ultimately received after all transportation has been completed shall be considered as the place at which the goods are received by the purchaser. Direct delivery into this State by the taxpayer to a person or firm designated by a purchaser from within or without the State shall constitute delivery to the purchaser in this State.

In the case of sale of tangible personal property, if and to the extent the property is received in this State by the purchaser. In the case of delivery of goods by common carrier or by other means of transportation, including transportation by the purchaser, the place at which the goods are ultimately received after all transportation has been completed is considered the place at which the goods are received by the purchaser. Direct delivery into this State by the taxpayer to a person or firm designated by a purchaser from within or without the State constitutes delivery to the purchaser in this State. Other sales are in this State if any of the following occur:

a. The receipts are from real or tangible personal property located in this State, and includes receipts from incidental services sold as part of, or in connection with, the sale of tangible personal property in this State.

b. The receipts are from intangible property and are received from sources within this State.

c. The receipts are from services and the income-producing activities are in this State. For the purposes of this subdivision, an "income-producing activity" means an activity directly performed by the taxpayer or its agents for the ultimate purpose of generating the sale of the service. Receipts from income-producing activities performed within and without this State are attributed to this State in proportion to the income-producing activities performed in this State to total income-producing activities performed everywhere that generate the sale of service.

In the case of sale of a service, if and to the extent the service is delivered to a location in this State.

In the case of intangible property that is rented, leased, or licensed, if and to the extent the property is used in this State. Intangible property utilized in marketing a good or service to a consumer is "used in this State" if that good or service is purchased by a consumer who is in this State.

In the case of intangible property that is sold, if and to the extent the property is used in this State. A contract right, government license, or similar intangible property that authorized the holder to conduct a business activity in a specific geographic area is "used in this State" if the geographic area includes all or part of this State. Receipts from a sale of intangible property that is contingent on the productivity, use, or disposition of the intangible property shall be treated as receipts from the rental, lease, or licensing of the intangible property as provided under subdivision (5) of this subsection. All other receipts from a sale of intangible property shall be excluded from the numerator and denominator of the sales factor.
(1) Broadcasters. – A broadcaster's market for receipts is in this State as provided in
G.S. 105-130.4A. For purposes of this section, the term "broadcaster" has the same meaning as
defined in G.S. 105-130.4A.
(2) Banks. – A bank's market for receipts is in this State as provided in G.S. 105-130.4B.
For purposes of this section, the term "bank" has the same meaning as defined in
G.S. 105-130.4B.

(s2) Pipeline Company. – Receipts from the transportation or transmission of a
petroleum-based liquids pipeline or natural gas by a company subject to rate regulation by the
Federal Energy Regulatory Commission shall be apportioned by multiplying the income by a
fraction, the numerator of which is the number of barrel miles traffic units in this State during
the tax year and the denominator of which is the total number of barrel miles traffic units
everywhere during the tax year. For purposes of this section, the term "barrel mile" means one
barrel of liquid property transported one mile. "Traffic unit" means one or more of the following:

(1) Barrel mile. – One barrel of liquid property transported one mile.
(2) Cubic foot mile. – One cubic foot of gaseous property transported one mile.

(s3) Electric Power Company. – All apportionable income of an electric power company
shall be apportioned by a fraction, the numerator of which is the average value of the real and
tangible personal property owned or rented and used in this State by the electric power company
during the income year and the denominator of which is the average value of all the real and
tangible personal property owned or rented and used by the electric power company during the
income year. For purposes of this subsection, the term "electric power company" is a company,
including any of its wholly owned noncorporate limited liability companies, primarily engaged
in the business of supplying electricity for light, heat, current, or power to persons in this State
and that is subject to control of one or more of the following entities: the North Carolina Utilities
Commission or the Federal Energy Regulatory Commission.

For purposes of this subsection, the average value of real and tangible personal property
owned or rented by an electric power company is determined as follows:

(1) The average value of property shall be determined by averaging the values at
the beginning and end of the income year, but in all cases the Secretary may
require the averaging of monthly or other periodic values during the income
year if reasonably required to reflect properly the average value of the
company's property.
(2) An electric power company that ceases its operations in this State before the
end of its income year because of its intention to dissolve or to relinquish its
certificate of authority, or because of a merger, conversion, or consolidation,
or for any other reason whatsoever shall use the real estate and tangible
personal property values as of the first day of the income year and the last day
of its operations in this State in determining the average value of property, but
the Secretary may require averaging of monthly or other periodic values
during the income year if reasonably required to reflect properly the average
value of the electric power company’s property.
(3) Property owned by an electric power company is valued at its original cost.
(4) Property rented by an electric power company is valued at eight times the net
annual rental rate.
(5) Net annual rental rate is the annual rental rate paid by an electric power
company less any annual rental rate received by the electric power company
from sub-rentals except that sub-rentals shall not be deducted when they
constitute apportionable income.
(6) Any property under construction and any property the income from which
constitutes nonapportionable income shall be excluded from the computation
of the average value of an electric power company's real and tangible personal property.

(t3) State Net Loss Apportionment Election. – Notwithstanding subsection (l)(4) of this section, a taxpayer with a State net loss balance as of the end of its 2019 taxable year may elect to apportion receipts from services based on the percentage of its income-producing activities performed in this State. The election must be made on the 2020 tax year return and must be in the form prescribed by the Secretary and contain any supporting documentation the Secretary may require. The election is binding and irrevocable until the earlier of the tax year in which (i) the existing State net loss balance is fully utilized or (ii) all of the existing State net loss balance has expired, as determined by applying the limitations set forth in G.S. 105-130.8A(b). A taxpayer must apportion receipts from services in accordance with subsection (l)(4) of this section for tax years beginning on and after the tax year that the existing State net loss is fully utilized.

For purposes of this subsection, a taxpayer's State net loss balance is the total amount of State net losses computed under G.S. 105-130.8A for taxable years beginning before January 1, 2020, and available to carry forward to taxable years beginning on or after January 1, 2020. A State net loss balance does not include a State net loss created in a taxable year beginning on or after January 1, 2020. A State net loss created in a taxable year beginning on or after January 1, 2020, must be determined using the apportionment rules in G.S. 105-130.4(l)."

SECTION 3.2. Part 1 of Article 4 of Chapter 105 of the General Statutes is amended by adding a new section to read:

"§ 105-130.4A. Market-based sourcing for broadcasters.

(a) Definitions. – The definitions in G.S. 105-130.4 and the following definitions apply to this section:

(1) Audience factor. – The factor determined by the ratio provided in this subdivision. The ratio is as follows:

a. Television station. – The ratio that the viewing audience located in this State for a television station bears to the total viewing audience for a television station.

b. Radio station. – The ratio that the listening audience in this State for a radio station bears to the total listening audience for a radio station.

c. Cable or satellite program and channel broadcasts. – The ratio that the subscribers for a cable or satellite system located in this State bears to the total subscribers of a cable or satellite system. If the number of subscribers cannot be accurately determined from the books and records maintained by the taxpayer, the ratio shall be determined on the basis of the applicable year's subscription statistics located in published surveys, provided the source selected is consistently used from year to year for this purpose.

(2) Broadcast. – The transmission of audio or video programming, directly or indirectly, to viewers and listeners by any other method of communication or combination of methods.

(3) Broadcaster. – A person that provides audio or video programming to customers in this State by digital or analog means in exchange for one or more of the following: advertising receipts, subscriber fees, license, rent, or similar fees. The term includes a television or radio station licensed by the Federal Communications Commission, including network-owned or affiliated stations, a television or radio broadcast network, a cable program network, a distributor of audio or video programming, a cable system operator, and satellite system operator.
(4) Gross receipts. – The same meaning as the term "sales" in G.S. 105-130.4.

(5) Release or in release. – The placing of film or radio programming into service. A film or radio program is placed into service when it is first broadcast to the primary audience for entertainment, educational, commercial, artistic, or other purposes. Each episode of a television or radio series is placed in service when it is first broadcast. A program is not placed in service merely because it is completed and therefore in a condition or state of readiness and availability for broadcast or merely because it is previewed to prospective sponsors or purchasers.

(6) Rent. – License fees or other payments or consideration provided in exchange for the broadcast or other use of television or radio programming.

(7) Subscriber. – The individual residence or other outlet that is the ultimate recipient of the transmission of the audio or video programming.

(b) Reasonable Approximation. – If the audience factor for a receipt cannot be determined, the state or states of assignment shall be reasonably approximated. If a taxpayer is delivering advertising or licensed content directly or indirectly to a known list of subscribers, the taxpayer shall reasonably approximate the receipts attributable to this State's market using a percentage that reflects the ratio of North Carolina subscribers to the total number of subscribers.

If the taxpayer is delivering advertising or licensed content through an intermediary and does not have access to the list of subscribers, the taxpayer shall reasonably approximate the receipts attributable to this State's market using a percentage that reflects the ratio of the North Carolina population to the total population in the specific geographic area where the advertisement or licensed content is materially used. Unless the taxpayer provides substantial evidence to the contrary, the area where the advertisement or licensed content is materially used does not include areas outside the United States. If the taxpayer is able to show with substantial evidence that the advertisement or licensed content is materially used in a city within a foreign country, then the population of that city may be included in the population ratio calculation. If the taxpayer is able to show with substantial evidence that the advertisement or license content is materially used throughout a foreign county, then the population of that foreign country may be included in the population ratio calculation. In a case where the specified rules of reasonable approximation fail to reasonably approximate the percentage of receipts attributable to this State's market, the Department may authorize an alternate approach that reflects an attempt to obtain the most accurate assignment of receipts.

(c) Market for Receipts. – The receipts factor of a broadcaster is a fraction, the numerator of which is the sum of the broadcaster's gross receipts from sources within the State and the denominator of which is the sum of the broadcaster's gross receipts from transactions and activity in the regular course of its trade or business everywhere. Advertising gross receipts and license fees for audio or video programming in release are attributable to this State in accordance with the audience factor in this State. Gross receipts from subscriber fees, rents, sales, or similar charges from audio or video programming in release are attributable to this State based on the amount of subscriber or other fees paid by customers in this State. A sale of audio or video programming on tangible media is sourced to this State as sales of tangible personal property.

SECTION 3.3. Part 1 of Article 4 of Chapter 105 of the General Statutes is amended by adding a new section to read:

"§ 105-130.4B. Market-based sourcing for banks.

(a) Definitions. – The definitions in G.S. 105-130.4 apply to this section and the following definitions apply to this section:

(1) Bank. – Defined in G.S. 105-130.7B.

(2) Billing address. – The location indicated in the books and records of the taxpayer on the first day of the taxable year, or on the date in the taxable year..."
when the customer relationship began, as the address where any notice, statement, or billing relating to the customer's account is mailed.

(3) Borrower, cardholder, or payor located in this State. – A borrower, credit cardholder, or payor whose billing address is in this State.

(4) Card issuer's reimbursement fee. – The fee a taxpayer receives from a merchant's bank because one of the persons to whom the taxpayer has issued a credit, debit, or similar type of card has charged merchandise or services to the card.

(5) Credit card. – A card, or other means of providing information, that entitles the holder to charge the cost of purchases, or a cash advance against a line of credit.

(6) Debit card. – A card, or other means of providing information, that enables the holder to charge the cost of purchases, or a cash withdrawal, against the holder's bank account or a remaining balance on the card.

(7) Loan. – Any extension of credit resulting from direct negotiations between the taxpayer and its customer, and/or the purchase, in whole or in part, of such an extension of credit from another. The term includes participations, syndications, and leases treated as loans for federal income tax purposes.

(8) Loan secured by real property. – A loan or other obligation of which fifty percent (50%) or more of the aggregate value of the collateral used to secure the loan or other obligation, when valued at fair market value as of the time the original loan or obligation was incurred, was real property.

(9) Merchant discount. – The fee, or negotiated discount, charged to a merchant by the taxpayer for the privilege of participating in a program whereby a credit, debit, or similar type of card is accepted in payment for merchandise or services sold to the cardholder, net of any cardholder chargeback and unreduced by any interchange transaction or issuer reimbursement fee paid to another for charges or purchased made by its cardholder.

(10) Participation. – An extension of credit in which an undivided ownership interest is held on a prorate basis in a single loan or pool of loans and related collateral. In a loan participation, the credit originator initially makes the loan and then subsequently resells all or a portion of it to other lenders. The participation may or may not be known to the borrower.

(11) Payor. – The person who is legally responsible for making payment to the taxpayer.

(12) Real property owned. – Real property (i) on which the taxpayer may claim depreciation for federal income tax purposes, or (ii) to which the taxpayer holds legal title and on which no other person may claim depreciation for federal income tax purposes or could claim depreciation if subject to federal income tax. Real property does not include coin, currency, or property acquired in lieu of or pursuant to a foreclosure.

(13) Syndication. – An extension of credit in which two or more persons fund and each person is at risk only up to a specified percentage of the total extension of credit or up to a specified dollar amount.

(14) Tangible personal property owned. – Tangible personal property (i) on which the taxpayer may claim depreciation for federal income tax purposes or (ii) to which the taxpayer holds legal title and on which no other person may claim depreciation for federal income tax purposes could claim depreciation if subject to federal income tax. Tangible personal property does not include coin, currency, or property acquired in lieu of or pursuant to a foreclosure.
Transportation property. – Vehicles and vessels capable of moving under their own power as well as any equipment or containers attached to such property. Examples of transportation property include aircraft, trains, water vessels, motor vehicles, rolling stock, barges, and trailers.

(b) General Rule. – The receipts factor of a bank is a fraction, the numerator of which is the total receipts of the taxpayer in this State during the income year, and the denominator of which is the total receipts of the taxpayer everywhere during the income year. The method of calculating receipts for purposes of the denominator is the same as the method used in determining receipts for purposes of the numerator. The receipts factor includes only those receipts described herein that are apportionable income for the taxable year. Notwithstanding any other provision under this Part, the receipts from the following are excluded from both the numerator and the denominator of the receipts factor:

(1) Receipts from a casual sale of property.
(2) Receipts exempt from taxation.
(3) The portion of receipts realized from the sale or maturity of securities or other obligations that represents a return of principal.
(4) Receipts in the nature of dividends subtracted under G.S. 105-130.5(b)(3a) and (3b) and dividends excluded for federal tax purposes.
(5) The portion of receipts from financial swaps and other similar financial derivatives that represent the notional principal amount that generates the cash flow traded in the swap agreement.

(c) Receipts from the Sale, Lease, or Rental of Real Property. – The numerator of the receipts factor includes receipts from the sale, lease, or rental of real property owned by the taxpayer if the property is located within this State or receipts from the sublease of real property if the property is located within this State.

(d) Receipts from the Sale, Lease, or Rental of Tangible Personal Property. – The method for calculating receipts from the sale, lease, or rental of tangible personal property is as follows:

(1) Tangible personal property. – Except as provided in subdivision (2) of this subsection, the numerator of the receipts factor includes receipts from the sale, lease, or rental of tangible personal property owned by the taxpayer if the property is located within this State when it is first placed in service by the lessee.

(2) Transportation property. – Receipts from the lease or rental of transportation property owned by the taxpayer are included in the numerator of the receipts factor to the extent that the property is used in this State. The extent an aircraft will be deemed to be used in this State and the amount of receipts that is to be included in the numerator of this State’s receipts factor is determined by multiplying all the receipts from the lease or rental of the aircraft by a fraction, the numerator of which is the number of landings of the aircraft in this State and the denominator of which is the total number of landings of the aircraft. If the extent of the use of any transportation property within this State cannot be determined, then the property will be deemed to be used wholly in the state in which the property has its principal base of operations. A motor vehicle will be deemed to be used wholly in the state in which it is registered.

(e) Interest, Fees, and Penalties from Loans Secured by Real Property. – The numerator of the receipts factor includes interest, fees, and penalties from loans secured by real property if the property is located within this State. If the property is located both within this State and one or more other states, the receipts described in this subsection are included in the numerator of the receipts factor if more than fifty percent (50%) of the fair market value of the real property is located within this State. If more than fifty percent (50%) of the fair market value of the real property is not located within any one state, then the receipts described in this subsection are
included in the numerator of the receipts factor if the borrower is located in this State. The
determination of whether the real property securing a loan is located within this State is made as
of the time the original agreement was made and any and all subsequent substitutions of collateral
are disregarded.

(f) Interest, Fees, and Penalties from Loans Not Secured by Real Property. – The
numerator of the receipts factor includes interest, fees, and penalties from loans not secured by
real property if the borrower is located in this State.

(g) Net Gains from the Sale of Loans. – The numerator of the receipts factor includes net
gains from the sale of loans. Net gains from the sale of loans include income recorded under the
coupon stripping rules of section 1286 of the Code. The amount of net gains from the sale of
loans that is included in the numerator is determined as follows:

(1) Secured by real property. – The amount of net gains, but not less than zero,
from the sale of loans secured by real property is determined by multiplying
the net gains by a fraction, the numerator of which is the amount included in
the numerator of the receipts factor pursuant to subsection (e) of this section,
and the denominator of which is the total amount of interest, fees, and
penalties from loans secured by real property.

(2) Not secured by real property. – The amount of net gains, but not less than zero,
from the sale of loans not secured by real property is determined by
multiplying the net gains by a fraction, the numerator of which is the amount

The sales price of the rental of an accommodation marketed made by an accommodation facilitator includes any charges designated as facilitation fees and any other charges or fees, by whatever name called, charged by the accommodation facilitator to the purchaser of the accommodation that are necessary to complete the rental. The tax is due and payable by the retailer in accordance with G.S. 105-164.16.

Tax payments received by a retailer from a accommodation facilitator are held in trust by the retailer for remittance to the Secretary. A retailer that receives a tax payment from a accommodation facilitator must remit the amount received to the Secretary. The annual report must be provided in electronic format and include the property owner’s name, the property owner’s mailing address, the physical location of the accommodation, and gross receipts information for the rentals.
